ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

A 3D graphic of a blue ribbon with a white border, curving from the left towards the right. The year "2025" is printed in blue on the right side of the ribbon.

2025

Podgorica, December 2024

CONTENT

DEMOGRAPHY AND SOCIAL STATISTICS

1.1. POPULATION

1.	Birth statistics	2
2.	Statistics on deaths	3
3.	Marriage statistics	4
4.	Divorce statistics	5
5.	Population estimates	6
6.	Main demographic indicators	7
7.	Statistics on internal migration	8
8.	Statistics of immigration to Montenegro	9
9.	Statistics of emigration from Montenegro - pilot	10
10.	Acquisition and loss of citizenship statistics - pilot	11
11.	The 2023 Census of Population, Households, and Dwellings	12
12.	Illegal migration statistics	13
13.	Asylum statistics	14
14.	Residence permits - pilot	15

1.2. LABOUR MARKET

15.	Labour Force Survey - LFS	16
16.	Statistical survey on insured persons - employees by activity and municipality	17
17.	Labour Cost Survey - LCS	18
18.	Statistical survey on average earnings of employees	19

1.3 EDUCATION AND LIFELONG LEARNING

19.	Statistical survey for preschool education	20
20.	Primary education statistics	21
21.	Adult primary education statistics	22
22.	Secondary education statistics	23
23.	Statistical survey on academic, professional staff, and structure of higher education organizations	24
24.	Statistical survey on enrolment of students (undergraduate studies)	25
25.	Statistical survey on graduated students (undergraduated studies)	26
26.	Statistical survey for PhD holders	27
27.	Statistical survey on pupils and students' homes	28

28.	Enrolment to postgraduate and doctoral studies	29
29.	Statistical survey on specialists and master degree holders	30
30.	Continuing Vocational Training Survey - pilot	31

1.4 HEALTH

31.	Multiple Indicator Cluster Survey - MICS	32
32.	European Health Interview Survey (EHIS) - pilot (testing the questionnaire)	33
33.	Report on human resources in health care	34
34.	Report on organization and work of hospitals	35
35.	Report on completed compulsory immunization against infectious diseases	36
36.	Survey on injuries at work	37
37.	Survey on causes of death	38
38.	Report on treated patients in service of hospital-patient treatment	39

1.5 INCOME AND LIVING CONDITIONS

39.	Household Budget Survey	40
40.	Survey on income and living conditions (EU-SILC)	41

1.6. SOCIAL PROTECTION

41.	Beneficiaries of social and child care allowances	42
42.	Social protection in Montenegro - ESSPROS	43
43.	Beneficiaries of accommodation services in social and child care institutions	44
44.	Report on pension and disability insurance beneficiaries	45
45.	Annual report on pension and disability insurance beneficiaries	46

1.7. JUSTICE AND CRIME

46.	Statistical survey on adults against whom proceeding based on criminal charges and previous proceedings have been concluded	47
47.	Statistical survey on adults against whom criminal proceedings have been concluded	48
48.	Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded	49
49.	Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded	50
50.	Crime indicators	51

1.8. CULTURE

51.	Statistical survey on cinema	52
52.	Statistical survey on theatres	53
53.	Statistics on electronic media	54
54.	Statistical survey on museums and museum collections	55

ECONOMIC STATISTICS

2.1 MAKROECONOMIC ACCOUNTS AND STATISTICS

55.	Establishment of framework and elements necessary for production of non-financial sector accounts - pilot	57
56.	Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation	58
57.	Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector	59
58.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	60
59.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	61
60.	Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured	62
61.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of households	63
62.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs	64
63.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for activity: Agriculture, forestry and fishery according to the 2010 Activity Classification	65
64.	Calculation of annual gross domestic product by production approach	66
65.	Calculation of annual gross domestic product of Montenegro by expenditure approach	67
66.	Calculation of Quarterly Gross Domestic Product by Expenditure Approach	68
67.	Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	69

68.	Creation of elements required for the calculation of GDP by expenditure approach: household final consumption	70
69.	Creation of elements necessary for the calculation of gross domestic product by income approach	71
70.	Calculation of quarterly Gross Domestic Product of Montenegro by production approach	72
71.	Creation of elements required for the calculation of quarterly Gross Domestic Product by production approach	73
72.	Creation of elements required for the calculation of quarterly Gross Domestic Product by expenditure approach	74
73.	Calculation of quarterly gross domestic product by income approach - pilot	75
74.	Calculation of annual gross domestic product by income approach	76
75.	Creation of elements necessary for the calculation of quarterly Gross Domestic Product by income approach - pilot	77
76.	Establishing an integrated system for the supply and use table compilation	78
77.	Calculation of annual gross national income	79
78.	Creation of elements required for the calculation of gross domestic product: estimation of no observed economy as a constituent part of GDP - pilot	80
79.	Establishment of framework and elements necessary for production of non-financial sector accounts - pilot	81
80.	Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation	82
81.	Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector	83
82.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	84
83.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	85
84.	Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured	86
85.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of households	87
86.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs	88
87.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for activity: Agriculture, forestry and fishery according to the 2010 Activity Classification	89
88.	Calculation of annual gross domestic product by production approach	90

89.	Calculation of annual gross domestic product of Montenegro by expenditure approach	91
90.	Calculation of Quarterly Gross Domestic Product by Expenditure Approach	92
91.	Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	93
92.	Creation of elements required for the calculation of GDP by expenditure approach: household final consumption	94
93.	Creation of elements necessary for the calculation of gross domestic product by income approach	95
94.	Calculation of quarterly Gross Domestic Product of Montenegro by production approach	96
95.	Creation of elements required for the calculation of quarterly Gross Domestic Product by production approach	97
96.	Creation of elements required for the calculation of quarterly Gross Domestic Product by expenditure approach	98

2.2 BUSINESS STATISTICS

97.	Survey on enterprises with units in their composition	99
98.	Survey on business of large and middle-sized enterprises	100
99.	Investments in fixed assets (quarterly) - pilot	101
100.	Structural Business Survey	102
101.	Investments in fixed assets	103
102.	Industrial production (PRODCOM)	104
103.	Indices of industrial production and turnover	105
104.	Producer price index of industrial products	106
105.	Producer Price Index of Industrial Products for Export	107
106.	Price index of industrial products from import	108
107.	Prices of dwellings in new residential buildings	109
108.	Construction works and consumption of construction material - companies	110
109.	Construction activity	111
110.	Building permits and notification of building work	112
111.	Turnover index in retail trade	113
112.	Turnover in wholesale trade	114
113.	Turnover index in services	115
114.	Services producer price index - pilot	116
115.	Inward Foreign Affiliate Statistics (IFATS)	117
116.	Outward Foreign Affiliate Statistics (OFATS) - pilot	118
117.	Survey on matters of direct foreign investment (annual)	119

118.	Survey on matters of direct foreign investment (quarterly)	120
------	--	-----

2.3 INTERNATIONAL TRADE

119.	Indices of unit values of exports and imports of goods	121
120.	International trade in goods of Montenegro	122
121.	International trade in goods of Montenegro by enterprise characteristics (TEC)	123
122.	International trade in goods of Montenegro by invoicing currency - TIC	124

2.4 PRICES

123.	Consumer Price Index	125
124.	Harmonised Index of Consumer Prices	126
125.	Harmonised index of consumer prices in administrative prices	127
126.	Harmonized index of consumer prices at constant tax rates - pilot	128
127.	Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Machinery and equipment"	129
128.	Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	130
129.	Gross domestic product and real individual consumption per capita, by purchasing power parity	131
130.	Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction"	132
131.	House Price Index - pilot	133
132.	Owner occupied house price index - pilot	134

2.5 SCIENCE, TECHNOLOGY, AND INNOVATIONS

133.	Statistical survey on scientific and research activity - research and development	135
134.	Innovation activities of enterprises	136
135.	Survey on the ICT use in households and by individuals	137
136.	Survey on ICT use in enterprises	138

SECTOR STATISTICS

3.1. AGRICULTURE, FORESTRY, AND FISHERY

137.	Production of forest assortments in state forests	140
------	---	-----

138.	Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests	141
139.	Forestry Accounts - pilot	142
140.	Labour force, consumption of energy products, and machinery in forestry - pilot	143
141.	Hunting	144
142.	Veterinary	145
143.	Achieved yields from early crop	146
144.	Achieved yields of late crops, fruit and grape	147
145.	Areas and plantations at the end of spring sowing	148
146.	Slaughtering livestock and poultry in slaughterhouses	149
147.	Number of livestock and poultry	150
148.	Entrance of raw milk and obtained milk products in dairies	151
149.	Census of Agriculture	152
150.	Prices of Agricultural Products, Raw Materials, Resources, and Services provided for agriculture - pilot	153
151.	Expenditures and agricultural production of agricultural holdings - pilot	154
152.	Sale of agricultural products from own production of agricultural companies and agricultural cooperatives	155
153.	Purchase of agricultural products from individual producers	156
154.	Accounts in Agriculture - pilot	157
155.	Prices of land and land rents - pilot	158
156.	Fishermen and fishing equipment in maritime fishery	159
157.	Fishing on rivers and lakes	160
158.	Maritime fishery	161
159.	Production of fish and shellfish in mariculture	162
160.	Production of fish in fishponds - aquaculture	163
161.	Organic production statistics	164
162.	Turnover of pesticide	165

3.2. ENERGY

163.	Energy Consumption in Household Sector	166
164.	Balance of petroleum products	167
165.	Balance of Coal	168
166.	Balance of wood fuels	169
167.	Balance of Electricity	170
168.	Short-term statistics of petroleum products	171
169.	Prices of electricity in households and industry	172
170.	Short-term statistics of coal	173
171.	Short-term statistics of electricity	174

3.3. TRANSPORT

172.	Merchant navy	175
173.	Airport infrastructure and traffic in airports	176
174.	Air transport	177
175.	Infrastructure and traffic in air transport	178
176.	Transport of passengers and goods in railway transport	179
177.	Railway infrastructure	180
178.	Other passenger road transport	181
179.	Freight road transport	182
180.	Roads and bridges	183
181.	Registered road motor vehicles and trailer vehicles	184
182.	Traffic accidents	185
183.	Arrivals and departures of ships in ports	186
184.	Transshipment in ports	187
185.	Postal and telecommunication services	188
186.	Postal and telecommunication network	189
187.	Traffic of passengers and goods at airports by airport pairs	190

3.4. TOURISM

188.	Arrivals and overnights of tourists in collective accommodation	191
189.	Nautical tourism	192
190.	Visits of foreign cruise ships	193
191.	Arrivals and overnight stays of tourists in private accommodation	194
192.	Arrivals and overnight stays of tourists, total	195
193.	Tourism satellite accounts (TSA) - pilot	196
194.	Tourist activity of Montenegro population - pilot	197

ENVIRONMENTAL STATISTICS

4.1. ENVIRONMENT

195.	Environmental accounts - pilot	199
196.	Investments in environmental protection - pilot	200
197.	Waste collection and processing	201
198.	Municipal waste	202
199.	Generated waste	203
200.	Survey on waste generated from food - pilot	204
201.	Waste water from settlements	205

202.	Supply of settlement with water	206
203.	Use and protection of water against pollution in industry	207
204.	Irrigation	208

COMPREHENSIVE STATISTICS

5.1. SUSTAINABLE DEVELOPMENT INDICATORS

205.	Sustainable development indicators from UN list	210
206.	Sustainable development indicators from EU list	211

Demography and Migration Statistics Statistics

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Demography and Social Statistics	
Ordinal number of survey:	1	Code of survey: DEM-1
Producer of the official statistics:	Statistical Office	
Organizational unit:	Demography and Migration Statistics Department	
Name of the survey:	Birth statistics	
Level of publishing data:	Montenegro, municipality	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Ministry of Interior	
Deadline for data collection:	Up to the 5th in a month for the previous month	
Deadline for publishing data:	Monthly preliminary data: data for November 2024 - 31 January 2025; December 2024 - 28 February 2025; January 2025 - 31 March 2025; February 2025 - 30 April 2025; March 2025 - 30 May 2025; April 2025 - 30 June 2025; May 2025 - 31 July 2025; June 2025 - 29 August 2025; July 2025 - 30 September 2025; August 2025 - 31 October 2025; September 2025 - 28 November 2025; October 2025 - 31 December 2025. Annual final data: 14 April 2025 for the previous year.	
Research method:	Administrative source	
Connection with the European Statistics:	Priority area 1, Module 1.1.1.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.1.	Population
Aim of the survey:	Statistics of births seeks to produce the data on demographic characteristics of the child born alive, as well as demographic and socio-economic characteristics of the parents. The obtained data are needed for the analysis of natural increase at the level of Montenegro and municipalities. The data are the basis for the calculation of a series of analytical demographic indicators used in order to develop the analysis of any current or future structure of the population.	
Financial resources required for the implementation of statistical survey:	17,670.34	EUR

Module 2.1.8.

Supply, use, and input-output tables

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	82	Code of survey:	BDP-SUT
Producer of the official statistics:	Statistical Office		
Organizational unit:	Annual National Accounts Statistics Department		
Name of the survey:	Establishing an integrated system for the supply and use table compilation		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Finance; Central Bank of Montenegro; Tax Administration; Ministry of Defence; Ministry of Education, Science, and Innovation; Insurance Supervision Agency; Capital Market Authority; Health Insurance Fund; University of Montenegro; Public Health Institute; Ministry of Interior; Police Administration; Forensic Center; Statistical Office		
Deadline for data collection:	Up to the end of March 2025 for the reference 2019		
Deadline for publishing data:			
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.8.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.1. Macroeconomic accounts and statistics		
Aim of the survey:	Observation and identifying of all necessary data sources aimed at the production of supply and use tables which represent an integral part of National Accounts - NA system. They in details describe production process and flows of goods and services in the NA system. Supply table represents a total supply of goods, and services achieved by domestic production and import. Use table presents an intermediary consumption by product and activities, product use for final consumption, gross investments, export and components of value added by activities. Supply and use tables provide an accounting framework for compiling national accounts, having total supply and use of certain types of goods and services mutually balanced. Supply and use tables also provide main information for obtaining detailed supply and use tables that can be used for the purposes of economic analyses and projections.		
Financial resources required for the implementation of statistical survey:	19,278.86EUR		

Responsible person : Snezana Bogojevic, Bojana Cupic, Dijana Ristic, Zora Boskovic - Konjevic, Milica Pejovic, Irena Karadzic, Ivan Kavacic, Ana Batalovic, Dragana Nogulovic

Module 2.3.2.

International Trade of Goods

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	119	Code of survey:	UVI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	Indices of unit values of exports and imports of goods		
Level of publishing data:	Montenegro		
Publishing periodicity:	Quarterly, annual		
Source of data:	Administrative source - Customs Administration		
Deadline for data collection:	Quarterly: 1 kvartal - the end of April 2025; 2nd quarter - the end of July 2025; 3rd quarter - the end of October 2025; 4th quarter - the end of January 2026 Annual: up to the end of March 2025 for the previous year		
Deadline for publishing data:	Quarterly preliminary data: 4th quarter 2024 - 25 February 2025; 1st quarter - 27 May 2025; 2nd quarter - 26 August 2025; 3rd quarter - 25 November 2025 Annual final data: 26 June 2025 for the previous year		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.3.2.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.4. International Trade		
Aim of the survey:	Unit value indices of exports and imports of goods are primarily intended for analytical consideration of the dynamics of the unit value of exports and imports. Indices of export and import prices are calculated as unit value indices, i.e. indices of changes of export and import by quantity unit exported/imported products, i.e. per kg as unique and comparable quantity unit for all products.		
Financial resources required for the implementation of statistical survey:	8,454.69 EUR

Module 2.3.2.

International Trade of Goods

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	120	Code of survey:	STRR
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	International trade in goods of Montenegro		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly, quarterly		
Source of data:	Administrative source - Customs Administration		
Deadline for data collection:	Monthly preliminary data: up to the 20th in a month for the previous month Annual final data: up to 15 March of the current year for the previous year		
Deadline for publishing data:	Monthly preliminary data: for January - December 2024 - 30 January 2025; for January 2025 - 27 February 2025; for January - February 2025 - 28 March 2025; for January - March 2025 - 30 April 2025; for January - April 2025 - 29 May 2025; for January - May 2025 - 27 June 2025; for January - June 2025 - 31 July 2025; for January - July 2025 - 28 August 2025; for January - August 2025 - 30 September 2025; for January - September 2025 - 30 October 2025; for January - October 2025 - 27 November 2025; for January - November 2025 - 30 December 2025. Annual final data: for 2024 - 17 April 2025		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.3.2.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.4. International Trade		
Aim of the survey:	The aim of international trade in goods is monitoring the trade of goods with abroad. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in goods statistics is an important source of data for national accounts, balance of payment statistics, and short-term economic analyses. It is also important for monitoring a competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements. Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and Combined Nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of chapters, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.

Harmonized Consumer Price Index

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	123	Code of survey:	CPI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics		
Name of the survey:	Consumer Price Index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar), where the highest turnover is achieved.		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	Monthly final data: 15 days after the end of the reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.4.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.5. Prices		
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of labour price, in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses, as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.		
Financial resources required for the implementation of statistical survey:	14,108.99EUR

Agriculture, accounts, and price statistics

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2025

PRIORITY AREA:	Sector Statistics		
Ordinal number of survey:	150	Code of survey:	PO - CA, PO - CI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Economic Accounts in Agriculture, Forestry, and Environment Department		
Name of the survey:	Prices of Agricultural Products, Raw Materials, Resources, and Services provided for agriculture - pilot		
Level of publishing data:	/		
Publishing periodicity:	/		
Source of data:	Enterprises, agricultural cooperatives, and business entities within trade, industrial, and other enterprises.		
Deadline for data collection:	Up to the 20th in a month for the previous month		
Deadline for publishing data:	/		
Research method:	Reporting method - full coverage		
Connection with the European Statistics:	Priority area 3, Module 3.1.2. e		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	3.1.	Agriculture, Forestry, and Fishery	
Aim of the survey:	The aim of survey is the calculation of index on prices of agricultural and fishery products, and index of raw materials, resources, and services provided for agriculture. The calculated indices represent an indicator of change in the prices of agricultural products and resources allocated to agriculture. The data are used as an input for the calculation of economic agricultural accounts. The data are not published, but used as an input for the calculation of economic accounts for agriculture.		
Financial resources required for the implementation of statistical survey:	6,751.95	EUR

EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012, and 47/19 of 12 August 2019) define the preparation of the Annual Plan of Official Statistics.

The implementation of 206 statistical surveys is planned by the Annual Plan of Official Statistics for 2025. Out of the total number of planned statistical surveys, there will be 177 statistical surveys (86%) implemented by the Statistical Office, as the main coordinator and disseminator of statistical data; 27 planned statistical surveys (13%) will be implemented by other official statistical producers; and 2 statistical surveys (1%) will be completed by joint cooperation of Ministry of Finance, Central Bank of Montenegro, and Statistical Office.

Pursuant to the 2025 Annual Plan of Official Statistics, the area of official statistics comprises five statistical domains. Accordingly, there is planned the implementation of 206 statistical surveys: Demography and social statistics (54); Economic statistics (82); Sector statistics (58); Environment (10), and Sustainable development indicators (2).

As the summary of the 2025 Annual Plan of Official Statistics, the following is highlighted:

- **Pilot statistical surveys** (28), introduced when there is necessary to do the assessment of methodology or data source quality for data that need to be collected by the statistical survey. Under competence of the Statistical Office, there are 25 pilot statistical surveys; 2 surveys are under competence of Central Bank of Montenegro, and 1 statistical survey is under competence of Public Health Institute of Montenegro. Pilot statistical surveys are in domain of: Demography and social statistics (5); Economic statistics (12); Sector statistics (8), and Environment (3).
- **New statistical surveys** (2) are introduced in statistical domain of demography and social statistics, and sector statistics under competence of Statistical Office:
 - Energy consumption in household sector, and
 - Multiple Cluster Indicator Survey - MICS.

For the implementation of the 2025 Annual Plan of Official Statistics, under competence of Statistical Office, there are planned necessary financial resources in the Budget of Montenegro for the next fiscal year in total amount of 3 057 950.11 euro.

Pension and Disability Insurance Fund planned the financial resources in amount of 9 582.80 euro; Ministry of Education, Science, and Innovation in amount of 10 000.00 euro;

other institutions of statistical system reported no costs for the implementation of statistical surveys planned by the 2025 Annual Plan of Official Statistics.
