## METHODOLOGICAL NOTES

### Source of data

The data of postal and telecommunication activities are the result of regular monthly survey on reporting units with postal activities and telecommunication as the main activity.

### Coverage

Surveys cover enterprises classified in the Classification Unit Register according to the activity classification in Section H (Postal activities), Area 53, and Section J (Telecommunication), Area 61.

### Definitions

*Postal service* is a service of receiving, processing, transfer and delivering letter mails in accordance with accepted standards.

*Letter* is a type of communication in written form on paper or other appropriate data carrier, which must be sent and delivered to the address indicated by the sender on the item or letter cover.

*The package* is a postal consignment containing goods and items.

*Registered mail* is the item for which the sender is issued a certificate of acceptance and shall be delivered to the recipient with the signature in case of loss, damage or reduced content of the prescribed fee paid damages.

*Other printed papers* are printed publications issued by the publisher of a daily, occasionally or in a given period (newspapers and magazines).

*Telecommunication services* cover transfer of voice, data, text, and sound, and video material by the transmission equipment based on single technology or combination of several technologies.

*Fixed telecommunication* is services providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

*Mobile telecommunication* is services providing to users the access to public mobile network, and the use of mobile telecommunication services.
