(p) Previous data

¹ Due to changes in the methodology for conducting research on freight transport, in order to achieve compliance with the EU acquis, road freight transport since the first quarter of 2014 been conducted according to a new survey, which was prepared according to the regulations of the European Communities No.1172/98 and 70/2012. New research is significantly different from previous research, so that this change caused a break in the time series.

METHODOLOGICAL NOTES

Due to changes in the methodology for conducting research on freight transport, in order to achieve compliance with the EU acquis, road freight transport since the first quarter of 2014 been conducted according to a new survey, which was prepared according to the regulations of the European Communities No.1172/98 and 70/2012. Revised survey is significantly different from previous survey, so that this change caused a break in the time series.

Source of data

The survey is conducted on a sample. Data are collected through benchmarking. The observation unit is goods road motor vehicle with payload capacity 3500 kg and higher, as well as tractors. The data sources are natural and legal persons which are owners or operators of vehicles

Coverage

Frame for sample selection is a database of registered vehicles that are obtained from Ministry Interior of Montenegro.

Definitions

Road transport is any movements of goods and/or passengers using a road vehicle on a given road network.

National road transport is transport between two places (a place of loading and a place of unloading) located in the same country in which the vehicle is registered.

International road transport is transport between two places (a place of loading and a place of unloading) in two different countries. It may involve transit through one or more additional country or countries.

Road cabotage transport is national road transport performed by a motor vehicle registered in another country.

Cross-trade road transport is international road transport performed by a road motor vehicle registered in a third country.

Tonne kilometre is unit of measure representing the movement of one tonne available in a road goods vehicle when performing services for which it is primarily intended over one kilometre.

Transport for hire or reward is the carriage for remuneration, of persons or goods, on behalf of third parties.

Transport on own account is transport which is not for hire or reward.

Goods road motor vehicle is any single road motor vehicle designed to carry goods (lorry), or any coupled combination of road vehicles designed to carry goods, (i.e. lorry with trailer(s), or road tractor with semitrailer and with or without trailer).

Road tractor is road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power-driven
