METHODOLOGICAL EXPLANATIONS

The statistical survey covers all secondary schools working in accordance with the programme approved by the responsible ministry. The data on secondary education in this release refer to the beginning of school year, and they are the result of statistically processed annual reports provided by secondary schools.

Secondary education provides acquiring knowledge and skills necessary to be included at the labour market or to continue the secondary education. The secondary education is not compulsory education. The secondary school can be gymnasium, art or vocational school.

Gymnasium provides a general education in the area of natural and social sciences aimed at to continue the education. The education in gymnasium lasts for four years.

Art school provides obtaining the fourth level of educational attainment in the area of music and ballet. The education lasts for four years..

Vocational four-year school provides the fourth level of educational attainment, i.e. secondary education for work and further education. Three-year vocational schools provide the third level of educational attainment.
