METHODOLOGICAL NOTES

Coverage

Statistics on retail trade of motor vehicles and motorcycles also covers and presents turnover of enterprises with main activity in area 45 of Nace Rev2 activities classification. This monthly survey on retail trade is conducted on the basis of sample covering all large and medium enterprises, and small and micro enterprises are defined by random sample approach.

Definitions

Turnover of goods in retail trade is a value of sold goods enterprise which was sold to final consumers, i.e. population for personal consumption, household use, and both legal and natural persons for performing activities. Indices of turnover of goods in constants prices are obtained through deflating index in current prices with appropriate indices of retail price of goods.
