

STATISTICAL OFFICE OF MONTENEGRO

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2019

A 3D graphic consisting of several overlapping, semi-transparent blue and grey rectangular blocks. The blocks are arranged in a way that they appear to be part of a larger structure. The year "2019" is printed in blue on the rightmost block.

2019

Pursuant to Article 23 paragraph 3 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12), the Government of Montenegro at its 104th session held on 27 December 2019, adopted

DECISION
ON
2019 OFFICIAL STATISTICS ANNUAL PLAN

1. This Decision shall define the Annual Plan of Official Statistics for 2019 that covers an overview of statistical activities according to the priority statistical domains
2. Annual Plan of Official Statistics for 2019 shall be a constituent part of this Decision.
3. This Decision shall be published in the Official Gazette of Montenegro.

No: 09-

Podgorica, _____

President
Mr. Dusko Markovic

TABLE OF CONTENTS

DEMOGRAPHY AND SOCIAL STATISTICS

1.1 POPULATION

Birth statistics	2
Statistics on deaths.....	3
Marriage statistics	4
Divorce statistics	5
Population estimates	6
Main demographic indicators	7
Statistics on internal migrations.....	8
International migration statistics - pilot.....	9
Acquisition and loss of citizenship statistics - pilot.....	10
Generations and gender statistical survey - pilot	11
European social survey (ESS) - pilot.....	12
2021 Population, households and dwellings census - pilot	13
Illegal migration statistics	14
Asylum statistics	15
Residence permits - pilot.....	16
Number of population from administrative sources - pilot.....	17

1.2 LABOUR MARKET

Labour Force Survey (LFS).....	18
Job vacancy statistics - pilot.....	19
Statistical survey on insured persons – employees by activity and municipalities	20
Statistical survey on earnings of employees	21
Statistical survey on earnings from administrative sources - pilot.....	22
Statistical survey on earnings' structure - pilot.....	23

1.3 EDUCATION AND LIFELONG LEARNING

Statistical survey for preschool education.....	24
Primary education statistics	25
Adult primary education statistics	26
Secondary education statistics	27

Statistical survey on enrolment of students (undergraduate studies).....	28
Statistical survey on graduates students (undergraduate studies).....	29
Statistical survey on enrolment to postgraduate and doctoral studies	30
Statistical survey on master degree holders and specialists	31
Statistical survey on academic, professional staff and structure of higher education organizations.....	32
Statistical survey on PhD holders	33
Statistical survey on pupils and students homes.....	34

1.4 HEALTH

Population Health Interview Survey (EHIS).....	35
Report on human resources in health care	36
Report on treated patients in service of hospital-patient treatment	37
Report on childbirths	38
Report on registered cases and outbreaks of infectious diseases	39
Report on work and established diseases, and conditions in outpatient health care	40
Report on abortions.....	41
Report on organization and work of hospitals.....	42
Report on completed compulsory immunization against infectious diseases	43
Report on revenues and expenditure of Health Insurance Fund.....	44
Report on insured persons under international agreements on social insurance	45
Report on safety of drinking water	46
Report on food and objects of general use quality control	47
Survey on causes of deaths - pilot.....	48
Work injury survey - pilot.....	49

1.5 INCOME AND CONSUMPTION

Statistics on income and living condition (EU-SILC).....	50
Minimal consumer basket	51

1.6 SOCIAL PROTECTION

Social protection in Montenegro - ESSPROS.....	52
Beneficiaries of social and child care allowances	53
Beneficiaries of accommodation services in social and child care institutions	54

Monthly report on pension and disability insurance beneficiaries	55
Annual report on pension and disability insurance beneficiaries	56

1.7 JUSTICE AND CRIME

Statistical survey on adults against whom proceedings based on criminal charges and previous proceedings have been concluded	57
Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded	58
Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded	59
Statistical survey on adults against whom criminal proceedings have been concluded.....	60

1.8 CULTURE

Statistical survey on cinemas	61
Statistical survey on theatres	62
Statistics on electronic media.....	63
Statistical survey on museums, galleries and collections	64
Sport clubs.....	65

ECONOMY STATISTICS

2.1 MACROECONOMICS

Overview of revenue collection of Customs Administration	67
Establishing framework and elements necessary for the production of non-financial sector accounts - pilot.....	68
Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector.....	69
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	70
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector.....	71

Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured.....	72
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for private sector in tourism.....	73
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs.....	74
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for agriculture sector Agriculture, forestry and fishery according to the 2010 Activity Classification.....	75
Calculation of annual gross domestic product by production approach.....	76
Calculation of annual gross domestic product by expenditure approach.....	77
Calculation of annual gross national income	78
Creation of elements required for the calculation of gross domestic product: estimation of non-observed economy in part of legal activities as a constituent part of GDP - pilot.....	79
Creation of elements required for the calculation of gross domestic product: estimation of non-observed economy in part of illegal activities as a constituent part of GDP - pilot.....	80
Calculation of quarterly gross domestic product by expenditure approach	81
Monitoring quarterly indicators of economic growth for the needs of QGDP.....	82
Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending.....	83
Creation of elements required for the calculation of gross domestic production by expenditure approach: household final consumption.....	84
Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation.....	85
Establishing an integrated system for the supply and use table compilation - pilot	86

2.2 GOVERNMENT FINANCE, MONETARY AND FINANCIAL STATISTICS

Analysis of collective investment scheme.....	87
Analysis of financial instruments.....	88
Stock exchange businesses.....	89
Statistics of other financial institutions.....	90
Interests rate statistics.....	91
Statistics of monetary financial institutions.....	92
Annual registration of tax on income of natural persons.....	93
Data on receipts, government expenditure per month.....	94

Data on revenues, expenditures of state and local government.....	95
Report on public debt.....	96
Registration of tax on income of legal persons.....	97
Monthly report for the calculation of value added tax.....	98
Analysis of consolidated public spending.....	99
Registration data on legal and natural persons - taxpayers.....	100
Report on government debt.....	101
Financial reports of entrepreneurs (balance sheet and income statement).....	102
Financial reports of enterprises (balance sheet, income statement, and Statistical Annex).....	103

2.3 BUSINESS STATISTICS

Structural survey of business enterprises.....	104
Survey on investments in fixed assets.....	105
Industrial production (PRODCOM).....	106
Indices of industrial production and turnover.....	107
Producer price index of industrial products.....	108
Producer price index of industrial products for export	109
Price index of industrial products from import.....	110
Prices of new built dwellings	111
Consumption of building and drive materials.....	112
Construction works.....	113
Construction activity.....	114
Demolished buildings with dwellings.....	115
Construction permits and registration of works.....	116
Turnover index in retail trade.....	117
Turnover in wholesale trade.....	118
Services producer price index - pilot.....	119
Turnover index in services	120
Survey on enterprises with the units in their composition.....	121
Survey on businesses of large and middle enterprises.....	122

2.4 INTERNATIONAL TRADE IN GOODS - SERVICES, AND BALANCE OF PAYMENTS

Survey on credit transactions with foreign residents	123
Balance of payment of Montenegro.....	124
Survey on credit transactions with foreign residents (at quarterly level) - pilot.....	125

International investment position (IIP)	126
Inward foreign affiliates' statistics IFATS.....	127
Outward foreign affiliates' statistics OFATS.....	128
Survey on matters of direct foreign investment.....	129
Survey on matters of direct foreign investment - pilot.....	130
Indices of unit values of exports and imports of goods.....	131
International trade of goods of Montenegro.....	132

2.5 PRICES

Consumer price index.....	133
Harmonized Consumer Price Index.....	134
Harmonized Consumer Price Index in administrative prices.....	135
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods".....	136
Gross domestic product and real individual consumption per capita, by purchasing power parity.....	137
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "Construction".....	138
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "Machinery and equipment".....	139

SECTORIAL STATISTICS

3.1 AGRICULTURE, FORESTRY AND FISHERY

Forest growing and silviculture.....	141
Exploitation of private forests.....	142
Report on production of forest assortments in state forests.....	143
Exploitation of state forests.....	144
Damages from a fire in private forests.....	145
Damages in state forests.....	146
Construction buildings, roads, and machinery in forestry.....	147
Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests - pilot.....	148
Accounts in forestry - pilot	149
Report on agricultural enterprises and agricultural cooperatives.....	150
Report on veterinary.....	151

Survey on achieved yields from early crops.....	152
Survey on achieved yields of late crops, fruit, and grape.....	153
Survey on areas and plantations at the end of spring sown.....	154
Report on livestock of agricultural farms - Survey on number of livestock.....	155
Report on slaughtering livestock and poultry in slaughterhouses.....	156
Report on slaughtering livestock and poultry in slaughterhouses (administrative source) – pilot.....	157
Report on trade of broilers - pilot.....	158
Gross domestic meat production.....	159
Report on entrance of raw milk (cow milk) and obtained milk products.....	160
Report on entrance of raw milk and obtained milk products.....	161
Census of agriculture - pilot.....	162
Report on prices of agricultural products, raw materials, resources, and services provided for agriculture.....	163
Expenditures and production of agricultural holdings.....	164
Sale of agricultural products from own production of agricultural companies and agricultural cooperative.....	165
Report on purchase of agricultural products from individual producers.....	166
Accounts in agriculture.....	167
Report on price of land and land rent - pilot.....	168
Report on fishermen and fishing equipment in maritime fishery.....	169
Report on fishery in rivers and lakes.....	170
Report on maritime fishery	171
Report on production of white-fleshed fish and shellfish in mariculture.....	172
Report on production of fish in fishponds - aquaculture.....	173
Organic production statistics - pilot.....	174
Survey on turnover of pesticide.....	175

3.2 ENERGY STATISTICS

Balance of petroleum products.....	176
Balance of coal.....	177
Balance of wood fuels.....	178
Balance of electricity	179
Complex energy balance.....	180

3.3 TRANSPORT

Report on merchant navy	181
Report on turnover in airports	182
Report on airport infrastructure and turnover in airports	183
Report on air transport	184
Report on infrastructure and turnover in air transport	185
Report on transport of passengers and goods in railway transport.....	186
Survey on railway infrastructure.....	187
Survey on passenger road transport	188
Survey on local traffic.....	189
Survey on freight road transport	190
Report on roads and bridges	191
Report on registered road motor vehicles and trailer vehicles	192
Report on number of transport accidents	193
Report on arrivals and departures of ships in ports	194
Report on transshipment in ports.....	195
Report on capacity of transshipment of funds in maritime transport	196
Report on transport of passenger and goods in maritime transport	197
Report on maritime transport – inventory state	198
Report on postal and telecommunication services	199
Report on postal and telecommunication network.....	200
Survey on turnover of passengers and goods at airports by airport pairs	201

3.4 TOURISM

Visits of foreign cruise ships	202
Nautical tourism.....	203
Arrivals and overnight stays of tourists in collective accommodation.....	204
Arrivals and overnight stays of tourists in private accommodation.....	205
Survey on arrivals and overnights stays of tourists, total	206
Tourist activity of population of Montenegro - pilot	207
Tourism satellite accounts - pilot.....	208

3.5 SCIENCE, TECHNOLOGY AND INNOVATION

Statistical survey on scientific and research activity - Research and Development	209
Government budget appropriations or outlays for research and development (GBAORD Statistics)	210
Innovative activities of enterprises-pilot	211
Survey on the ICT use in households and by individuals	212
Statistical survey on ICT use in enterprises	213

ENVIRONMENT

4.1 ENVIRONMENT

Environmental accounts - pilot	215
Statistical survey on generated waste in industry	216
Survey on municipal waste.....	217
Survey on amount of waste imported to landfill	218
Survey on generated waste in agriculture	219
Statistical survey on generated waste in construction and service activities	220
Survey on collection and processing of waste	221
Statistical survey on irrigation systems	222
Statistical survey on use and protection of water against pollution in industry	223

4.2 REGIONAL AND GEOSPATIAL STATISTICAL INFORMATION

Sustainable development indicators	224

Research method: Interview

Connection with the European Statistics: Priority area 1, Module 1.1.1.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 1.1. Population

Aim of the survey:

The aim of survey is to provide high quality data for scientific and research purposes on demographic and family changes, inter-generation relations, and changes in the social roles of women and men, having in mind economic, social and cultural context. The survey in the world is recognised in such a manner that the data on issues of family planning, balance between work and living, transitional period to adult person and intra-generation exchanges are collected. The survey will bring in a new insight into low fertility, complex living trajectories of those growing up, as well as new types of inter-generation differences. The survey has been introduced upon the proposal of user - Institute for Strategic Studies and Prognoses.

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2019

PRIORITY AREA: Economic statistics

Ordinal number of survey: 74 Code of survey: BDP-O

Producer of the official statistics: Statistical Office

Organizational unit: Department for Macro-economic Statistics and National Accounts

Name of the survey: Calculation of annual gross domestic product by production approach

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance, Ministry of Defence, Ministry of Science, Central Bank of Montenegro, Tax Administration, Insurance Supervision Agency, Capital Market Commission, Health Insurance Fund, Ministry of Health, Public Health Institute

Deadline for data collection: Up to the end of June of current year for the previous year

Deadline for publishing data: Annual final data: 27 September 2019 for the previous year, within the publication of annual GDP

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.5.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

The aim of calculation of gross domestic product GDP by production approach is to obtain main and the most important macroeconomic aggregate in the national accounts system. This aggregate is a result of production activities of all residential institutional units, this is an indicator of economic activity for the whole country. GDP by production approach is calculated as the sum of value added of all resident institutional units, increased with taxes on products minus subventions on products.

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.5.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

The aim of calculation of GDP by expenditure approach is to obtain the basic and most important macroeconomic aggregates in the national accounts system. By applying this method of calculating considers the establishment of basic relations on which the national accounts are based, and that is that the total value of available goods and services (supply) must be equal to the total value of goods and services consumed (used) in the observed period at the total economy. GDP by expenditure approach is calculated as the sum of household consumption, government consumption, investment, changes in inventories and net exports of goods and services.

Publishing periodicity: Quarterly

Source of data: Administrative source - Ministry of Finance, Ministry of Defence, Ministry of Science, Central Bank of Montenegro, Tax Administration, Customs Administration, Insurance Supervision Agency, Capital Market Commission, Health Insurance Fund, Ministry of Heal

Deadline for data collection: 60 days after the end of the reference quarter

Deadline for publishing data: Quarterly preliminary data: I quarter- 21 June 2019; II quarter- 27 September 2019; III quarter- 20 December 2019; IV quarter- 20 March 2020

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.5.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

The aim of quarterly calculation of GDP by expenditure approach is to provide the main macroeconomic aggregate in the national accounts - NA system. Applying this approach it is possible to observe the establishment of main relation on which the NA are based, in other words, that total value of available goods and services (supply) must be equal to total value of spent goods and services (use) in the observed period at the total economy value. Quarterly gross domestic product by expenditure approach is calculated as the sum of household consumption, government consumption, investment, changes in inventories and net exports of goods and services.

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance, Ministry of Defence, Ministry of Science, Central Bank of Montenegro, Tax Administration, Customs Administration, Insurance Supervision Agency, Capital Market Commission, Health Insurance Fund, Ministry of Health

Deadline for data collection: Until the end of March of current year for the reference 2016

Deadline for publishing data: /

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.6.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

Supply and use tables provide a detailed analysis of supply and demand of products and services. The supply table shows the sources of supply of product in one economy. The use table provides information on use of products, and other primary factors of production spent. The main principles of these two tables is that the total supply of products must be equal to the total use of these products.

Module 2.5.1.

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2019

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	131	Code of survey:	CPI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department for Price Statistics		
Name of the survey:	Consumer price index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	Monthly preliminary data: data for December 2018 - 16 January 2019 Monthly final data: data for November 2018 – 16 January 2019; December 2018 – 8 February 2019; for the rest of months 15 days after the end of reference period		
Research method:	Interview		
Connection with the European Statistics:	Priority area 2, Module 2.5.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5. Prices		
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy to meet their needs. In addition to serving as a measure of inflation, it can be also used for the harmonization of price of labour in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses as well as deflator of individual macroeconomic aggregate in the statistics of national accounts.

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2019

PRIORITY AREA:	Economic statistics		
Ordinal number of survey:	132	Code of survey:	HICP
Producer of the official statistics:	Statistical Office		
Organizational unit:	Department for Price Statistics		
Name of the survey:	Harmonized Consumer Price Index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).		
Deadline for data collection:	Up to the 28th in a month for the current month		
Deadline for publishing data:	Monthly preliminary data: data for December 2018 - 18 January 2019 Monthly final data: data for November 2018 – 18 January 2019; December 2018 – 8 February 2019; for the rest of months 15 days after the end of reference period		
Research method:	Interview		
Connection with the European Statistics:	Priority area 2, Module 2.5.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5. Prices		
Aim of the survey:	Harmonized Index of Consumer Prices (HICP) is the basis for comparative measurements of inflation in Europe as well as the evaluation of stability of monetary value in the euro zone. Unlike consumer price index, HICP uses a different methodological concept used by all EU member states. Every EU member state is obliged to produce HICP calculated on the basis of harmonized access and uniform set of definitions.

Module 4.2.1.

Regional statistics and their coordination

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2019

PRIORITY AREA:	Environment and multi-domain statistics	
Ordinal number of survey:	220	Code of survey:
Producer of the official statistics:	Statistical Office	
Organizational unit:	Department for National Coordination of Statistical Data Sources	
Name of the survey:	Sustainable Development Indicators	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Reporting units – enterprises and households, administrative sources	
Deadline for data collection:	Up to 30 December	
Deadline for publishing data:	2019	
Research method:	Interview, compilation, estimation	
Connection with the European Statistics:	Priority area 4, Module 4.2.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	4.2.	Regional and geospatial statistical information
Aim of the survey:	<p>At its 70th session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016. For the purpose of establishing the system for conducting and reporting the implementation of the Strategy for Sustainable Development up to 2030, there have been carried out an analysis of 241 sustainable development indicators defined by the UN Statistical Commission. The National Strategy of Sustainable Development of Montenegro up to 2030 defines possibilities and obligations of official statistical producers in Montenegro. Statistical Office will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about of an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources as well as for necessary additional statistical surveys.</p>	
Financial resources required for the implementation of statistical survey:		

EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012) define the preparation of the Annual Plan of Official Statistics for 2019.

The Annual Plan of Official Statistics for 2019 is planning the implementation of 220 statistical activities. Out of the total number of planned statistical activities, 175 (i.e. 80%) will be done by the Statistical Office, as the main coordinator and disseminator of statistical data, while 45 (i.e. 20%) planned activities will be done by other official statistics producers.

As the summary of key changes in the Annual Plan of Official Statistics for 2019 compared with the Annual Plan of Official Statistics 2018, the following is pointed out:

1. There have been introduced (31) pilot statistical activities due to the harmonization of official statistics of Montenegro with the EU *acquis* regarding the official statistics, and in cases where methodology or the quality of data source collected with a statistical survey need to be assessed. There are 26 pilot statistical activities under the competence of Statistical Office out of the total number of pilot statistical activities planned by the Annual Plan of Official Statistics for 2019, and (5) statistical activities under the competence of other official statistics producers (Central Bank of Montenegro (2), Public Health Institute of Montenegro (5));
2. There have been introduced (1) new statistical survey under the competence of Central Bank of Montenegro;
3. Statistical activities removed: (6) under the competence of Public Health Institute (1), and under the competence of Central Bank of Montenegro;
4. The change of dynamics in the data publication is caused by the availability of original data, and by improvement of organization and control of statistical processes;
5. Improvement of data collection method – use of CAPI method.

A proposal of planned resources in the Budget of Montenegro for the purpose of implementation of Annual Plan of Official Statistics for 2019 is 2.11 million of euro.
