

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2023

22

TABLE OF CONTENTS

DEMOGRAPHY AND SOCIAL STATISTICS

1.1 POPULATION

Birth statistics	2
Statistics of deaths	3
Marriage statistics	4
Divorce statistics	5
Population estimates	6
Main demographic indicators	7
Statistics on internal migrations	8
International migration statistics – pilot	9
Acquisition and loss of citizenship statistics - pilot.....	10
Illegal migration statistics	11
Asylum statistics	12
Statistics on population based on administrative sources – pilot	13
Residence permits - pilot.....	14
Census of population, households, and dwellings.....	15

1.2 LABOUR MARKET

Labour Force Survey (LFS)	16
Statistical survey on insured persons - employees by activity and municipality	17
Statistical survey on earnings of employees	18
Statistical survey on earnings from administrative sources – pilot.....	19
Statistical survey on structure of earning	20

1.3 EDUCATION AND LIFELONG LEARNING

Statistical survey for preschool education	21
Primary education statistics	22
Adult primary education statistics.....	23
Secondary education statistics	24
Statistical survey on academic, professional staff, and structure of higher education organizations.....	25
Statistical survey on enrolment of students (undergraduate studies)	26
Statistical survey on graduated students (undergraduate studies)	27
Statistical survey for PhD holders.....	28
Statistical survey on pupils and students' homes.....	29
Enrolment to postgraduate and doctoral studies.....	30
Statistical survey for master degree holders and specialists.....	31

1.4 HEALTH

Report on human resources in health care.....	32
Report on treated patients in service of hospital-patient treatment.....	33
Report on childbirths	34
Report on registered cases and outbreaks of infectious diseases.....	35
Report on work and established diseases and conditions in outpatient health care.....	36
Report on abortions.....	37
Report on organization and work of hospitals.....	38
Report on completed compulsory immunization against infectious diseases.....	39
Report on safety of drinking water	40
Report on food and objects of general use quality control.....	41
Survey on injuries at work	42
Report on revenues and expenditures of Health Insurance Fund	43
Report on insured persons under international agreements on social insurance.....	44
Survey on causes of death.....	45

1.5 INCOME AND CONSUMPTION

Survey on income and living conditions (EU-SILC)	46
Minimal consumer basket	47

1.6 SOCIAL PROTECTION

Beneficiaries of social and child care allowances.....	48
Report on pension and disability insurance beneficiaries	49
Social protection in Montenegro.....	50
Beneficiaries of accommodation services in social and child care institutions.....	51
Annual report on pension and disability insurance beneficiaries	52

1.7 JUSTICE AND CRIME

Statistical survey on adults against whom proceeding based on criminal charges and previous proceedings have been concluded.....	53
Statistical survey on adults against whom criminal proceedings have been concluded.....	54
Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded.....	55
Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded.....	56
Crime indicators.....	57

1.8 CULTURE

Libraries.....	58
Statistical survey on cinemas.....	59
Statistical survey on theatres	60

Statistics of electronic media	61
--------------------------------------	----

ECONOMIC STATISTICS

2.1 MACROECONOMICS

Overview of customs revenue collection.....	63
Establishment of framework and elements necessary for production of non-financial sector accounts – pilot.....	64
Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector.....	65
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector.....	66
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector.....	67
Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured.....	68
Creation of elements required for the calculation of gross domestic product: calculation of gross value added in service and household product.....	69
Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs.....	70
Creation of elements required for the calculation of gross domestic product: calculation of gross value added for agriculture sector Agriculture, forestry and fishery according to the 2010 Activity Classification.....	71
Calculation of annual gross domestic product by production approach.....	72
Calculation of annual gross domestic product of Montenegro by expenditure approach.....	73
Calculation of quarterly gross domestic product by expenditure approach.....	74
Monitoring quarterly indicators for the needs of calculating quarterly gross domestic product (QGDP)..	75
Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending.....	76
Creation of elements required for the calculation of gross domestic production by expenditure approach: household final consumption.....	77
Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation.....	78
Creation of elements necessary for the calculation of gross domestic product by income approach – pilot.....	79
Calculation of quarterly Gross Domestic Product of Montenegro by production approach.....	80
Creation of elements required for the calculation of quarterly Gross Domestic Product by production approach.....	81
Creation of elements required for the calculation of quarterly Gross Domestic Product - QGDP by expenditure approach.....	82
Calculation of annual Gross Domestic Product by income approach – pilot.....	83
Establishing an integrated system for the supply and use table compilation – pilot.....	84
Calculation of annual gross national income.....	85
Creation of elements required for the calculation of gross domestic product: estimation of non-observed economy as a constituent part of GDP – pilot.....	86

2.2 FINANCE STATISTICS, MONETARY AND FINANCIAL STATISTICS

Analysis of collective investment scheme.....	87
Analysis of financial instruments.....	88
Stock exchange businesses.....	89
Statistics of other financial institutions - microcredit financial institutions.....	90
Statistics of other financial institutions - leasing companies.....	91
Statistics of monetary financial institutions.....	92
Interests rate statistics.....	93
Financial Soundness Indicators.....	94
Statistics of other financial institutions - Factoring companies.....	95
Statistics of other financial institutions - companies for purchase of receivables.....	96
Analysis of consolidated public spending.....	97
Data on receipts, government expenditure per month.....	98
Data on government and local self-government revenues and expenditures.....	99
Report on government debt.....	100
Report on public debt	101
Entrepreneurs' financial reports (Balance sheet and income statement).....	102
Financial statements of the company (Balance Sheet, Income Statement and Statistical Annex)	103
Monthly report for the calculation of value added tax.....	104
Registration data on legal and natural persons – taxpayers.....	105
Annual registration of tax on income of natural persons.....	106
Registration of tax on income of legal persons.....	107
Investments in fixed assets (quarterly) – pilot.....	108

2.3 BUSINESS STATISTICS

Structural survey on business of enterprises.....	109
Investments in fixed assets	110
Industrial production (PRODCOM)	111
Indices of industrial production and turnover.....	112
Producer price index of industrial products.....	113
Producer Price Index of Industrial Products for Export.....	114
Price Index of Industrial Products from Import.....	115
Prices of apartments in new construction.....	116
Consumption of building and drive materials	117
Construction works.....	118
Construction activity	119
Demolished buildings with dwellings.....	120
Construction permits and registration of works.....	121
Turnover index in retail trade.....	122
Turnover in wholesale trade.....	123
Turnover index in services.....	123
Survey on businesses of large and medium enterprises.....	125
Survey on enterprises with units in their composition.....	126

2.4 INTERNATIONAL TRADE IN SERVICES, AND BALANCE OF PAYMENTS

External debt of Montenegro	127
-----------------------------------	-----

Balance of payments of Montenegro.....	128
Survey on credit transactions with foreign resident	129
International investment position (IIP)	130
Survey on trade loans and deposits – pilot	131
Inward foreign affiliates' statistics IFATS	132
Outward foreign affiliates' statistics OFATS - pilot.....	133
Survey on on matters of direct foreign investment (annual)	134
Survey on on matters of direct foreign investment (quarterly)	135
Survey on international transactions related to construction services – pilot	136
Indices of unit values of exports and imports of goods.....	137
International trade in goods of Montenegro.....	138
International trade in goods of Montenegro by enterprise characteristics (TEC)	139

2.5 PRICES

Consumer price index	140
Harmonized consumer price indices.....	141
Harmonized consumer price indices in administrative prices.....	142
Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	143
Gross domestic product and real individual consumption per capita, by purchasing power parity.....	144
Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction" ..	145
Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Machinery and equipment".....	146

SECTOR STATISTICS

3.1 AGRICULTURE, FORESTRY AND FISHERY

Production of forest assortments in state forests	148
Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests.....	149
Forestry Accounts – pilot.....	150
Labor force, consumption of energy products, and machinery in forestry – pilot.....	151
Veterinary	152
Achieved yields from early crops.....	153
Achieved yields of late crops, fruit and grape.....	154
Areas and plantations at the end of spring sowing.....	155
Survey on number of livestock.....	156
Slaughtering livestock and poultry in slaughterhouses.....	157
Slaughtering livestock and poultry in slaughterhouses (administrative source) – pilot	158
Entrance of raw milk (cow milk) and obtained milk products.....	159
Pilot census of agriculture by using CAPI method of data collection.....	160
Agri-monetary statistics - prices of agricultural products, raw materials, resources, and services provided for agriculture – pilot.....	161
Agri-monetary statistics - expenditures and agricultural production of agricultural holdings - pilot.....	162
Agri-monetary statistics - sale of agricultural products from own production of agricultural companies and agricultural cooperatives.....	163
Agri-monetary statistics - purchase of agricultural products from individual producers.....	164

Agri-monetary statistics - accounts in agriculture – pilot.....	165
Agri-monetary statistics - price of land and land rent – pilot	166
Fishermen and fishing equipment in maritime fishery.....	167
Fishery in rivers and lakes.....	168
Maritime fishery.....	169
Production of fish and shellfish in mariculture	170
Production of fish in fishponds – aquaculture.....	171
Organic production statistics.....	172
Turnover of pesticide.....	173

3.2 ENERGY

Balance of petroleum products.....	174
Balance of coal.....	175
Balance of wood fuels.....	176
Balance of electricity.....	177
Complex energy balance.....	178
Short-term statistics of petroleum products and electricity prices in households and industry – pilot.....	179

3.3 TRANSPORT

Merchant navy.....	180
Airport infrastructure and traffic in airports	181
Air transport.....	182
Air transport infrastructure and traffic	183
Transport of passengers and goods in railway transport.....	184
Railway infrastructure.....	185
Other passenger road transport.....	186
Freight road transport.....	187
Roads and bridges.....	188
Registered road motor vehicles and trailer vehicles.....	189
Traffic accidents.....	190
Arrivals and departures of ships in ports.....	191
Transshipment in ports.....	192
Transport of passenger and goods in maritime transport.....	193
Infrastructure in maritime transport.....	194
Postal and telecommunication services.....	195
Postal and telecommunication network.....	196
Traffic of passengers and goods at airports by airport pairs.....	197

3.4 TOURISM

Visits of foreign cruise ships.....	198
Arrivals and overnights of tourists in collective accommodation.....	199
Nautical tourism.....	200
196 Arrivals and overnights of tourists in private accommodation.....	201

Arrivals and overnights of tourists, total.....	202
---	-----

3.5 SCIENCE, TECHNOLOGY AND INNOVATION

Statistical survey on scientific and research activity – research and development.....	203
Statistical survey on government budget allocations for R&D (GBARD statistics)	204
Innovation activities of enterprises.....	205
Survey on the ICT use in households and by individuals.....	206
Survey on upotrebi informaciono-komunikacionih tehnologija u preduzećima	207

ENVIRONMENT AND MULTIDOMAIN STATISTICS

4.1 ENVIRONMENT

Environmental accounts – pilot.....	208
Collection and processing of waste.....	209
Municipal waste.....	210
Generated waste.....	211
Survey on generated waster from food – pilot	212
Use and protection of water against pollution in industry.....	213
Irrigation	214

4.2 SUSTAINABLE DEVELOPMENT INDICATORS

Sustainable development indicators from the EU list.....	215
Sustainable development indicators from the UN list.....	216

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2023

Module 1.1.1.

Demography, migration, and projections

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2023

PRIORITY AREA:	Demography and Social Statistics	
Ordinal number of survey:	1	Code of survey: DEM-1
Producer of the official statistics:	Statistical Office	
Organizational unit:	Demography and Migration Statistics Department	
Name of the survey:	Birth statistics	
Level of publishing data:	Municipality, Montenegro	
Publishing periodicity:	Annual	
Source of data:	Administrative source - Ministry of Interiors	
Deadline for data collection:	Up to the 5th in a month for the previous month	
Deadline for publishing data:	Monthly preliminary data: data for November 2022 - 31 January 2023; December 2022 - 28 February 2023; January 2023 - 30 March 2023; February 2023 - 27 April 2023; March 2023 - 31 May 2023; April 2023 - 29 June 2023; May 2023 - 31 July 2023; June 2023 - 31 August 2023; July 2023 - 28 September 2023; August 2023 - 31 October 2023; September 2023 - 30 November 2023; October 2023 - 28 December 2023 Annual final data: 11 April 2023 for the previous year.	
Research method:	Administrative source	
Connection with the European Statistics:	Priority area 1, Module 1.1.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	1.1.	Population
Aim of the survey:	Statistics of births seeks to produce the data on demographic characteristics of the child born alive as well as demographic and socio-economic characteristics of the parents. The obtained data are needed for the analysis of natural increase at the level of Montenegro and municipalities. The data are the basis for the calculation of a series of analytical demographic indicators used in order to develop the analysis of any current or future structure of the population. The data are collected from the municipal birth register kept by Ministry of Interior.	
Financial resources required for the implementation of statistical survey:	16,200.91

Quarterly and annual National Accounts: main aggregates

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA: Economic Statistics

Ordinal number of survey: 70 Code of survey: BDP-O

Producer of the official statistics: Statistical Office

Organizational unit: Annual National Accounts Statistics Department

Name of the survey: Calculation of annual gross domestic product by production approach

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance; Central Bank of Montenegro; Revenue and Customs Administration; Ministry of Defence; Ministry of Science and Technological Development; Insurance Supervision Agency; Capital Market Authority; Health Insurance

Deadline for data collection: Up to the end of June 2023 for the previous year

Deadline for publishing data: Annual final data: 20 September 2023 for the previous year, under the annual GDP release

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.6.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:
The aim of the Gross Domestic Product - GDP calculation by production approach is to obtain main and most important macroeconomic aggregate in the National Accounts – NA system. This aggregate represents a result of production activities of all residential institutional units which is an indicator of economic activities at the level of the entire country. GDP by production approach is calculated as the sum of value added of all residential institutional units increased for taxes on products minus subsidies on products. The data on gross value of production, intermediary consumption and gross value added are available at the level of Activity Classification (KD 2010) sector, at the annual level.

Financial resources required for the implementation of statistical survey: 15,810.13

Responsible person : Snežana Bogojević, Bojana Čupić, Dijana Ristović, Zora Bošković - Konjević, Milica Pejović, Irena Karadžić, Ivan Kavarić, Ana Batalović, Dragana Nogulović

Connection with the European Statistics: Priority area 2, Module 2.1.6.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:
The aim of quarterly calculation of Gross Domestic Product - GDP is to measure economic activities of business entities with quarterly periodicity, registered and classified by Activity Classification – KD 2010, harmonized with the European Classification NACE Rev. 2. The calculation of quarterly GDP - QGDP is done by using data from regular statistical surveys, different information on prices and quantities, as well as other indicators from the statistical system, and other available data sources and financial reports. QGDP by production approach is calculated as the sum of value added of all residential institutional units increased by taxes on products minus subsidies on products.

Organizational unit: Annual National Accounts Statistics Department

Name of the survey: Establishing an integrated system for the supply and use table compilation - pilot

Level of publishing data: Montenegro

Publishing periodicity: Annual

Source of data: Administrative source - Ministry of Finance; Central Bank of Montenegro; Revenue and Customs Administration; Ministry of Defence; Ministry of Science and Technological Development; Insurance Supervision Agency; Capital Market Authority; Health Insurance F

Deadline for data collection: Up to the end of March 2023 for the reference year 2017

Deadline for publishing data:

Research method: Compilation

Connection with the European Statistics: Priority area 2, Module 2.1.7.

Development of activities in accordance with the Programme of official statistics 2019 - 2023 year: 2.1. Macroeconomics

Aim of the survey:

Observation and identifying of all necessary data sources aimed at the production of supply and use tables which represent an integral part of National Accounts - NA system. They in details describe production process and flows of goods and services in the NA system. Supply table represents a total supply of goods and services achieved by domestic production and import. Use table presents an intermediary consumption by product and activities, product use for final consumption, gross investments, export and components of value added by activities. Supply and use tables provide an accounting framework for compiling national accounts, having total supply and use of certain types of goods and services mutually balanced. Supply and use tables also provide main information for obtaining detailed supply and use tables that can be used for the purposes of economic analyses and projections.

International trade of goods

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic Statistics	
Ordinal number of survey:	136	Code of survey: STRR
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	International trade in goods of Montenegro	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly, annual	
Source of data:	Administrative source - Revenue and Customs Administration	
Deadline for data collection:	Monthly: up to the 20th in a month for the previous month; Annual: up to 15 March of current year for the previous year	
Deadline for publishing data:	Monthly preliminary data: Up to the end of current month for the previous month; Annual final data: Up to the end of April of the current year for the previous year	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 2, Module 2.4.5.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.4.	International trade of goods - services and Balance of Payme
Aim of the survey:	<p>The aim of international trade in goods is monitoring the trade of goods with abroad. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in goods statistics is an important source of data for national accounts, balance of payment statistics, and short-term economic analyses. It is also important for monitoring a competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements. Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and Combined Nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of chapters, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.</p>

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	138	Code of survey:	CPI
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	Consumer price index		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).		
Deadline for data collection:	Up to 28th in a month for the current month		
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.5.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5. Prices		
Aim of the survey:	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of labour price, in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses, as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.

Harmonised consumer price indices

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2022

PRIORITY AREA:	Economic Statistics		
Ordinal number of survey:	139	Code of survey:	HICP
Producer of the official statistics:	Statistical Office		
Organizational unit:	Price Statistics and Foreign Trade Statistics Department		
Name of the survey:	Harmonised consumer price indices		
Level of publishing data:	Montenegro		
Publishing periodicity:	Monthly		
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar, where the highest turnover is achieved).		
Deadline for data collection:	Up to 28th in a month for the current month		
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period		
Research method:	Price monitoring		
Connection with the European Statistics:	Priority area 2, Module 2.5.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	2.5. Prices		
Aim of the survey:	Harmonized Index of Consumer Prices (HICP) is the basis for comparative measurements of inflation in Europe, as well as the evaluation of stability of monetary value in the euro zone. Unlike consumer price index, HICP uses a different methodological concept used by all EU member states. Every EU member state is obliged to produce HICP calculated on the basis of harmonized access and uniform set of definitions. The data will be available at the four-digit level of ECOICOP classification.		
Financial resources required for the implementation of statistical survey:	13,981.00

Tourism statistics

ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2023

PRIORITY AREA:	Sector Statistics	
Ordinal number of survey:	196	Code of survey: TU-11K
Producer of the official statistics:	Statistical Office	
Organizational unit:	Business Statistics, Foreign Affiliate Statistics and Structural Business Statistics Department	
Name of the survey:	Arrivals and overnights of tourists in collective accommodation	
Level of publishing data:	Municipality, Montenegro	
Publishing periodicity:	Monthly	
Source of data:	Business entities and business entity units providing services in collective type of accommodation (hotels, boarding houses, motels, tourist villages, resorts, hostels, camps, inns, etc.).	
Deadline for data collection:	Up to 10th in a month for the previous month	
Deadline for publishing data:	Monthly preliminary data: data for December 2022 - 31 January 2023; January 2023 - 28 February 2023; February 2023 - 30 March 2023; March 2023 - 27 April 2023; April 2023 - 31 May 2023; May 2023 - 29 June 2023; June 2023 - 27 July 2023; July 2023 - 31 August 2023; August 2023 - 28 September 2023; September 2023 - 31 October 2023; October 2023 - 30 November 2023; November 2023 - 28 December 2023 Monthly final data: three months after the end of reference period	
Research method:	Reporting method	
Connection with the European Statistics:	Priority area 3, Module 3.4.1.	
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	3.4.	Tourism
Aim of the survey:	The implementation of this survey will provide monthly data on: number of visits and overnights of domestic and foreign tourists in collective accommodation facilities by country of tourist's residence; number of visits and overnight stays of domestic and foreign tourists in collective accommodation facilities by municipalities. Collective accommodation facilities include hotels, pensions, motels, tourist settlements, resorts, hostel camps, etc. Collective accommodation does not include individual, so called "private accommodation" (accommodation in houses and rooms for rent, as well as suites for tourists).	
Financial resources required for the implementation of statistical survey:	45,101.68

Connection with the European Statistics:	Priority area 4, Module 4.3.1.		
Development of activities in accordance with the Programme of official statistics 2019 - 2023 year:	4.3.	Sustainable development indicators	
Aim of the survey:	At its 70th session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016, which defines possibilities and obligations of official statistical producers in Montenegro for the production of indicators. Statistical Office as the coordinator of statistical system will contribute to the production of indicators pursuant to UN and EU list by the implementation of planned statistical surveys at the annual level, but will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources, as well as for necessary additional statistical surveys.

EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 and 47/19) define the preparation of the Annual Plan of Official Statistics.

The Annual Plan of Official Statistics for 2023 is planning the implementation of 213 statistical surveys. Out of the total number of planned statistical activities, 165 (i.e. 77%) will be done by the Statistical Office, as the main coordinator and disseminator of statistical data, while 48 (i.e. 23%) planned activities will be done by other official statistics producers.

Pursuant to the 2023 Annual Plan of Official Statistics, the domain of official statistics is divided in four domains, and accordingly 213 statistical activities are planned: Demography and social statistics (60); Economic Statistics (84), Sectorial statistics (60), and Environmental and multi-domain statistics (9).

The summary of the Annual Plan of Official Statistics for 2023:

1. **Pilot statistical surveys** (25) which are introduced in cases when it is necessary to perform the assessment of methodology or quality of data source which needs to be collected by the statistical survey. Under the competence of Statistical Office there are 23 pilot statistical surveys, and there are 2 under the competence of Central Bank of Montenegro.
2. **New statistical surveys** (4), out of which 3 are introduced by the Statistical Office and 1 by Central Bank of Montenegro:
 - 1) Crime indicators;
 - 2) Pilot census of agriculture by using CAPI method for data collection;
 - 3) Survey on generated waste from food, and
 - 4) Statistics of other financial institutions - factoring companies.

A proposal of planned resources in the budget of Montenegro for the purpose of implementing the Annual Plan of Official Statistics for 2023 of the Statistical Office is 7 696 447.82€ (out of which 7 268 741.84€ are planned resources from the general revenue of the budget, while 427 706.00€ are funds from donations).
