METHODOLOGICAL NOTES

Source of data

The data of postal and telecommunication activities are the result of regular monthly survey on reporting units with postal activities and telecommunication as the main activity.

Coverage

Surveys cover enterprises classified in the Classification Unit Register according to the activity classification in Section H (Postal activities), Area 53, and Section J (Telecommunication), Area 61.

Definitions

Postal service is a service of receiving, processing, transfer and delivering letter mails in accordance with accepted standards.

Telecommunication services cover transfer of voice, data, text, and sound, and video material by the transmission equipment based on single technology or combination of several technologies.

Fixed telecommunication is services providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

Mobile telecommunication is services providing to users the access to public mobile network, and the use of mobile telecommunication services.
