

STATISTICAL OFFICE OF MONTENEGRO

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

A 3D graphic of a blue ribbon that folds and loops across the bottom of the page. The year "2022" is printed in blue on the rightmost section of the ribbon.

2022

TABLE OF CONTENTS

DEMOGRAPHY AND SOCIAL STATISTICS

1.1. POPULATION

Birth statistics	2
Statistics on deaths	3
Marriage statistics	4
Divorce statistics	5
Population estimates	6
Main demographic indicators	7
Statistics on internal migrations	8
International migration statistics – pilot	9
Gender statistics	10
Illegal migration statistics	11
Asylum statistics	12
Census of Population, Households, and Dwellings	13
Statistics on population based on administrative sources – pilot	14

1.2. LABOUR MARKET

Labor Force Survey (LFS)	15
Statistical survey on insured persons - employees by activity and municipalities	16
Statistical survey on earnings of employees	17
Statistical survey on earnings from administrative sources – pilot	18

1.3. EDUCATION AND LIFELONG LEARNING

Statistical survey for preschool education	19
Primary education statistics	20
Adult primary education statistics	21
Secondary education statistics	22
Statistical survey on enrolment of students (undergraduate studies)	23
Statistical survey on graduated students (undergraduate studies)	24
Enrolment to postgraduate and doctoral studies	25
Statistical survey of master degree holders and specialists	26
Statistical survey on academic, professional staff, and structure of higher education organizations	27
Statistical survey for PhD holders	28
Statistical survey on pupils and students homes	29

1.4. HEALTH

Report on human resources in health care	30
Report on treated patients in service of hospital-patient treatment	31
Report on childbirths	32
Report on registered cases and outbreaks of infectious diseases	33
Report on work and established diseases, and conditions in outpatient health care	34
Report on abortions	35

Report on organization and work of hospitals	36
Report on completed compulsory immunization against infectious diseases	37
Report on safety of drinking water	38
Report on food and objects of general use quality control	39
Surveys on injuries at work	40
Report on revenues and expenditures of Health Insurance Fund	41
Report on insured persons under international agreements on social insurance	42
Survey on causes of death	43

1.5. INCOME AND CONSUMPTION

Household Budget Survey (HBS)	44
Survey on income and living conditions (EU-SILC)	45
Minimal consumer basket	46

1.6. SOCIAL PROTECTION

Beneficiaries of social and child care allowances	47
Report on pension and disability insurance beneficiaries	48
Social protection in Montenegro	49
Beneficiaries of accommodation services in social and child care institutions	50
Annual report on pension and disability insurance beneficiaries	51

1.7. JUSTICE AND CRIME

Statistical survey on adults against whom proceedings based on criminal charges and previous proceedings have been concluded	52
Statistical survey on adults against whom criminal proceedings have been concluded	53
Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded	54
Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded	55

1.8. CULTURE

Statistical survey on cinema	56
Statistical survey on theatres	57
Statistics on electronic media	58
Statistical survey on museums, galleries, and collections	59

MACRO-ECONOMIC STATISTICS

2.1. MACROECONOMICS

Overview of customs revenue collection	61
Establishment of framework and elements necessary for production of non-financial sector accounts – pilot	62
Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector	63
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	64
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	65
Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured	66
Creation of elements required for the calculation of gross domestic product: calculation of gross value added in service and household product	67
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs	68
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for agriculture sector Agriculture, forestry and fishery according to the 2010 Activity Classification	69
Calculation of annual gross domestic product by production approach	70
Calculation of annual gross domestic product of Montenegro by expenditure approach	71
Calculation of quarterly gross domestic product by expenditure approach	72
Monitoring quarterly indicators for the needs of calculating quarterly gross domestic product (QGDP)	73
Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	74
Creation of elements required for the calculation of gross domestic production by expenditure approach: household final consumption	75
Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation	76
Creation of elements necessary for the calculation of gross domestic product by income approach - pilot	77
Calculation of quarterly Gross Domestic Product of Montenegro by production approach	78
Creation of elements required for the calculation of quarterly Gross Domestic Product by production approach	79
Creation of elements required for the calculation of quarterly Gross Domestic Product - QGDP by expenditure approach	80
Establishing an integrated system for the supply and use table compilation – pilot	81
Calculation of annual gross national income	82
Creation of elements required for the calculation of gross domestic product: estimation of non-observed economy as a constituent part of GDP – pilot	83

2.2. GOVERNMENT FINANCE STATISTICS, MONETARY AND FINANCIAL STATISTICS

Analysis of collective investment scheme	84
Analysis of financial instruments	85
Stock exchange businesses	86
Statistics of other financial institutions - microcredit financial institutions	87

Statistics of other financial institutions - leasing companies	88
Statistics of monetary financial institutions	89
Interests rate statistics	90
Financial Soundness Indicators	91
Statistics of other financial institutions - Factoring companies	92
Analysis of consolidated public spending	93
Report on government debt	94
Report on public debt	95
Data on receipts, government expenditure per month	96
Data on government and local self-government revenues and expenditures	97
Entrepreneurs' financial reports (Balance sheet and income statement)	98
Financial statements of the company (Balance Sheet, Income Statement and Statistical Annex)... ..	99
Monthly report for the calculation of value added tax	100
Registration data on legal and natural persons – taxpayers	101
Annual registration of tax on income of natural persons	102
Statistical survey on insured persons – employees	103
Registration of tax on income of legal persons	104

2.3. BUSINESS STATISTICS

Structural survey of business enterprises	105
Investments in fixed assets	106
Investments in fixed assets (quarterly) – pilot	107
Industrial production (PRODCOM)	108
Indices of industrial production and turnover	109
Producer price index of industrial products	110
Producer Price Index of Industrial Products for Export	111
Price Index of Industrial Products from Import	112
Prices of apartments in new construction	113
Consumption of building and drive materials	114
Construction works	115
Construction activity	116
Demolished buildings with dwellings	117
Construction permits and registration of works	118
Turnover index in retail trade	119
Turnover in wholesale trade	120
Turnover index in services	121

2.4. INTERNATIONAL TRADE IN GOODS - SERVICES, AND BALANCE OF PAYMENTS

External Debt of Montenegro	122
Balance of Payment of Montenegro	123
Survey on credit transactions with foreign resident	124
International investment position (IIP)	125
Survey on trade loans and deposits – pilot	126
Inward foreign affiliates' statistics IFATS	127
Outward foreign affiliates' statistics OFATS – pilot	128
Survey on matters of direct foreign investment (annual)	129
Survey on matters of direct foreign investment (quarterly)	130

Survey on international transactions related to construction services – pilot	131
Indices of unit values of exports and imports of goods	132
International trade in goods of Montenegro	133
International trade in goods of Montenegro by enterprise characteristics (TEC) – pilot	134
International trade in goods of Montenegro by invoicing currency - TIC – pilot	135

2.5. PRICES

Consumer price index	136
Harmonized consumer price indices	137
Harmonized consumer price indices in administrative prices	138
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	139
Gross domestic product and real individual consumption per capita, by purchasing power parity... Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction"	140
Comparative price levels	141
Comparative price levels	142

SECTORIAL STATISTICS

3.1. AGRICULTURE, FORESTRY AND FISHERY

Report on production of forest assortments in state forests	144
Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests	145
Forestry Accounts – pilot	146
Labor force, consumption of energy products, and machinery in forestry – pilot	147
Hunting	148
Veterinary	149
Achieved yields from early crops	150
Achieved yields of late crops, fruit and grape	151
Areas and plantations at the end of spring sowing	152
Survey on number of livestock	153
Slaughtering livestock and poultry in slaughterhouses	154
Slaughtering livestock and poultry in slaughterhouses (administrative source) – pilot	155
Entrance of raw milk (cow milk) and obtained milk products	156
Agri-monetary statistics - prices of agricultural products, raw materials, resources, and services provided for agriculture – pilot	157
Agri-monetary statistics - expenditures and agricultural production of agricultural holdings - pilot	158
Agri-monetary statistics - sale of agricultural products from own production of agricultural companies and agricultural cooperatives	159
Agri-monetary statistics - purchase of agricultural products from individual producers	160
Agri-monetary statistics - accounts in agriculture – pilot	161
Agri-monetary statistics - price of land and land rent – pilot	162
Fishermen and fishing equipment in maritime fishery	163
Fishery in rivers and lakes	164
Maritime fishery	165
Production of fish and shellfish in maricultural	166
Production of fish in fishponds – aquaculture	167
Organic production statistics	168

Turnover of pesticide	169
-----------------------------	-----

3.2. ENERGY STATISTICS

Balance of petroleum products	170
Balance of coal	171
Balance of wood fuels	172
Balance of electricity	173
Complex energy balance	174
Short-term statistics of petroleum products and electricity prices in households and industry – pilot	175

3.3. TRANSPORT STATISTICS

Merchant navy	176
Airport infrastructure and traffic in airports	177
Air transport	178
Infrastructure and traffic in air transport	179
Transport of passengers and goods in railway transport	180
Railway infrastructure	181
Other passenger road transport	182
Freight road transport	183
Roads and bridges	184
Registered road motor vehicles and trailer vehicles	185
Traffic accidents	186
Arrivals and departures of ships in ports	187
Transshipment in ports	188
Transport of passenger and goods in maritime transport	189
Infrastructure in maritime transport	190
Postal and telecommunication services	191
Postal and telecommunication network	192
Traffic of passengers and goods at airports by airport pairs	193

3.4. TOURISM

Visits of foreign cruise ships	194
Nautical tourism	195
Arrivals and overnights of tourists in collective accommodation	196
Arrivals and overnights of tourists in private accommodation	197
Arrivals and overnights of tourists, total	198

3.5. SCIENCE, TECHNOLOGY AND INNOVATION

Survey on the ICT use in households and by individuals	199
Statistical survey on ICT use in enterprises	200

ENVIRONMENT AND MULTI-DOMAIN STATISTICS

4.1. ENVIRONMENTAL STATISTICS

Environmental accounts – pilot 202
Number and capacity of waste treatment facilities 203
Waste collection and processing 204
Municipal waste 205
Generated waste 206
Use and protection of water against pollution in industry 207
Irrigation 208
Sustainable Development Indicators 209

Module 1.1.1.

Demography, migration and projections

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Demography and social statistics	
Ordinal number of survey:	1	Code of survey: DEM-1
Producer of the official statistics:	Statistical Office	
Organizational unit:	Demography and Migration Statistics Department	
Name of the survey:	Birth statistics	
Level of publishing data:	Municipality, Montenegro	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Ministry of Interior	
Deadline for data collection:	Up to the 5th in a month for the previous month	
Deadline for publishing data:	Monthly preliminary data: Data for November 2021 - 27 January 2022; December 2021 - 28 February 2022; January 2022 - 31 March 2022; February 2022 - 28 April 2022; March 2022 - 31 May 2022; April 2022 - 30 June 2022; May 2022 - 28 July 2022; June 2022 - 31 August 2022; July 2022 - 29 September 2022; August 2022 - 31 October 2022; September 2022 - 30 November 2022; October 2022 - 29 December 2022 Annual final data: 11 April 2022 for the previous year	
Research method:	Administrative source	
Connection with the European Statistics:	Priority area 1, Module 1.1.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	1.1.	Population
Aim of the survey:	Statistics of births seeks to produce the data on demographic characteristics of the child born alive as well as demographic and socio-economic characteristics of the parents. The obtained data are needed for the analysis of natural increase at the level of Montenegro and municipalities. The data are the basis for the calculation of a series of analytical demographic indicators used in order to develop the analysis of any current or future structure of the population. The data are collected from the municipal birth register kept by Ministry of Interior.	
Financial resources required for the implementation of statistical survey:	13.878,39

Connection with the European Statistics: Priority area 2, Module 2.1.6.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

The aim of the Gross Domestic Product - GDP calculation by production approach is to obtain main and most important macroeconomic aggregate in the National Accounts – NA system. This aggregate represents a result of production activities of all residential institutional units which is an indicator of economic activities at the level of the entire country. GDP by production approach is calculated as the sum of value added of all residential institutional units increased for taxes on products minus subsidies on products. The data on gross value of production, intermediary consumption and gross value added are available at the level of Activity Classification (KD 2010) sector, at the annual level.

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance and Social Welfare; Central Bank of Montenegro; Revenue and Customs Administration; Ministry of Defence; Ministry of Education, Science, Culture, and Sport; Insurance Surveillance Agency; Capital Market Authority

Deadline for data collection: Up to the end of June 2022 for the previous year

Deadline for publishing data: Annual final data: 21 September 2022 for the previous year, under the release of annual GDP

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.6.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

The aim of calculation of GDP by expenditure approach is to obtain the basic and most important macroeconomic aggregates in the National Accounts - NA system. GDP by expenditure approach is calculated as the sum of household consumption, government consumption, investment, changes in inventories and net exports of goods and services.

Financial resources required for the implementation of statistical survey: 13.543,73

Supply, use, and input-output tables

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA: Economic statistics

Ordinal number of survey: 79 Code of survey: BDP-SUT

Producer of the official statistics: Statistical Office

Organizational unit: Annual National Accounts Statistics Department

Name of the survey: Establishing an integrated system for the supply and use table compilation - pilot

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance and Social Welfare; Central Bank of Montenegro; Revenue and Customs Administration; Ministry of Defence; Ministry of Education, Science, Culture, and Sport; Insurance Surveillance Agency; Capital Market Authority

Deadline for data collection: Up to the end of March 2022 for the reference year 2016

Deadline for publishing data: /

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.7.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

Observation and identifying of all necessary data sources aimed at the production of supply and use tables which represent an integral part of National Accounts - NA system. They in details describe production process and flows of goods and services in the NA system. Supply table represents a total supply of goods and services achieved by domestic production and import. Use table presents an intermediary consumption by product and activities, product use for final consumption, gross investments, export and components of value added by activities. Supply and use tables provide an accounting framework for compiling national accounts, having total supply and use of certain types of goods and services mutually balanced. Supply and use tables also provide main information for obtaining detailed supply and use tables that can be used for the purposes of economic analyses and projections.

International trade in goods

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic statistics	
Ordinal number of survey:	130	Code of survey: UVI
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	Indices of unit values of exports and imports of goods	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Revenue and Customs Administration	
Deadline for data collection:	Up to end of March 2022 for the previous year	
Deadline for publishing data:	Annual final data: Up to the end of June 2022 for the previous year	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 2, Module 2.4.5.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.4.	International trade of goods - services and Balance of Payme
Aim of the survey:	Unit value indices of exports and imports of goods are primarily intended for analytical consideration of the dynamics of the unit value of exports and imports. Indices of export and import prices are calculated as unit value indices, i.e. indices of changes of export and import by quantity unit exported/imported products, i.e. per kg as unique and comparable quantity unit for all products.	
Financial resources required for the implementation of statistical survey:	7.004,02

International trade in goods

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	131	Code of survey:	STRR
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	International trade in goods of Montenegro		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly, annual		
Source of data:	Administrative source - Revenue and Customs Administration		
Deadline for data collection:	Monthly: up to the 20th in a month for the previous month; Annual: up to 15 March of current year		
Deadline for publishing data:	Monthly preliminary data: up to the end of current month for the previous month; Annual final data: do kraja aprila of current year for the previous year		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 2, Module 2.4.5.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.4. International trade of goods - services and Balance of Payme		
Aim of the survey:	<p>The aim of international trade in goods is monitoring the trade of goods with abroad. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in goods statistics is an important source of data for national accounts, balance of payment statistics, and short-term economic analyses. It is also important for monitoring a competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements.</p> <p>Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and Combined Nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of chapters, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.</p>

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic statistics	
Ordinal number of survey:	134	Code of survey: CPI
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	Consumer price index	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly	
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).	
Deadline for data collection:	Up to 28th in a month for current month	
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period	
Research method:	Price monitoring	
Connection with the European Statistics:	Priority area 2, Module 2.5.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5.	Prices
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of labour price, in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses, as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.	
Financial resources required for the implementation of statistical survey:	15.255,69

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Sectorial statistics	
Ordinal number of survey:	141	Code of survey: ŠUM - 22
Producer of the official statistics:	Statistical Office	
Organizational unit:	Environmental Statistics and Forestry Department	
Name of the survey:	Report on production of forest assortments in state forests	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly, quarterly	
Source of data:	Forestry Administration - Central	
Deadline for data collection:	Up to the 10th in a month for the previous month	
Deadline for publishing data:	Monthly final data: The 25th in a month for the previous month; quarterly final data: I quarter - 26 May 2022; II quarter - 25 August 2022; III quarter - 29 November 2022; IV quarter - 28 February 2023	
Research method:	Reporting method - full coverage	
Connection with the European Statistics:	Priority area 3, Modulee 3.1.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	3.1.	Agriculture, forestry, and fishery
Aim of the survey:	The aim of this survey is to obtain the data on produced, sold quantities, and stocks of forest products in state forests.	
Financial resources required for the implementation of statistical survey:	7.927,05

Module 3.1.2. b

Agriculture statistics-livestock, meat and egg production statistics

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2021

PRIORITY AREA:	Sectorial statistics	
Ordinal number of survey:	150	Code of survey: PO-51-2
Producer of the official statistics:	Statistical Office	
Organizational unit:	Agriculture and Fishery Statistics Department	
Name of the survey:	Survey on number of livestock	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Family agricultural holdings and agricultural enterprises	
Deadline for data collection:	Up to 30 December 2022 for current year	
Deadline for publishing data:	Annual final data: 16 May 2023 for the previous year	
Research method:	Sample-based surveys (interview, reporting method - sample)	
Connection with the European Statistics:	Priority area 3, Module 3.1.2. b	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	3.1.	Agriculture, forestry, and fishery
Aim of the survey:	The survey aims to provide data on number of livestock by types and categories of animals, slaughtering and sale of livestock and poultry, as well as the data on number of beehives, production of wool, eggs, honey, milk and milk products. Based on the data from this survey and available statistical data (import and export of live animals, slaughtering, etc.), it is possible to calculate the data on gross domestic production of meat.	
Financial resources required for the implementation of statistical survey:	59.998,36

Module 3.5.3. Statistics on Information and Communication Technologies (ICTs)

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Sectorial statistics	
Ordinal number of survey:	197	Code of survey: IKTP
Producer of the official statistics:	Statistical Office	
Organizational unit:	Statistics of Innovation, Household Consumption and ICT Survey Department	
Name of the survey:	Statistical survey on ICT use in enterprises	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Enterprises	
Deadline for data collection:	Up to 15 April 2022 for current year	
Deadline for publishing data:	Annual final data: 31 October 2022 for current year	
Research method:	Sample-based surveys	
Connection with the European Statistics:	Priority area 3, Module 3.5.3.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	3.5.	Science, technology, and innovation
Aim of the survey:	The survey on the use of information and communication technologies (ICT) in Montenegro was for the first time conducted in 2011. The aim of the survey is to obtain the data on the distribution and use of ICT by enterprises.	
Financial resources required for the implementation of statistical survey:	58.586,09

Module 4.3.1.

Regional statistics and their coordination

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Environment and multi-domain statistics		
Ordinal number of survey:	205	Code of survey:	
Producer of the official statistics:	Statistical Office		
Organizational unit:	National Coordination of Statistical Data Sources Section and International Cooperation and European Integration Department		
Name of the survey:	Sustainable Development Indicators		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Statistical surveys of Statistical Office		
Deadline for data collection:	/		
Deadline for publishing data:	/		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 4, Module 4.3.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	4.3.	Regional and geospatial statistical information	
Aim of the survey:	At its 70th session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016, which defines possibilities and obligations of official statistical producers in Montenegro for the production of indicators. Statistical Office as the coordinator of statistical system will contribute to the production of indicators pursuant to UN and EU list by the implementation of planned statistical surveys at the annual level, but will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources, as well as for necessary additional statistical surveys.		
Financial resources required for the implementation of statistical survey:	1.105,86		

EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012 and 47/19 of 12 August 2019) define the preparation of the Annual Plan of Official Statistics for 2022.

The Annual Plan of Official Statistics for 2022 is planning the implementation of 205 statistical surveys. Out of the total number of planned statistical surveys, 159 (i.e. 78%) will be done by the Statistical Office, as the main coordinator and disseminator of statistical data, while 46 (i.e. 22%) planned activities will be done by other official statistical producers.

Pursuant to the 2022 Annual Plan of Official Statistics, the domain of official statistics is divided in four domains, and accordingly there are planned 205 statistical activities: Demography and social statistics (59); Economic Statistics (81); Sector statistics (57); and Environmental and multi-domain statistics (8).

As the summary of the Annual Plan of Official Statistics for 2022, we would like to point out the following:

- 1. Pilot statistical surveys** (22), introduced in cases when it is necessary to assess methodology or quality of data source which needs to be collected by a statistical survey. Under competence of Statistical Office is 20 pilot statistical surveys. Under competence of Central Bank of Montenegro are 2 pilot statistical surveys;
- 2. New statistical survey** is introduced by Central Bank of Montenegro (Statistics of other financial institutions – factoring companies) and Public Health Institute of Montenegro (Survey on causes of death).

A proposal of planned resources in the Budget of Montenegro for the purpose of implementation of Statistical Office's Annual Plan of Official Statistics for 2022 is 1 980 299.65 euro. Pension and Disability Insurance Fund has planned financial resources in the amount of 6 190.04 euro, while other institutions of statistical system reported no costs for the implementation of statistical surveys planned by the Annual Plan of Official Statistics for 2022.
