Total		91.2	99.0	103.6	158.3	98.9	103.3

¹⁾ Applying new activity classification, NACE Rev.2, Trade of motor vehicles and motorcycles, and Trade of parts for motor vehicles are collected by survey Trg10M from January 2012. In accordance with the mentioned changes, i.e. with new classification NACE Rev. 2, indices of turnover in retail trade are recalculated and represented according to new classification NACE Rev.2 from 2010.

Note: Data represent the original indexes that are not working day and seasonally adjusted.

METHODOLOGICAL NOTES

Coverage

Statistics on retail trade of motor vehicles and motorcycles also covers and presents turnover of enterprises with main activity in area 45 of Nace Rev2 activities classification. This monthly survey on retail trade is conducted on the basis of sample covering all large and medium enterprises, and small enterprises are defined by random sample approach.

Definitions

Turnover of goods in retail trade is a value of sold goods enterprise which was sold to final consumers, i.e. population for personal consumption, household use, and both legal and natural persons for performing activities. Indices of turnover of goods in constants prices are obtained through deflating index in current prices with appropriate indices of retail price of goods.
