Seminar "The Road to the Register Census"

The Statistical Institute of Albania, in the period 19-20 April in Tirana, organized the seminar "The Road to the Registration Census". The participants of the meeting were representatives of statistical institutions from all countries of the region, that is, directors of statistical institutes and heads of the census.

The Montenegrin delegation at the seminar "The Road to the Registration Census" was led by the director of the Directorate for Statistics, Miroslav Pejović, and the delegation included Snežana Remiković, acting assistant director for the Department of Social Statistics and Demography.

All participants gave a presentation regarding the plans for conducting the census. All countries should in the following period consider the possibility of collecting data on population and housing from registers. Finally, it is necessary to point out that this meeting is recognized as an initiative for cooperation among the countries of the region in the coming period.
