METHODOLOGICAL NOTES

Source of data

The data on maritime transport are the result of regular quarterly surveys on reporting units with the sea transport of goods and passengers carried by sea, the main activity.

Coverage

The surveys cover enterprises classified within the Classification Unit Register by Activity Classification in Section H (Transport and storage), Area 50.

Definitions

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lakefronts.

A passenger is any person who has purchased a ticket, or a ticket is entered and the conveyance order to be transported to the place of commitment.

Under the transported goods includes the shipment of cargo (goods) that is transported on the basis of the contract of carriage.
