# **ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026**

A 3D graphic of a blue ribbon that folds and loops, ending in a rectangular box containing the year 2026.

**2026**

**Podgorica, December 2025**

## **TABLE OF CONTENTS**

### **DEMOGRAPHY AND SOCIAL STATISTICS**

<b>1.1 POPULATION</b>	<b>1</b>
1. Birth statistics	2
2. Statistics on deaths	3
3. Marriage statistics	4
4. Divorce statistics	5
5. Population estimates	6
6. Main demographic indicators	7
7. Statistics on internal migration	8
8. Acquisition and loss of citizenship statistics – pilot	9
9. Gender statistics	10
10. Statistics of immigration to Montenegro	11
11. Statistics of emigration from Montenegro – pilot	12
12. Census of Population, Households, and Dwellings	13
13. Illegal migration statistics	14
14. Asylum statistics	15
15. Residence permits – pilot	16
<b>1.2 LABOUR MARKET</b>	
16. Labour Force Survey – LFS	17
17. Statistical survey on insured persons – employees by activity and municipality	18
18. Job vacancies statistics – pilot	19
19. Statistical survey on average earnings of employees	20
20. Survey on labour costs	21
21. Labour cost index – pilot	22
<b>1.3 EDUCATION AND LIFELONG LEARNING</b>	
22. Statistical survey for preschool education	23
23. Statistical survey on academic, professional staff and structure of higher education institutions	24
24. Statistical survey on enrolment of students (undergraduate studies)	25

25. Statistical survey on graduated students (undergraduate studies)	26
26. Statistical survey for PhD holders	27
27. Statistical survey on specialists and master degrees	28
28. Enrolment to postgraduate and doctoral studies	29
29. Primary education statistics	30
30. Adult primary education statistics	31
31. Secondary education statistics	32
32. Statistical survey on pupils and students dormitories	33
33. Survey on continuing vocational training	34

#### **1.4 HEALTH**

34. European Health Interview Survey (EHIS) – pilot	35
35. Report on health personnel	36
36. Report on organisation and work of hospitals	37
37. Report on mandatory immunisation against infectious diseases	38
38. Survey on occupational injuries	39
39. Survey on causes of death	40
40. Report on treated patients in inpatient health care institutions	41
41. Multiple Indicator Cluster Survey – MICS	42

#### **1.5 INCOME AND CONSUMPTION**

42. Household Budget Survey	43
43. Survey on Income and Living Conditions – EU-SILC	44

#### **1.6 SOCIAL PROTECTION**

44. Report on beneficiaries of pension and disability insurance rights	45
45. Social protection in Montenegro – ESSPROS	46
46. Beneficiaries of social and child protection benefits	47
47. Beneficiaries of accommodation services in social and child protection institutions	48
48. Annual report on beneficiaries of pension and disability insurance rights	49

## **1.7 JUSTICE AND CRIME**

49. Statistical survey on adult persons against whom proceedings based on criminal charges and preliminary proceedings have been completed	50
50. Statistical survey on juvenile persons against whom proceedings based on criminal charges and preparatory proceedings have been completed	51
51. Statistical survey on adult persons against whom criminal proceedings have been legally concluded	52
52. Statistical survey on juvenile persons against whom criminal proceedings before the council have been legally concluded	53
53. Crime indicators	54

## **1.8 CULTURE**

54. Statistical survey on cinemas	55
55. Statistical survey on theatres	56
56. Electronic media statistics	57
57. Statistical survey on libraries	58

## **ECONOMIC STATISTICS**

<b>2.1 MACROECONOMICS</b>	<b>59</b>
58. International investment position – IIP	60
59. Survey on trade loans and deposits	61
60. Balance of payments of Montenegro	62
61. Survey on credit transactions with foreign residents	63
62. External debt of Montenegro	64
63. Survey on international transactions related to construction services – pilot	65
64. Establishment of framework and elements necessary for production of non-financial sector accounts - pilot	66
65. Creation of elements required for the calculation of gross domestic product: Calculation of financial services indirectly measured	67
66. Creation of elements required for the calculation of gross domestic product:	

Calculation of gross value added of financial units	68
67. Creation of elements required for the calculation of gross domestic product: Calculation of gross value added of households	69
68. Creation of elements required for the calculation of gross domestic product: Calculation of gross value added for entrepreneur	70
69. Creation of elements required for the calculation of gross domestic product: Calculation of gross value added of non-financial units	71
70. Creation of elements required for the calculation of gross domestic product: Calculation of gross value added: Agriculture, forestry, and fishery in line with KD 2010	72
71. Calculation of quarterly gross domestic product by expenditure approach	73
72. Calculation of annual gross domestic product of Montenegro by expenditure approach	74
73. Calculation of annual gross domestic product by production approach	75
74. Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	76
75. Calculation of annual gross domestic product by income approach	77
76. Creation of elements required for the calculation of gross domestic product: Calculation of government sector spending	78
77. Creation of elements required for the calculation of GDP by expenditure: household final consumption	79
78. Creation of elements necessary for the calculation of gross domestic product by income approach	80
79. Calculation of quarterly Gross Domestic Product of Montenegro by production approach	81
80. Creation of elements required for the calculation of quarterly Gross Domestic by production approach	82
81. Creation of elements required for the calculation of quarterly Gross Domestic by expenditure approach	83
82. Calculation of quarterly gross domestic product by income approach – pilot	84
83. Creation of elements necessary for the calculation of quarterly Gross Domestic Product by income approach – pilot	85
84. Compilation of elements necessary for calculating GDP by the expenditure approach: gross fixed capital formation	86
85. Establishing an integrated system for the supply and use table compilation	87
86. Compilation of elements for input–output tables (IOT) – pilot	88
87. Calculation of annual gross national income	89
88. Creation of elements required for the estimation of non observed economy as a constituent part of GDP – pilot	90
89. Statistics of other institutions – insurance companies - pilot	91
90. Statistics of other financial institutions – investment funds – pilot	92
91. Statistics of other financial institutions – leasing companies	93

92. Statistics of other financial institutions - microcredit financial institutions	94
93. Statistics of monetary financial institutions	95
94. Interest rate statistics	96
95. Financial Soundness Indicators	97
96. Statistics of other financial institutions – factoring companies	98
97. Statistics of other financial institutions - companies for purchase of receivables	99
98. Analysis of consolidated public spending	100
99. Data on receipts, government expenditure per month	101
100. Report on excessive deficit and debt – pilot	102
101. Government finance statistics in line with ESA2010 – pilot	103

## **2.2. BUSINESS STATISTICS**

102. Structural Business Survey	104
103. Investments in fixed assets	105
104. Investments in fixed assets (quarterly) – pilot	106
105. Industrial production (PRODCOM)	107
106. Indices of industrial production and turnover	108
107. Producer price index of industrial products	109
108. Producer Price Index of Industrial Products for Export	110
109. Price index of industrial products from import	111
110. Prices of dwellings in new residential buildings	112
111. Construction works and consumption of construction material - companies	113
112. Construction activity	114
113. Building permits	115
114. Turnover index in retail trade	116
115. Turnover in wholesale trade	117
116. Turnover index in services	118
117. Services producer price index - pilot	119
118. Inward Foreign Affiliate Statistics (IFATS)	120
119. Outward Foreign Affiliate Statistics (OFATS) – pilot	121
120. Survey on matters of direct foreign investment (annual)	122
121. Survey on matters of direct foreign investment (quarterly)	123

## **2.3 INTERNATIONAL TRADE**

122. Indices of unit values of exports and imports of goods	124
123. International trade in goods of Montenegro	125
124. International trade in goods of Montenegro by enterprise characteristics (TEC)	126

125. International trade in goods of Montenegro by invoicing currency - TIC	127
---	-----

## **2.4 PRICES**

126. Consumer Price Index	128
127. Harmonised Index of Consumer Prices	129
128. Harmonised index of consumer prices in administrative prices	130
129. Harmonized index of consumer prices at constant tax rates	131
130. Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	132
131. Gross domestic product and real individual consumption per capita, by purchasing power parity	133
132. Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction"	134
133. House Price Index - pilot	135
134. Owner occupied house price index - pilot	136

## **2.5 SCIENCE, TECHNOLOGY, AND INNOVATIONS**

135. Statistical survey on scientific and research activity - research and development	137
136. Innovation activities of enterprises	138
137. Survey on ICT use in enterprises	139
138. Survey on the ICT use in households and by individuals	140

## **SECTOR STATISTICS**

### **3.1. AGRICULTURE, FORESTRY, AND FISHERY**

139. Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests	142
140. Production of forest assortments in state forests	143
141. Hunting	144
142. Forestry Accounts	145
143. Expenditures and agricultural production of agricultural holdings – pilot	146
144. Labour force, consumption of energy products, and machinery in forestry - pilot	147
145. Veterinary	148
146. Achieved yields from early crop	149
147. Areas and plantations at the end of spring sowing	150
148. Annual survey on crop and livestock production	151
149. Survey on structure of vineyards	152
150. Slaughtering livestock and poultry in slaughterhouses	153
151. Entrance of raw milk and obtained milk products in dairies	154

152. Census of Agriculture – typology of agricultural holdings and SO coefficients	155
153. Prices of Agricultural Products, Raw Materials, Resources, and Services provided for agriculture	156
154. Expenditure and agricultural holding production – pilot	157
155. Sale of agricultural products from own production of agricultural companies and agricultural cooperatives	158
156. Purchase of agricultural products from individual producers	159
157. Accounts in Agriculture - pilot	160
158. Prices of land and land rents - pilot	161
159. Fishermen and fishing equipment in maritime fishery	162
160. Fishing on rivers and lakes	163
161. Production of fish and shellfish in mariculture	164
162. Maritime fishery	165
163. Production of fish in fishponds – aquaculture	166
164. Organic production statistics	167
165. Turnover of pesticides	168

### **3.2. ENERGY**

166. Balance of petroleum products	169
167. Balance of coal	170
168. Balance of wood fuels	171
169. Balance of Electricity	172
170. Short-term statistics of petroleum products	173
171. Prices of electricity in households and industry	174
172. Short-term statistics of electricity	175
173. Energy consumption in household sector	176
174. Short-term statistics of coal	177

### **3.3. TRANSPORT**

175. Postal and telecommunication services	178
176. Postal and telecommunication network	179
177. Other passenger road transport	180
178. Freight road transport	181
179. Roads and bridges	182
180. Registered road motor vehicles and trailer vehicles	183
181. Transport of passengers and goods in railway transport	184
182. Railway infrastructure	185
183. Arrivals and departures of ships in ports	186
184. Merchant navy	187
185. Transshipment in ports	188
186. Airport infrastructure and traffic in airports	189
187. Air transport	190

188. Infrastructure and traffic in air transport	191
189. Traffic of passengers and goods at airports by airport pairs	192
190. Traffic accidents	193

### **3.4. TOURISM**

191. Visits of foreign cruise ships	194
192. Nautical tourism	195
193. Arrivals and overnight stays of tourists, total	196
194. Arrivals and overnights of tourists in collective accommodation	197
195. Arrivals and overnight stays of tourists in private accommodation	198
196. Tourist activity of Montenegro population - pilot	199
197. Tourism satellite accounts (TSA) - pilot	200

## **ENVIRONMENTAL STATISTICS**

201

### **4.1. ENVIRONMENT**

198. Environmental accounts - pilot	202
199. Investments in environmental protection - pilot	203
200. Generated waste	204
201. Municipal waste	205
202. Waste collection and processing	206
203. Number and capacity of facility for waste treatment	207
204. Waste generated from food - pilot	208
205. Use and protection of water against pollution in industry	209
206. Irrigation	210
207. Waste water from settlements	211
208. Supply of settlement with water	212

## **COMPREHENSIVE STATISTICS**

213

### **5.1. SUSTAINABLE DEVELOPMENT INDICATORS**

209. Sustainable development indicators from UN list	214
210. Sustainable development indicators from EU list	215

Module 1.1.1.

Demography and Migration Statistics

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Demography and Social Statistics	
Ordinal number of survey:	1	Code of survey: DEM-1
Producer of the official statistics:	Statistical Office	
Organizational unit:	Demography and Migration Statistics Department	
Name of the survey:	Birth statistics	
Level of publishing data:	Montenegro, municipality	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Ministry of Interior	
Deadline for data collection:	Up to the 5th in a month for the previous month	
Deadline for publishing data:	Monthly preliminary data: data for November 2025 - 30 January 2026; December 2025 - 27 February 2026; January 2026 - 31 March 2026; February 2026 - 30 April 2026; March 2026 - 29 May 2026; April 2026 - 30 June 2026; May 2026 - 31 July 2026; June 2026 - 31 August 2026; July 2026 - 30 September 2026; August 2026 - 30 October 2026; September 2026 - 30 November 2026; October 2026 - 31 December 2026. Annual final data: 14 April 2026 for the previous year.	
Research method:	Administrative source	
Connection with the European Statistics:	Priority area 1, Module 1.1.1.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.1.	Population
<b>Aim of the survey:</b>	Statistics of births seeks to produce the data on demographic characteristics of the child born alive, as well as demographic and socio-economic characteristics of the parents. The obtained data are needed for the analysis of natural increase at the level of Montenegro and municipalities. The data are the basis for the calculation of a series of analytical demographic indicators used in order to develop the analysis of any current or future structure of the population.	
Financial resources required for the implementation of statistical survey:	18,311.70	EUR

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Demography and social statistics		
Ordinal number of survey:	5	Code of survey:	PS
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department of Demography and Migration Statistics		
Name of the survey:	Population estimates		
Level of publishing data:	Montenegro, municipality		
Publishing periodicity:	Annual		
Source of data:	Census of Population, Households, and Dwellings, birth statistics, death statistics, and migration of population.		
Deadline for data collection:	Up to 28 April 2026 for the previous year		
Deadline for publishing data:	Annual final data: 13 May 2026 for the previous year		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 1, Module 1.1.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.1.	Population	
<b>Aim of the survey:</b>	The population estimates enable the production of data on the change of population number during one year what provides the annual number of population by sex and age, and distributed by municipalities. These data are a necessary input for the calculation of the main demographic indicators.		
Financial resources required for the implementation of statistical survey:	7,368.58	EUR

Connection with the European Statistics:	Priority area 1, Module 1.1.1.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.1.	Population
<b>Aim of the survey:</b>	Statistics on internal migration monitors the movement of the population in Montenegro. The data which are produced are related to sex and age structure of migrants. In addition to these data, marital status, place of birth, education, occupation and previous/next residence of migrants are monitored. These data are used for analysis of the mechanical movement of the population as well as to calculate the estimated population at the municipal level. The data are collected from the register of place of residence kept by Ministry of Interior.	
Financial resources required for the implementation of statistical survey:	13,697.74	EUR

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Demography and social statistics		
Ordinal number of survey:	16	Code of survey:	ARS-1 i ARS-2
Producer of the official statistics:	Statistical Office		
Organizational unit:	Labour Market Statistics Department		
Name of the survey:	Labour Force Survey - LFS		
Level of publishing data:	Montenegro		
Publishing periodicity:	Quarterly, annual		
Source of data:	Households		
Deadline for data collection:	Weekly		
Deadline for publishing data:	Quarterly final data for 2026: 1st quarter - 25 June 2026; 2nd quarter - 17 September 2026; 3rd quarter - 17 December 2026; 4th quarter - 18 March 2027 Annual data for 2026: 31 March 2027		
Research method:	Sample (interview, reporting method - sample)		
Connection with the European Statistics:	Priority area 1, Module 1.2.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.2.	Labour Market	
<b>Aim of the survey:</b>	<p>Labour Force Survey (LFS) is the survey which collects on the randomly selected sample of households, the data are collected with the aim to obtain information on labour market and characteristics of labour force. The purpose of this survey is to collect data on three main groups of population: employees, unemployed persons and persons out of labour force – as well as data on their social and demographic, educational, and other characteristics (year of age, sex, education, citizenship, etc.). One of the main aims of survey is to implement international standards when defining total employment and unemployment so that these categories can be comparable with the same categories in other countries. LFS is conducted in line with standards and recommendations of International Labour Organization – ILO, and in accordance with the European legislative acts of the Council and Parliament, with the request of Eurostat, related to methodology, organization, procedure of sampling, questionnaire design, and definition of employment and unemployment.</p>

Source of data:	Administrative source - Ministry of Finance; Central Bank of Montenegro; Tax Administration; Insurance Supervision Agency; Capital Market Authority; University of Montenegro; Statistical Office		
Deadline for data collection:	50 days after the end of reference quarter		
Deadline for publishing data:	Quarterly preliminary data: 1st quarter - 29 May 2026; 2nd quarter - 31 August 2026; 3rd quarter - 30 November 2026; 4th quarter - 26 February 2027		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.7.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.1. Macroeconomic Accounts and Statistics		
Aim of the survey:	The aim of quarterly calculation of Gross Domestic Product - GDP is to measure economic activities of business entities with quarterly periodicity, registered and classified by Activity Classification – KD 2010, harmonized with the European Classification NACE Rev. 2. The calculation of quarterly GDP - QGDP is done by using data from regular statistical surveys, different information on prices and quantities, as well as other indicators from the statistical system, and other available data sources and financial reports. QGDP by production approach is calculated as the sum of value added of all residential institutional units increased by taxes on products minus subsidies on products.		
Financial resources required for the implementation of statistical survey:	17,582.86EUR

Supply, use, and input-output tables

**ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026**

<b>PRIORITY AREA:</b>	Economic Statistics		
Ordinal number of survey:	85	Code of survey:	BDP-SUT
Producer of the official statistics:	Statistical Office		
Organizational unit:	Annual National Accounts Statistics Department		
Name of the survey:	Establishing an integrated system for the supply and use table compilation		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Finance; Central Bank of Montenegro; Tax Administration; Customs Administration; Ministry of Defence; Ministry of Education, Science, and Innovation; Insurance Supervision Agency; Capital Market Authority; Health Insurance Fund; University of Montenegro; Public Health Institute; Ministry of Interior; Police Administration; Forensic Center; Statistical Office		
Deadline for data collection:	Up to the end of March 2026 for the reference year 2020		
Deadline for publishing data:	/		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.8.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.1. Macroeconomic accounts and statistics		
Aim of the survey:	Observation and identifying of all necessary data sources aimed at the production of supply and use tables which represent an integral part of National Accounts - NA system. They in details describe production process and flows of goods and services in the NA system. Supply table represents a total supply of goods, and services achieved by domestic production and import. Use table presents an intermediary consumption by product and activities, product use for final consumption, gross investments, export and components of value added by activities. Supply and use tables provide an accounting framework for compiling national accounts, having total supply and use of certain types of goods and services mutually balanced. Supply and use tables also provide main information for obtaining detailed supply and use tables that can be used for the purposes of economic analyses and projections.		
Financial resources required for the implementation of statistical survey:	19,978.60EUR

Supply, use and input-output tables

**ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026**

<b>PRIORITY AREA:</b>	Economic statistics		
Ordinal number of survey:	86	Code of survey:	BDP-IOT
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department of Annual National Accounts Statistics		
Name of the survey:	Compilation of elements for input-output tables (IOT) – pilot		
Level of publishing data:	Montenegro		
Publishing periodicity:	Multiannual		
Source of data:	Administrative sources – Ministry of Finance; Central Bank of Montenegro; Tax Administration; Customs Administration; Ministry of Defence; Ministry of Education, Science and Innovation; Insurance Supervision Agency; Capital Market Commission; Health Insurance Fund; University of Montenegro; Institute of Public Health; Ministry of Internal Affairs; Police Directorate; Forensic Centre; Statistical Office		
Deadline for data collection:	By the end of March 2026 for the reference year 2020		
Deadline for publishing data:	/		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.8		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.1. Macroeconomic accounts and statistics		
Aim of the survey:	Input-output tables show flows of products and services between production sectors and the final consumption sector in the national economy, in accordance with ESA 2010 methodological principles. Input-output tables enable analysis of intersectoral linkages, monitoring of the production structure and quantification of the contribution of individual activities to gross domestic product (GDP). In rows, the tables show the output of a given sector and its allocation to other sectors, while columns show purchases of intermediate or intersectoral production (inputs) required for the production process of a given sector, this is the reason for the title input-output table. In this way, for each sector and for the economy as a whole, row and column totals are equal.		
Financial resources required for the implementation of statistical survey:	15,803.51 EUR

International Trade of Goods

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Economic Statistics		
Ordinal number of survey:	123	Code of survey:	STRR
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	International trade in goods of Montenegro		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly, quarterly		
Source of data:	Administrative source - Customs Administration		
Deadline for data collection:	Monthly preliminary data: up to the 20th in a month for the previous month Annual final data: up to 15 March of the current year for the previous year		
Deadline for publishing data:	Monthly preliminary data: for January - December 2025 - 29 January 2026; for January 2026 – 27 February 2026; for January – February 2026 - 30 March 2026; for January – March 2026 - 30 April 2026; for January – April 2026 – 29 May 2026; for January - May 2025 – 27 June 2026; for January – June 2026 – 30 July 2026; for January – July 2026 – 28 August 2026; for January – August 2026 – 29 September 2026; for January – September 2026 – 29 October 2026; for January – October 2026 – 27 November 2026; for January – November 2026 – 30 December 2026. Godišnji konačni podaci: za 2024. godinu – 17. april 2025. godine.		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.3.2.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.4. International Trade		
Aim of the survey:	The aim of international trade in goods is monitoring the trade of goods with abroad. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in goods statistics is an important source of data for national accounts, balance of payment statistics, and short-term economic analyses. It is also important for monitoring a competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements. Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and Combined Nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of chapters, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the the Standards International Trade Classification (SITC) and Combined Nomenclature (CN) are available at subgroup level, i.e. the 4-digit level. Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.

Harmonized Index of Consumer Prices

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Economic Statistics		
Ordinal number of survey:	126	Code of survey:	CPI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics		
Name of the survey:	Consumer Price Index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar), where the highest turnover is achieved.		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	Monthly final data: 15 days after the end of the reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.4.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.5. Prices		
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of labour price, in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses, as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.

Harmonized Index of Consumer Prices

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Economic Statistics		
Ordinal number of survey:	127	Code of survey:	HICP
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	Harmonised Index of Consumer Prices		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar), where the highest turnover is achieved.		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.4.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.5. Prices		
Aim of the survey:	Harmonized Index of Consumer Prices (HICP) is the basis for comparative measurements of inflation in Europe, as well as the evaluation of stability of monetary value in the euro zone. Unlike consumer price index, HICP uses a different methodological concept used by all EU member states. Every EU member state is obliged to produce HICP calculated on the basis of harmonized access and uniform set of definitions. The data will be available at the four-digit level of ECOICOP classification.

Producer of the official statistics:	Statistical Office		
Organizational unit:	Agriculture Statistics and Fishery Statistics		
Name of the survey:	Achieved yields of late crops, fruit and grape		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Family agricultural holdings and agricultural enterprises		
Deadline for data collection:	Up to 30 December 2026 for the current year		
Deadline for publishing data:	Annual preliminary data: 11 February and 31 March 2027 for the previous year Annual final data: 13 May and 1 July 2027 for the previous year		
Research method:	Sample (interview, reporting method - sample)		
Connection with the European Statistics:	Priority area 3, Module 3.1.2. a		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	3.1.	Agriculture, forestry, and fishery	
<b>Aim of the survey:</b>	The survey aims to provide data on harvested areas, achieved yields of late crops, fruit and grapes, as well as areas sown in autumn sowing, number of livestock by types and categories, slaughter and sale of live livestock, as well as data on the number of beehives, production of wool, eggs, milk, meat and dairy products. Based on the data obtained from this survey and available statistical data (imports and exports of live livestock, slaughter, etc.), data on gross domestic meat production can be calculated.		
Financial resources required for the implementation of statistical survey:	85,171.67 EUR

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Sectoral statistics		
Ordinal number of survey:	173	Code of survey:	ENG-55
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department of Business Statistics, Foreign Affiliates Statistics and Structural Business Statistics		
Name of the survey:	Energy consumption in services sector		
Level of publishing data:	Montenegro, municipality		
Publishing periodicity:	Five-year		
Source of data:	Services sector		
Deadline for data collection:	By 30 September 2026 for the previous year		
Deadline for publishing data:	Annual final data: 24 December 2026 for 2025		
Research method:	Interview		
Connection with the European Statistics:	Priority area 3, Module 3.2.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	3.2.	Energy	
Aim of the survey:	Presentation of data on the consumption of all energy products in service activities. The purpose of the survey is to obtain results on the characteristics and volume of energy product consumption in service activities. The survey results present the balance of final consumption of energy products in service activities: trade, accommodation and food services, public administration, education, health, and other service activities. The results show the balance of final energy consumption by service sector activities and serve as the basis for compiling Montenegro's energy balance.		
Financial resources required for the implementation of statistical survey:	50,157.50	EUR

Statistics on waste

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Environmental statistics		
Ordinal number of survey:	203	Code of survey:	OT KAP - 07
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department of Environmental and Forestry Statistics		
Name of the survey:	Number and capacity of waste treatment facilities		
Level of publishing data:	Montenegro		
Publishing periodicity:	Biannual		
Source of data:	Administrative source – Environmental Protection Agency		
Deadline for data collection:	By 6 April 2026 for 2024		
Deadline for publishing data:	Final annual data for 2024: 10 December 2026		
Research method:	Administrative source		
Connection with the European Statistics:	Priority area 4, Module 4.1.3.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	4.1.	Environment	
Aim of the survey:	Objective of the survey is the collection of data on the number and capacity of waste treatment facilities.		
Financial resources required for the implementation of statistical survey:	6,321.40 EUR

Waste Statistics

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2026

<b>PRIORITY AREA:</b>	Environmental Statistics	
Ordinal number of survey:	204	Code of survey: OT - FOOD
Producer of the official statistics:	Statistical Office	
Organizational unit:	Environmental and Forestry Statistics Department	
Name of the survey:	Survey on waste generated from food - pilot	
Level of publishing data:	/	
Publishing periodicity:	/	
Source of data:	Data are collected from the business entities with 10 employees and over and selected enterprises with less than 10 employees classified in certain classes of sector: G - Wholesale trade and retail trade, and repair of motor vehicles and motorcycles – classes: 46.17, 46.31, 46.32, 46.33, 46.36, 46.38, 46.39, 47.11, 47.19, 47.21, 47.22, 47.23, 47.24, 47.29, 47.81, 47.99; H - Transport and storage – class 52.10; I - Accommodation and food service – classes: 55.10, 55.20, 55.90, 56.10, 56.21, 56.29; P - Education – class 85.10; Q - Health and social protection - classes: 87.10, 87.20, 87.30, 87.90, and 88.91.	
Deadline for data collection:	Up to 30 June 2026 for the previous year	
Deadline for publishing data:	/	
Research method:	Interview	
Connection with the European Statistics:	Priority area 4, Module 4.1.3.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	4.1.	Environment
Aim of the survey:	The aim of this survey is to collect data from certain producers of food waste (shops, restaurants, and other enterprises where food is prepared/served) as accurate as possible on waste quantities generated, and processed from food leftover. The data are not published, but used for analysing survey instruments.	
Financial resources required for the implementation of statistical survey:	15,440.81 EUR

## EXPLANATION

In accordance with Articles 23 and 24 of the Law on Official Statistics and the System of Official Statistics (“Official Gazette of Montenegro”, No. 018/12, 047/19 and 23/25), the **Annual Plan of Official Statistics for 2026** envisages the implementation of a total of **210 statistical surveys**.

### Structure of implementation:

- The Statistical Office independently implements: **179 surveys (85%)**;
- Other producers of official statistics implement: **29 surveys (14%)**;
- **Joint surveys (2 in total or 1%)**:  
-two surveys conducted in cooperation between the Statistical Office, the Ministry of Finance and the Central Bank of Montenegro.

The field of official statistics, in accordance with the Annual Plan of Official Statistics for 2026, is divided into **five statistical domains**. Accordingly, the implementation of **210 statistical surveys** is planned:

- **Demography and Social Statistics (57)**
- **Economic Statistics (81)**
- **Sectoral Statistics (59)**
- **Environment (11)**
- **Sustainable Development Indicators (2)**

As a summary of the **Annual Plan of Official Statistics for 2026**, the following are highlighted:

**Pilot statistical surveys (31)** aimed at evaluating the methodology or the quality of data sources. The surveys are distributed as follows:

- Statistical Office: **24 surveys**
- Central Bank of Montenegro: **4 surveys**
- Institute of Public Health of Montenegro: **1 survey**
- Joint cooperation between the Statistical Office, the Ministry of Finance and the Central Bank of Montenegro: **2 surveys**

Pilot statistical surveys cover the following areas:

- **Demography and Social Statistics (6)**
- **Economic Statistics (16)**
- **Sectoral Statistics (6)**
- **Environment (3)**

### **New statistical surveys (2):**

- Expenditures and production of forest assortments on family agricultural holdings – pilot survey
- Energy consumption in the service sector

For the implementation of statistical surveys defined in the **Annual Plan of Official Statistics for 2026**, funds are planned in the **total amount of €3,282,687.19**.

### **Distribution of funds by producers of official statistics:**

- Statistical Office: **€2,733,337.59**
- Central Bank of Montenegro: **€168,357.32**
- Ministry of Finance: **€4,500.00**
- Ministry of Education, Science and Innovation: **€6,000.00**
- Institute of Public Health of Montenegro: **€359,218.63**
- Pension and Disability Insurance Fund: **€11,273.65**
