<b>NON-DURABLE CONSUMER GOODS</b>	100.0	100.0	99.8	99.7

## METHODOLOGICAL NOTES

Price indices of industrial products, which are calculated based on prices collected from domestic producers realized on the domestic market serve as one of the main short-term indicators in economic analysis and views.

Selling price of manufactured products is the price at which the manufacturer sells to regular customers in the domestic market in large quantities. Price is without value added tax.

Sample and weights are based on annual industry survey. Manufacturers have been selected as the largest manufacturers of product categories that are included in the study.

The data are published according Data publishing calendar, as well as on our website [www.monstat.org](http://www.monstat.org).
