# ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

A 3D graphic of a ribbon or banner, rendered in light blue and grey tones, with a perspective view. The year "2024" is printed in blue on the right side of the ribbon.

2024

## TABLE OF CONTENTS

### DEMOGRAPHY AND SOCIAL STATISTICS

#### 1.1. POPULATION

1.	Birth statistics	2
2.	Statistics of deaths	3
3.	Marriage statistics	4
4.	Divorce statistics	5
5.	Population estimates	6
6.	Main demographic indicators	7
7.	Statistics of internal migrations	8
8.	Statistics of immigration in Montenegro	9
9.	Statistics of emigration from Montenegro - pilot	10
10.	Acquisition and loss of citizenship statistics - pilot	11
11.	Census of population, households, and dwellings in 2023	12
12.	Gender statistics	13
13.	Illegal migration statistics	14
14.	Asylum statistics	15
15.	Residence permits - pilot	16

#### 1.2. LABOUR MARKET

16.	Labour Force Survey (LFS)	17
17.	Statistical survey on insured persons - employees by activity and municipality	18
18.	Statistical survey on average earnings of employees	19

#### 1.3. EDUCATION AND LIFELONG LEARNING

19.	Statistical survey for preschool education	20
20.	Primary education statistics	21
21.	Adult primary education statistics	22
22.	Secondary education statistics	23
23.	Statistical survey on academic, professional staff, and structure of higher education organizations	24
24.	Statistical survey on enrolment of students (undergraduate studies)	25
25.	Statistical survey on graduated students (undergraduate studies)	26
26.	Statistical survey for PhD holders	27
27.	Statistical survey on pupils and students' homes	28
28.	Enrolment to postgraduate and doctoral studies	29
29.	Statistical survey for master degree holders and specialists	30

#### **1.4. HEALTH**

30.	Multiple Indicator Cluster Survey - MICS	31
31.	Report on human resources in health care	32
32.	Report on organization and work of hospitals	33
33.	Report on completed compulsory immunization against infectious diseases	34
34.	Survey on injuries at work	35
35.	Survey on causes of death	36
36.	Report on treated patients in in service of hospital-patient treatment	37

#### **1.5. INCOME AND CONSUMPTION**

37.	Survey on income and living conditions (EU-SILC)	38
-----	--	----

#### **1.6. SOCIAL PROTECTION**

38.	Beneficiaries of social and child care allowances	39
39.	Social protection in Montenegro	40
40.	Beneficiaries of accommodation services in social and child care institutions	41
41.	Report on pension and disability insurance beneficiaries	42
42.	Report on pension and disability insurance beneficiaries (annual)	43

#### **1.7. JUSTICE AND CRIME**

43.	Statistical survey on adults against whom proceeding based on criminal charges and previous proceedings have been concluded	44
44.	Statistical survey on adults against whom criminal proceedings have been concluded	45
45.	Statistical survey on minors against whom proceedings based on criminal charges and preparation proceedings have been concluded	46
46.	Statistical survey on minors against whom criminal proceedings before the panel have been legally concluded	47
47.	Crime indicators	48

#### **1.8. CULTURE**

48.	Statistical survey on cinemas	49
49.	Statistical survey on theatres	50
50.	Statistics of electronic media	51
51.	Statistical survey on archives	52

## **ECONOMIC STATISTICS**

### **2.1. MACROECONOMICS**

52.	Establishment of framework and elements necessary for production of non-financial sector accounts – pilot	54
53.	Creation of elements required for the calculation of gross domestic product: the calculation of gross value added of the non-financial sector	55
54.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for financial sector	56
55.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of the government sector	57
56.	Creation of elements required for the calculation of gross domestic product: calculation of financial intermediation services indirectly measured	58
57.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added in service and household product	59
58.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added of entrepreneurs	60
59.	Creation of elements required for the calculation of gross domestic product: calculation of gross value added for agriculture sector Agriculture, forestry and fishery according to the 2010 Activity Classification	61
60.	Calculation of annual gross domestic product by production approach	62
61.	Calculation of annual gross domestic product of Montenegro by expenditure approach	63
62.	Calculation of quarterly gross domestic product by expenditure approach	64
63.	Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	65
64.	Creation of elements required for the calculation of gross domestic production by expenditure approach: household final consumption	66
65.	Creation of elements required for the calculation of gross domestic production by expenditure approach: gross fixed capital formation	67
66.	Creation of elements necessary for the calculation of gross domestic product by income approach	68
67.	Calculation of quarterly Gross Domestic Product of Montenegro by production approach	69
68.	Creation of elements required for the calculation of quarterly Gross Domestic Product - QGDP by production approach	70
69.	Creation of elements required for the calculation of quarterly Gross Domestic Product - QGDP by expenditure approach	71
70.	Calculation of quarterly Gross Domestic Product by income approach - pilot	72
71.	Calculation of annual Gross Domestic Product by income approach	73
72.	Creation of elements required for the calculation of quarterly Gross Domestic Product by income approach - pilot	74

73.	Establishing an integrated system for the supply and use table compilation	75
74.	Calculation of annual Gross National Income	76
75.	Creation of elements required for the estimation of non-observed economy as a constituent part of Gross Domestic Product - pilot	77

## **2.2. GOVERNMENT FINANCE STATISTICS, MONETARY AND FINANCIAL STATISTICS**

76.	Statistics of other financial institutions – leasing companies	78
77.	Statistics of other financial institutions – microcredit financial institutions	79
78.	Statistics of monetary financial institutions	80
79.	Interest rate statistics	81
80.	Financial soundness indicators	82
81.	Statistics of other financial institutions - factoring companies	83
82.	Statistics of other financial institutions – companies for purchase of receivables	84
83.	Report on excessive deficit and debt	85
84.	Government finance statistics in line with ESA2010	86
85.	Analysis of consolidated public spending	87
86.	Data on receipts, government expenditure per month	88
87.	Data on government and local self-government revenues and expenditure at the annual level	89

## **2.3. BUSINESS STATISTICS**

88.	Investment in fixed assets (quarterly) - pilot	90
89.	Structural survey on business of enterprises	91
90.	Investments In fixed assets	92
91.	Industrial production (PRODCOM)	93
92.	Indices of industrial production and turnover	94
93.	Producer price index of industrial products	95
94.	Producer Price Index of Industrial Products for Export	96
95.	Price Index of Industrial Products from Import	97
96.	Prices of apartments in new construction	98
97.	Construction works and consumption of construction material - companies	99
98.	Construction activity	100
99.	Construction permits and registration of works	101
100.	Turnover Index of retail trade	102
101.	Turnover index in wholesale trade	103
102.	Turnover in retail trade by commodity groups	104
103.	Turnover index in services	105
104.	Services producer price index - pilot	106

## **2.4. INTERNATIONAL TRADE IN GOODS – SERVICES AND BALANCE OF PAYMENTS**

105. International investment position (IIP)	107
106. Survey on trade loans and deposits - pilot	108
107. Balance of payments of Montenegro	109
108. Survey on credit transactions with foreign resident	110
109. External debt of Montenegro	111
110. Inward foreign affiliates' statistics IFATS	112
111. Outward foreign affiliates' statistics OFATS - pilot	113
112. Survey on matters of direct foreign investment (annual)	114
113. Survey on matters of direct foreign investment (quarterly)	115
114. Survey on international transactions related to construction services - pilot	116
115. Indices of unit values of exports and imports of goods	117
116. International trade in goods of Montenegro	118
117. International trade in goods of Montenegro by enterprise characteristics (TEC)	119
118. International trade in goods of Montenegro by invoicing currency - TIC	120

## **2.5. PRICES**

119. Consumer price index	121
120. Harmonized consumer price indices	122
121. Harmonized consumer price indices in administrative prices	123
122. Harmonized index of consumer prices at constant tax rates - pilot	124
123. Creation of elements necessary for the calculation of Purchasing Power Parity: Survey "consumer goods"	125
124. Gross domestic product and real individual consumption per capita, by purchasing power parity	126
125. Creation of elements necessary for the calculation of Purchasing Power Parity: survey "Construction"	127
126. House price index - pilot	128
127. Owner occupied house price index - pilot	129

## **SECTOR STATISTICS**

### **3.1. AGRICULTURE, FORESTRY AND FISHERY**

128. Production of forest assortments in state forests	131
129. Survey on area, production of forest assortments, cut, damages, protection, and machinery in state and private forests	132

130. Forestry accounts - pilot	133
131. Labour force, consumption of energy products, and machinery in forestry - pilot	134
132. Hunting	135
133. Veterinary	136
134. Achieved yields from early crops	137
135. Achieved yields of late crops, fruit, and grape	138
136. Areas and plantations at the end of spring sowing	139
137. Slaughtering livestock and poultry in slaughterhouses	140
138. Number of livestock and poultry	141
139. Entrance of raw milk and obtained milk products in dairies	142
140. Census of agriculture	143
141. Prices of agricultural products, raw materials, resources, and services provided for agriculture – pilot	144
142. Expenditures and agricultural production of agricultural holdings - pilot	145
143. Sale of agricultural products from own production of agricultural companies and agricultural cooperatives	146
144. Purchase of agricultural products from individual producers	147
145. Accounts in agriculture - pilot	148
146. Prices of land and land rents - pilot	149
147. Fishermen and fishing equipment in maritime fishery	150
148. Fishery in rivers and lakes	151
149. Maritime fishery	152
150. Production of fish and shellfish in mariculture	153
151. Production of fish in fishponds - aquaculture	154
152. Organic production statistics	155
153. Turnover of pesticide	156

### **3.2. ENERGY**

154. Balance of petroleum products	157
155. Balance of coal	158
156. Balance of wood fuels	159
157. Balance of electricity	160
158. Short-term statistics of petroleum products - pilot	161
159. Prices of electricity in households and industry	162
160. Short-term statistics of coal	163
161. Short-term statistics of electricity	164

### **3.3. TRANSPORT**

162. Trade navy	165
163. Airport infrastructure and traffic at airports	166
164. Air transport	167
165. Infrastructure and traffic in air transport	168
166. Transport of passengers and goods in railway transport	169
167. Railway infrastructure	170
168. Other passenger road transport	171
169. Freight road transport	172
170. Roads and bridges	173
171. Registered road motor vehicles and trailer vehicles	174
172. Traffic accidents	175
173. Arrivals and departures of ships in ports	176
174. Transshipment in ports	177
175. Postal and telecommunication services	178
176. Postal and telecommunication network	179
177. Traffic of passengers and goods at airports by airport pairs	180

### **3.4. TOURISM**

178. Arrivals and overnights of tourists in collective accommodation	181
179. Nautical tourism	182
180. Visits of foreign cruise ships	183
181. Arrivals and overnights of tourists in private accommodation	184
182. Arrivals and overnight stays of tourists, total	185
183. Tourism satellite accounts (TSA) - pilot	186
184. Tourist activity of Montenegro population - pilot	187

### **3.5. SCIENCE, TECHNOLOGY AND INNOVATION**

185. Statistical survey on scientific and research activity – research and development	188
186. Survey on the ICT use in households and by individuals	189
187. Survey on the ICT use in enterprises	190

## **ENVIRONMENT AND MULTIDOMAIN STATISTICS**

### **4.1. STATISTICS OF ENVIRONMENT**

188. Environmental accounts - pilot	192
189. Investments for environmental protection - pilot	193
190. Collection and processing of waste	194

191. Municipal waste	195
192. Generated waste	196
193. Number and capacity of facilities for waste treatment	197
194. Generated waste from food - pilot	198
195. Waste water from settlements	199
196. Supply of settlement with water	200
197. Use and protection of water against pollution in industry	201
198. Irrigation	202

#### **4.2. SUSTAINABLE DEVELOPMENT INDICATORS**

199. Sustainable development indicators from the UN list	203
200. Sustainable development indicators from the EU list	204

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Demography and Social Statistics		
Ordinal number of survey:	1	Code of survey:	DEM-1
Producer of the official statistics:	Statistical Office		
Organizational unit:	Demography and Migration Statistics Department		
Name of the survey:	Birth statistics		
Level of publishing data:	Municipality, Montenegro		
Publishing periodicity:	Annual		
Source of data:	Administrative source - Ministry of Interiors		
Deadline for data collection:	Up to the 5th in a month for the previous month		
Deadline for publishing data:	Monthly preliminary data: Data for November 2023 - 31 January 2024; December 2023 - 29 February 2024; January 2024 - 29 March 2024; February 2024 - 30 April 2024; March 2024 - 31 May 2024; April 2024 - 28 June 2024; May 2024 - 31 July 2024; June 2024 - 30 August 2024; July 2024 - 30 September 2024; August 2024 - 31 October 2024; September 2024 - 29 November 2024; October 2024 - 31 December 2024 Annual final data: 11 April 2024 for the previous year		
Research method:	Reporting method		
Connection with the European Statistics:	Priority area 1, Module 1.1.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	1.1.	Population	
<b>Aim of the survey:</b>	Statistics of births seeks to produce the data on demographic characteristics of the child born alive as well as demographic and socio-economic characteristics of the parents. The obtained data are needed for the analysis of natural increase at the level of Montenegro and municipalities. The data are the basis for the calculation of a series of analytical demographic indicators used in order to develop the analysis of any current or future structure of the population.		
Financial resources required for the implementation of statistical survey:	17,701.67 EUR

Producer of the official statistics:	Statistical Office	
Organizational unit:	Annual National Accounts Statistics Department	
Name of the survey:	Creation of elements required for the calculation of gross domestic product: calculation of the government sector spending	
Level of publishing data:	Montenegro	
Publishing periodicity:	Quarterly and annual, under the Gross Domestic Product	
Source of data:	Administrative source: Ministry of Finance; Ministry of Defence; Ministry of Science and Tehnological Development; Health Insurance Fund	
Deadline for data collection:	Quarterly: 60 days after the end of quarter; Annual: up to the end of June of the current year for the previous year	
Deadline for publishing data:	Quarterly preliminary data: I quarter - 12 June 2024; II quarter - 18 September 2024, III quarter - 11 December 2024; IV quarter - 12 March 2025 within the release of QGDP Annual final data: 18 September 2024 for the previous year, within the release of annual GDP	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 2, Module 2.1.6.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.1.	Macroeconomics
<b>Aim of the survey:</b>	The calculation of government units' expenditure is done with purpose of the calculation of final expenditure of government that covers individual and collective consumption. The data on final expenditure of government are in accordance with the Classifications of the Functions of Government - COFOG classification. It is done with purpose of obtaining the input for the GDP calculation. The data are available at the level of total government consumption, as well as at the level of individual and collective government consumption.	
Financial resources required for the implementation of statistical survey:	7,639.37 EUR

International trade of goods

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Economic Statistics	
Ordinal number of survey:	115	Code of survey: UVI
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	Indices of unit values of exports and imports of goods	
Level of publishing data:	Montenegro	
Publishing periodicity:	Quarterly, annual	
Source of data:	Administrative source - Revenue and Customs Administration	
Deadline for data collection:	Quarterly: I quarter - the end of April 2024; II quarter - the end of July 2024; III quarter - the end of October 2024; IV quarter - the end of January 2025 Annual: Up to the end of March 2024 for the previous year	
Deadline for publishing data:	I quarter - end of May 2024; II quarter - the end of August 2024; III quarter - end of November 2024; IV quarter - the end of February 2025 Annual final data: up to the end of June 2024 for the previous year	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 2 Module 2.4.5.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.4.	International trade of goods - services and Balance of Payments
<b>Aim of the survey:</b>	Unit value indices of exports and imports of goods are primarily intended for analytical consideration of the dynamics of the unit value of exports and imports. Indices of export and import prices are calculated as unit value indices, i.e. indices of changes of export and import by quantity unit exported/imported products, i.e. per kg as unique and comparable quantity unit for all products.	
Financial resources required for the implementation of statistical survey:	8,482.25 EUR

International trade of goods

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Economic Statistics	
Ordinal number of survey:	116	Code of survey: STRR
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	International trade in goods of Montenegro	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly, annual	
Source of data:	Administrative source - Revenue and Customs Administration	
Deadline for data collection:	Monthly: up to the 20th in a month for the previous month; Annual: Up to 15 March of the current year for the previous year	
Deadline for publishing data:	Monthly preliminary data: up to the end of the current month for the previous month; Annual final data: until the end of April of the current year for the previous year	
Research method:	Compilation	
Connection with the European Statistics:	Priority area 2 Module 2.4.5.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.4.	International trade of goods - services and Balance of Payments
<b>Aim of the survey:</b>	<p>The aim of international trade in goods is monitoring the trade of goods with abroad. There are recorded and documented all physical transfers of goods, i.e. all goods entering or leaving the territory of Montenegro. International trade in goods statistics is an important source of data for national accounts, balance of payment statistics, and short-term economic analyses. It is also important for monitoring a competitiveness of country or certain regions aimed at successful keeping of economic policies, preparation of trade negotiations and monitoring as well as in the implementation of trade agreements. Under the preparation of international trade in goods, the data processing is done in accordance with the Standards International Trade Classification (SITC) and Combined Nomenclature (CN). The data of foreign trade of goods are published in regular monthly and annual periodicity, in accordance with the Statistical Release Calendar, at the level of chapters, i.e. at the two digit-level of the mentioned classifications. The data of international trade of goods in accordance with the Standard International Trade Classification (SITC) and combined nomenclature (CN) are available at the subgroup level, i.e. at the four-digit level.</p>

Harmonised consumer price indices

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Economic Statistics	
Ordinal number of survey:	119	Code of survey: CPI
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	Consumer price index	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly	
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar), where the highest turnover is achieved.	
Deadline for data collection:	Up to the 28th in a month for the previous month	
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period	
Research method:	Price monitoring	
Connection with the European Statistics:	Priority area 2 Module 2.5.1.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.5.	Prices
<b>Aim of the survey:</b>	The aim of survey is the calculation of inflation. Consumer price index (CPI) is an indicator of average change in prices of fixed basket of goods and services that households buy for the purpose of consumption. In addition to serving as a measure of inflation, it can be also used for the harmonization of labour price, in accordance with collective contracts; for harmonization of salaries, pensions, and social benefits. Also, it is used to preserve values in the contracts with index clauses, as well as deflator of individual macroeconomic aggregate in the statistics of national accounts. The data will be available at the four-digit level of ECOICOP classification.	
Financial resources required for the implementation of statistical survey:	19,339.02 EUR

Harmonised consumer price indices

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Economic Statistics	
Ordinal number of survey:	120	Code of survey: HICP
Producer of the official statistics:	Statistical Office	
Organizational unit:	Price Statistics and Foreign Trade Statistics Department	
Name of the survey:	Harmonised index of consumer price indices	
Level of publishing data:	Montenegro	
Publishing periodicity:	Monthly	
Source of data:	All types of retail buildings (shops of all types and sizes, green markets, craft workshops, enterprises providing public services, restaurant, sport, culture and education buildings and similar), where the highest turnover is achieved.	
Deadline for data collection:	Up to the 28th in a month for the previous month	
Deadline for publishing data:	Monthly final data: 15 days after the end of reference period	
Research method:	Price monitoring	
Connection with the European Statistics:	Priority area 2 Module 2.5.1.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	2.5.	Prices
<b>Aim of the survey:</b>	Harmonized Index of Consumer Prices (HICP) is the basis for comparative measurements of inflation in Europe, as well as the evaluation of stability of monetary value in the euro zone. Unlike consumer price index, HICP uses a different methodological concept used by all EU member states. Every EU member state is obliged to produce HICP calculated on the basis of harmonized access and uniform set of definitions. The data will be available at the four-digit level of ECOICOP classification.

<b>PRIORITY AREA:</b>	Sector Statistics	
Ordinal number of survey:	187	Code of survey: IKTP
Producer of the official statistics:	Statistical Office	
Organizational unit:	Statistics of Innovation, Household Consumption and ICT Survey Department	
Name of the survey:	Statistical survey on ICT use in enterprises	
Level of publishing data:	Montenegro	
Publishing periodicity:	Annual	
Source of data:	Enterprises	
Deadline for data collection:	Up to 15 April 2024 for the current year	
Deadline for publishing data:	Annual final data: 31 October 2024 for the current year	
Research method:	Sample-based surveys	
Connection with the European Statistics:	Priority area 3, Module 3.5.3.	
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	3.5.	Science, technology, and innovation
<b>Aim of the survey:</b>	The aim of the survey is to obtain the data on the distribution and use of ICT by enterprises.	
Financial resources required for the implementation of statistical survey:	82,057.43 EUR

### ANNUAL PLAN OF OFFICIAL STATISTICS FOR 2024

<b>PRIORITY AREA:</b>	Environment and multi-domain statistics		
Ordinal number of survey:	199	Code of survey:	
Producer of the official statistics:	Statistical Office		
Organizational unit:	International Cooperation and European Integration Department and National Coordination of Statistical Data Sources Department		
Name of the survey:	Sustainable development indicators from UN list		
Level of publishing data:	Montenegro		
Publishing periodicity:	Annual		
Source of data:	Statistical surveys of Statistical Office		
Deadline for data collection:	/		
Deadline for publishing data:	/		
Research method:	Compilation		
Connection with the European Statistics:	Priority area 4, Module 4.3.1.		
Development of activities in accordance with the Programme of official statistics 2024 - 2028 year:	4.2.	Sustainable development indicators	
Aim of the survey:	<p>At its 70th session held in September 2015, UN General Assembly adopted the 2030 Agenda for Sustainable Development. The Agenda applies to all countries having in mind different national circumstances, capacities and development level, respecting national policies and priorities. It defines 17 universal aims and 169 tasks referring to the entire world, both on developed and developing countries. The Government of Montenegro adopted the National Strategy of Sustainable Development up to 2030 at its session on 7 July 2016, which defines possibilities and obligations of official statistical producers in Montenegro for the production of indicators. Statistical Office as the coordinator of statistical system will contribute to the production of indicators pursuant to UN and EU list by the implementation of planned statistical surveys at the annual level, but will not be able to meet the defined complex obligations within the monitoring of the implementation of the National Strategy of Sustainable Development implementation up to 2030, i.e. Agenda for Sustainable Development up to 2030 if a satisfying level of resources (spatial, technological, and financial) is not provided. It is about an extreme challenge that should be supported by a significant increase in the Budget of Montenegro to ensure additional necessary resources, as well as for necessary additional statistical surveys.</p>		
Financial resources required for the implementation of statistical survey:	3,491.76 EUR

## EXPLANATION

Articles 23 and 24 of the Law on Official Statistics and Official Statistical System (Official Gazette of Montenegro No 18/12 of 30 March 2012 and 47/19 of 12 August 2019) define the preparation of the Annual Plan of Official Statistics.

**The Annual Plan of Official Statistics for 2024 is planning the implementation of 200 statistical surveys.** Out of the total number of planned statistical surveys, 172 (i.e. 86%) will be done by Statistical Office, as the main coordinator and disseminator of statistical data, while 28 (i.e. 14%) planned statistical surveys will be done by other official statistical producers. pursuant to the 2024 Annual Plan of Official Statistics, the domain of official statistics is divided in four domains. Accordingly, there is planned the implementation of 200 statistical surveys in the following domains: Demography and social statistics (51); Economic statistics (76); Sector statistics (60), and Environmental and multi-domain statistics (13).

As the summary of the Annual Plan of Official Statistics for 2024, highlighted is the following: **Pilot statistical surveys** (27), introduced when there is a need to do the assessment of methodology or quality of data source which should be collected by the statistical survey. Under competence of Statistical Office, there are 25 pilot statistical surveys, while 2 statistical surveys are under competence of Central Bank of Montenegro. Pilot statistical surveys are from domain of: Demography and social statistics (3); Economic statistics (12); Sector statistics (9), and Environmental and multi-domain statistics (3).

**New statistical surveys** (6) are introduced in statistical domain of environment and multidomain statistics, and economic statistics:

- Investment for environmental protection - pilot;
- Multiple indicator cluster survey - MICS;
- Statistics of immigration to Montenegro;
- Statistics of emigration from Montenegro - pilot.
- Establishment of elements necessary for the calculation of quarterly gross domestic product by income approach - pilot;
- Calculation of quarterly gross domestic product by income approach - pilot;

A proposal of planned resources in the Budget of Montenegro for the purpose of implementation of Statistical Office's Annual Plan of Official Statistics for 2024 is 12 233 275.28 euro (out of which 11 740 045.99 euro are planned resources from the general budget income, and 493 229.29 euro are the resources from donations).

Pension and Disability Insurance Fund planned the resources in amount of 9 639.00 euro, while other institutions of statistical system reported no costs for the implementation of statistical surveys planned by the Annual Plan of Official Statistics for 2024.
