METHODOLOGICAL NOTES

Source of data

The data of road transport are the result of regular monthly surveys on reporting units with the carriage of passengers and goods in transport by road as the main activity.

Coverage

The surveys cover enterprises classified within the Classification Unit Register according the Activity Classification in Section H (Transport and storage).Area 49.

Definitions

Transport in traffic is movement of passengers and goods from place of loading/embarking and place of unloading/disembarkation.

Passenger is every person with the ticket or appropriate document entered the bus with the aim to travel to desired place.

Passenger-kilometre is a carriage of one passenger over the distance of 1 km.

Goods transported are all freight and mail carried on the basis of transport contract. The quantity of goods transported is as gross weight. meaning that the weight of goods also covers the quantity of packaging or packing material (container).

Tonne-kilometre is transport of one-tonne goods over the distance of 1 km.
