Ordinal number of survey:	68	Code of survey:	BDP-O
Producer of the official statistics:	Statistical Office		
Organizational unit:	Macroeconomic Statistics and National Accounts Department		
Name of the survey:	Calculation of annual gross domestic product by production approach		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Finance, Ministry of Defence , Ministry of Science, Central Bank of Montenegro, Tax Administration, Insurance Supervision Agency, Capital Market Authority, Health Insurance Fund, Ministry of Health, Public Health Instit		
Deadline for data collection:	Up to the end of June 2021 for the previous year		
Deadline for publishing data:	Annual final data: 22 September 2021 for the previous year, within annual GDP release		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.5.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.1. Macroeconomics		
Aim of the survey:	The aim of calculation of gross domestic product GDP by production approach is to obtain main and the most important macroeconomic aggregate in the national accounts system. This aggregate is a result of production activities of all residential institutional units, this is an indicator of economic activity for the whole country. GDP by production approach is calculated as the sum of value added of all resident institutional units, increased with taxes on products minus subventions on products. The data on gross production value, intermediary consumption, and gross value added are available at the sector level of Activity Classification (KD2010) at the annual level.		
Financial resources required for the implementation of statistical survey:	0.00

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	69	Code of survey:	BDP-E
Producer of the official statistics:	Statistical Office		
Organizational unit:	Macroeconomic Statistics and National Accounts Department		
Name of the survey:	Calculation of annual gross domestic product by expenditure approach		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Finance, Ministry of Defence , Ministry of Science, Central Bank of Montenegro, Tax Administration, Insurance Supervision Agency, Capital Market Authority, Health Insurance Fund, Ministry of Health, Public Health Instit		
Deadline for data collection:	Up to the end of June 2021 for the previous year		
Deadline for publishing data:	Annual final data: 22 September 2021 for the previous year, within annual GDP release		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.5.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.1. Macroeconomics		
Aim of the survey:	The aim of calculation of GDP by expenditure approach is to obtain the basic and most important macroeconomic aggregates in the national accounts system. By applying this method of calculating considers the establishment of basic relations on which the national accounts are based, and that is that the total value of available goods and services (supply) must be equal to the total value of goods and services consumed (used) in the observed period at the total economy. GDP by expenditure approach is calculated as the sum of household consumption, government consumption, investment, changes in inventories and net exports of goods and services. The data are available at the annual level and at the total level of consumption categories: final consumption, gross investment in fixed assets, changes in inventories, government consumption, export and import of goods and services.

Module 2.1.6.

Supply, use and input - output tables

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	78	Code of survey:	BDP-SUT
Producer of the official statistics:	Statistical Office		
Organizational unit:	Macroeconomic Statistics and National Accounts Department		
Name of the survey:	Establishing an integrated system for the supply and use table compilation - pilot		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Finance , Ministry of Defence, Ministry of Science, Central Bank of Montenegro, Tax Administration, Customs Administration, Insurance Supervision Agency, Capital Market Authority, Health Insurance Fund, Ministarstvo zdr		
Deadline for data collection:	Up to the end of March 2021 for the reference year 2016		
Deadline for publishing data:	/		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.1.6.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.1. Macroeconomics		
Aim of the survey:	Observation and identifying of all necessary data sources aimed at the production of supply and use tables which represent an integral part of National Accounts - NA system. They in details describe the production process and flows of goods and services in the NA system. Supply table represents a total supply of goods and services achieved by domestic production and import. Use table presents an intermediary consumption by product and activities, product use for final consumption, gross investments, export and components of value added by activities. Supply and use tables provide an accounting framework for compiling national accounts, having total supply and use of certain types of goods and services mutually balanced. Supply and use tables also provide main information for obtaining detailed supply and use tables that can be used for the purposes of economic analyses and projections.

Deadline for publishing data:	monthly preliminary data: up to the end of current month for the previous month; Annual final data: up to the end of April of current year for the previous year		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.4.5.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.4. International trade of goods - services and Balance of Payme		
Aim of the survey:	The aim of international trade in goods is to monitor foreign trade. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in services statistics is an important source of data for national accounts, balance of payment statistics and short-term economic analysis. It is also important for monitoring competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements. Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and combined nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of departments, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	135	Code of survey:	CPI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	Consumer price index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	monthly final data: 15 days after the end of reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.5.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5. Prices		
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of price of labour in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.

Module 4.2.1.

Regional statistics and their coordination

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Environment and multi-domain statistics		
Ordinal number of survey:	211	Code of survey:	
Producer of the official statistics:	Statistical Office		
Organizational unit:	National Coordination of Statistical Data Sources Department		
Name of the survey:	Sustainable Development Indicators		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Reporting units – enterprises and households, administrative sources		
Deadline for data collection:	Up to 30 December 2021 for the previous year		
Deadline for publishing data:	2021		
Research method:	Combined method		
Connection with the European Statistics:	Priority area 4, Module 4.2.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	4.2.	Regional and geospatial statistical information	
Aim of the survey:	<p>At its session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016. For the purpose of establishing the system for conducting and reporting the implementation of the Strategy for Sustainable Development up to 2030, there have been carried out an analysis of 241 sustainable development indicators defined by the UN Statistical Commission. The National Strategy of Sustainable Development of Montenegro up to 2030 defines possibilities and obligations of official statistical producers in Montenegro. Statistical Office will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources as well as for necessary additional statistical surveys.</p>		
Financial resources required for the implementation of statistical survey:	0.00		

EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012 and 47/19 of 12 August 2019) define the preparation of the Annual Plan of Official Statistics for 2021.

The Annual Plan of Official Statistics for 2021 is planning the implementation of 211 statistical activities. Out of the total number of planned statistical activities, 163 (i.e. 77.2%) will be done by the Statistical Office, as the main coordinator and disseminator of statistical data, while 47 (i.e. 22.3%) planned activities will be done by other official statistics producers, and 1 (i.e. 0.5%) planned activity will be done by a joint cooperation between Ministry of Finance and Statistical Office.

Pursuant to the 2021 Annual Plan of Official Statistics, the domain of official statistics is divided in four domains: Economic Statistics (84), Demography and social statistics (59); Sectorial statistics (59), and Environmental and multi-domain statistics (9).

As the summary of the Annual Plan of Official Statistics for 2021, the following is pointed out:

1. **Introduction of pilot statistical activities** (26) which are introduced in cases when it is necessary to perform the assessment of methodology or quality of data source which needs to be collected by a statistical survey. Under the competence of Statistical Office is 21 pilot statistical surveys; 2 pilot surveys are under the competence of Central Bank of Montenegro (*Survey on international transactions related to construction services – pilot* and *Survey on trade loans and deposits – pilot*); 2 under the competence of Ministry of Finance (*Analysis of government finance statistics – pilot* and *Government finance statistics in accordance with ESA2010 – pilot*); and 1 pilot statistical activity under joint competence of Ministry of Finance and Statistical Office (*Excessive deficit procedure report – pilot*).

Out of total number of pilot statistical activities, there are: 13 from the Economic Statistics domain; 3 from Demography and social statistics; and 1 from Environmental and multi-domain statistics.

The 2021 Annual Plan of Official Statistics introduces two new statistical activities from the domain of Economic Statistics, *Financial Stability Indicators*, under competence of Central Bank of Montenegro and *Comparative Price Levels*, under competence of Statistical Office.

2. **Aimed at optimization of resources according to the principle of cost effectiveness**, there are planned improvements of statistical surveys in transport, agriculture and fishery, as well as forestry.

A proposal of planned resources in the Budget of Montenegro for the purpose of implementation of Annual Plan of Official Statistics for 2021 is 6.5 million of euro from the general income.

TABLE OF CONTENTS

DEMOGRAPHY AND SOCIAL STATISTICS

1.1. POPULATION

Birth statistics	2
Statistics on deaths	3
Marriage statistics	4
Divorce statistics	5
Population estimates	6
Main demographic indicators	7
Statistics on internal migrations	8
International migration statistics – pilot	9
Illegal migration statistics	10
Asylum statistics	11
2021 Census of Population, Households, and Dwellings	12
Statistics on population based on administrative sources – pilot	13

1.2. LABOUR MARKET

Labour Force Survey (LFS)	14
Job vacancy statistics – pilot	15
Statistical survey on insured persons - employees by activity and municipalities	16
Statistical survey on earnings of employees	17
Survey on earnings from administrative sources	18
Survey on labour costs	19

1.3. EDUCATION AND LIFELONG LEARNING

Statistical survey for preschool education	20
Primary education statistics	21
Adult primary education statistics	22
Secondary education statistics	23
Statistical survey on enrolment of students (undergraduate studies)	24
Statistical survey on graduated students (undergraduated studies)	25
Enrolment to postgraduate and doctoral studies	26
Statistical survey of master degree holders and specialists	27
Statistical survey on academic, professional staff, and structure of higher education organizations	28
Statistical survey on PhD holders	29
Statistical survey on pupils and students homes	30

1.4. HEALTH

Report on human resources in health care	31
Report on treated patients in service of hospital-patient treatment	32
Report on childbirths	33
Report on registered cases and outbreaks of infectious diseases	34
Report on work and established diseases, and conditions in outpatient health care	35
Report on abortions	36
Report on organization and work of hospitals	37
Report on completed compulsory immunization against infectious diseases	38
Report on safety of drinking water	39
Report on food and objects of general use quality control	40
Surveys on injuries at work	41
Report on revenues and expenditure of Health Insurance Fund	42
Report on insured persons under international agreements on social insurance	43

1.5. INCOME AND CONSUMPTION

Household Budget Survey (HBS)	44
Survey on income and living conditions (EU-SILC)	45
Minimal consumer basket	46

1.6. SOCIAL PROTECTION

Beneficiaries of social and child care allowances	47
Report on pension and disability insurance beneficiaries	48
Social protection in Montenegro	49
Beneficiaries of accomodation services in social and child care institutions	50
Annual report on pension and disability insurance beneficiaries	51

1.7. JUSTICE AND CRIME

Statistical survey on adults against whom proceedings based on criminal charges and previous proceedings have been concluded	52
Statistical survey on adults against whom criminal proceedings have been concluded	53
Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded	54
Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded	55

1.8. CULTURE

Statistical survey on cinemas	56
Statistical survey on theatres	57
Statistics on electronic media	58
Archives	59
Sport clubs	60

MACRO-ECONOMIC STATISTICS

2.1. MACROECONOMICS

Statistical survey on adults against whom criminal proceedings have been concluded	62
Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector	63
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	64
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	65
Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured	66
Creation of elements required for the calculation of gross domestic product: calculation of gross value added in service and household product	67
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs	68
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for agriculture sector Agriculture, forestry and fishery according to the 2010 Activity Classification	69
Calculation of annual gross domestic product by production approach	70
Calculation of annual gross domestic product by expenditure approach	71
Calculation of annual gross national income	72
Creation of elements required for the calculation of gross domestic product: estimation of non-observed economy as a constituent part of GDP – pilot	73
Calculation of quarterly gross domestic product by expenditure approach	74
Monitoring quarterly indicators for the needs of calculating quarterly gross domestic product (QGDP) ...	75
Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	76
Creation of elements required for the calculation of gross domestic production by expenditure approach: household final consumption	77
Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation	78
Creation of elements necessary for the calculation of gross domestic product by income approach – pilot	79
Establishing an integrated system for the supply and use table compilation - pilot	80

2.2. GOVERNMENT FINANCE STATISTICS, MONETARY AND FINANCIAL STATISTICS

Analysis of collective investment scheme	81
Analysis of financial instruments	82
Stock exchange businesses	83
Statistics of other financial institutions - microcredit financial institutions	84
Statistics of other financial institutions - leasing companies	85
Statistics of monetary financial institutions	86
Interests rate statistics	87
Financial Soundness Indicators	88
Analysis of consolidated public spending	89
Report on government debt	90
Report on public debt	91
Data on receipts, government expenditure per month	92
Data on government and local self-government revenues and expenditures	93
Analysis of government finance statistics – pilot	94
Excessive deficit procedure report – pilot	95
Government finance statistics in accordance with ESA2010 – pilot	96
Financial reports of entrepreneurs (balance sheet and income statement)	97
Financial reports of enterprises (balance sheet, income statement, and Statistical Annex)	98
Monthly report for the calculation of value added tax	99
Registration data on legal and natural persons – taxpayers	100
Annual registration of tax on income of natural persons	101
Registration of tax on income of legal persons	102

2.3. BUSINESS STATISTICS

Structural survey of business enterprises	103
Investments in fixed assets	104
Investments in fixed capital (quarterly) – pilot	105
Industrial production (PRODCOM)	106
Indices of industrial production and turnover	107
Producer price index of industrial products	108
Producer Price Index of Industrial Products for Export	109
Price Index of Industrial Products from Import	110
Prices of New Built Dwellings	111
Consumption of building and drive materials	112
Construction works	113
Construction activity	114
Demolished buildings with dwellings	115
Construction permits and registration of works	116
Turnover index in retail trade	117

Turnover in wholesale trade	118
Services producer price index – pilot	119
Turnover index in services	120
Turnover in retail trade by commodity groups	121
Survey on businesses of large and middle enterprises	122
Survey on enterprises with units in their composition	123

2.4. INTERNATIONAL TRADE IN GOODS - SERVICES, AND BALANCE OF PAYMENTS

External Debt of Montenegro	124
Balance of Payment of Montenegro	125
Survey on credit transactions with foreign resident	126
International investment position (IIP)	127
Survey on trade loans and deposits – pilot	128
Inward foreign affiliates' statistics IFATS	129
Outward foreign affiliates' statistics OFATS	130
Survey on matters of direct foreign investment (annual)	131
Survey on matters of direct foreign investment (quarterly)	132
Survey on international transactions related to construction services – pilot	133
Indices of unit values of exports and imports of goods	134
International trade of goods of Montenegro	135
International trade in goods of Montenegro by enterprise characteristics - TEC – pilot	136

2.5. PRICES

Consumer price index	137
Harmonised consumer price indices	138
Harmonised consumer price indices in administrative prices	139
Harmonised Consumer Price Index in constant tax rates – pilot	140
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	141
Gross domestic product and real individual consumption per capita, by purchasing power parity	142
Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction" ...	143
Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Machinery and equipment"	144
Comparative price levels	145

SECTORIAL STATISTICS

3.1. AGRICULTURE, FORESTRY AND FISHERY

Report on production of forest assortments in state forests	147
Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests	148
Forestry Accounts – pilot	149
Labour force, consumption of energy products, and machinery in forestry – pilot	150
Veterinary	151
Achieved yields from early crops	152
Crop production	153
Survey on areas and plantations at the end of spring sown	154
Number of livestock and poultry - livestock production	155
Report on slaughtering livestock and poultry in slaughterhouses	156
Report on slaughtering livestock and poultry in slaughterhouses (administrative source) – pilot	157
Report on entrance of raw milk (cow milk) and obtained milk products	158
Agri-monetary statistics - prices of agricultural products, raw materials, resources, and services provided for agriculture	159
Agri-monetary statistics - expenditures and production of agricultural holdings	160
Agri-monetary statistics - sale of agricultural products from own production of agricultural companies and agricultural cooperatives	161
Agri-monetary statistics - purchase of agricultural products from individual producers	162
Agri-monetary statistics - accounts in agriculture – pilot	163
Agri-monetary statistics - price of land and land rent – pilot	164
Fishermen and fishing equipment in maritime fishery	165
Fishery in rivers and lakes	166
Maritime fishery	167
Production of fish and shellfish in mariculture	168
Production of fish in fishponds – aquaculture	169
Organic production statistics – pilot	170
Turnover of pesticide	171

3.2. ENERGY STATISTICS

Balance of petroleum products	172
Balance of coal	173
Balance of wood fuels	174
Balance of electricity	175
Complex energy balance	176
Short-term statistics of petroleum products and electricity prices in households and industry – pilot	177

3.3. TRANSPORT STATISTICS

Merchant navy	178
Airport infrastructure and traffic in airports	179
Air transport	180
infrastructure and traffic in air transport	181
Transport of passengers and goods in railway transport	182
Railway infrastructure	183
Other passenger road transport	184
Freight road transport	185
Roads and bridges	186
Registered road motor vehicles and trailer vehicles	187
Traffic accidents	188
Arrivals and departures of ships in ports	189
Transshipment in ports	190
Transport of passenger and goods in maritime transport	191
Infrastructure in maritime transport	192
Postal and telecommunication services	193
Postal and telecommunication network	194
Traffic of passengers and goods at airports by airport pairs	195

3.4. TOURISM

Report on visits of foreign cruise ships	196
Nautical tourism	197
Arrivals and overnights of tourists in collective accommodation	198
Arrivals and overnights of tourists in private accommodation	199
Arrivals and overnight stays of tourists, total	200

3.5. SCIENCE, TECHNOLOGY AND INNOVATION

Statistical survey on scientific and research activity - Research and Development	201
Government budget appropriations or outlays for research and development (GBAORD Statistics)	202
Innovation activities of enterprises	203
Survey on the ICT use in households and by individuals	204
Statistical survey on ICT use in enterprises	205

ENVIRONMENT AND MULTI-DOMAIN STATISTICS

4.1. ENVIRONMENTAL STATISTICS

Environmental accounts – pilot	207
Survey on generated waste	208
Survey on waste collection and processing	209
Survey on waste collection and processing	210
Public waste water	211
Public water supply	212
Irrigation	213
Use and protection of water against pollution in industry	214

4.2. REGIONAL AND GEOSPATIAL STATISTICAL INFORMATION

Sustainable Development Indicators	215
