Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	4.2.	Regional and geospatial statistical information
<b>Aim of the survey:</b>	<p>At its session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016. For the purpose of establishing the system for conducting and reporting the implementation of the Strategy for Sustainable Development up to 2030, there have been carried out an analysis of 241 sustainable development indicators defined by the UN Statistical Commission. The National Strategy of Sustainable Development of Montenegro up to 2030 defines possibilities and obligations of official statistical producers in Montenegro. Statistical Office will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources as well as for necessary additional statistical surveys.</p>	
Financial resources required for the implementation of statistical survey:		

## EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012) define the preparation of the Annual Plan of Official Statistics for 2019.

The Annual Plan of Official Statistics for 2019 is planning the implementation of 220 statistical activities. Out of the total number of planned statistical activities, 175 (i.e. 80%) will be done by the Statistical Office, as the main coordinator and disseminator of statistical data, while 45 (i.e. 20%) planned activities will be done by other official statistics producers.

As the summary of key changes in the Annual Plan of Official Statistics for 2019 compared with the Annual Plan of Official Statistics 2018, the following is pointed out:

1. There have been introduced (31) pilot statistical activities due to the harmonization of official statistics of Montenegro with the EU *acquis* regarding the official statistics, and in cases where methodology or the quality of data source collected with a statistical survey need to be assessed. There are 26 pilot statistical activities under the competence of Statistical Office out of the total number of pilot statistical activities planned by the Annual Plan of Official Statistics for 2019, and (5) statistical activities under the competence of other official statistics producers (Central Bank of Montenegro (2), Public Health Institute of Montenegro (5));
2. There have been introduced (1) new statistical survey under the competence of Central Bank of Montenegro;
3. Statistical activities removed: (6) under the competence of Public Health Institute (1), and under the competence of Central Bank of Montenegro;
4. The change of dynamics in the data publication is caused by the availability of original data, and by improvement of organization and control of statistical processes;
5. Improvement of data collection method – use of CAPI method.

A proposal of planned resources in the Budget of Montenegro for the purpose of implementation of Annual Plan of Official Statistics for 2019 is 2.11 million of euro.
