

Indices of industrial production and turnover

III Quarter 2021

Industrial production in Montenegro in III quarter 2021 compared with III quarter 2020 increased by 0.4%. At the sector level, compared to III quarter 2020, Mining and quarrying decreased by 17.7%, the Manufacturing increased by 13.6% and the Electricity, gas, steam and air conditioning supply decreased by 13.3%.

Industrial production in Montenegro in III quarter 2021 compared with II quarter 2021 increased by 25.9%. At the sector level, compared to II quarter 2021, Mining and quarrying increased by 117.4%, the Manufacturing increased by 11.1% and the Electricity, gas, steam and air conditioning supply increased by 44.3%.

Graph 1. Quarterly and annually rate of industrial production, in %

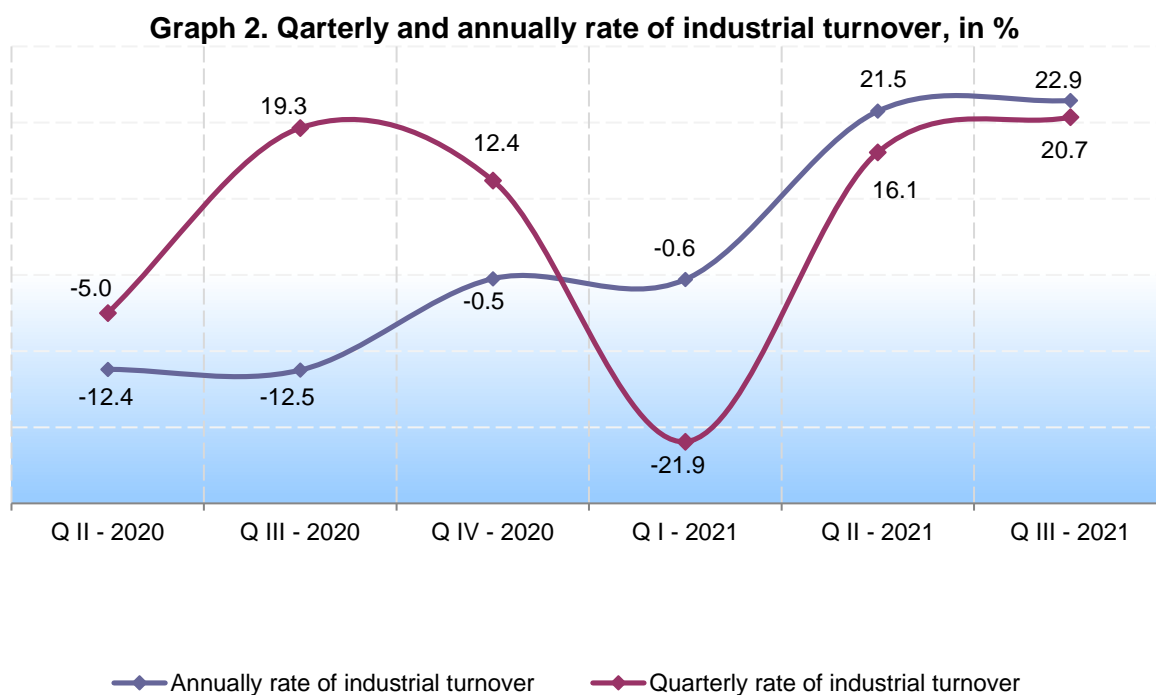

- ❖ **Annually rate of production** – change in production in a current quarter compared with the same quarter of the previous year, in %.
- ❖ **Quarterly rate of production** – change in production in a current quarter compared with the previous quarter, in %.

C	Manufacturing	140.8	114.2	138.6	123.8

¹ Calculated index is higher than 300.0

METHODOLOGICAL NOTES

Industrial production and turnover indices are one of the most important short-term indicators and a basis for decision making in the area of economy.

Industrial survey is harmonized with EU Regulation 1165/98 and Regulation 1502/2006 and the concepts and definition used in this survey are in line with these regulations. Survey provides the data on industrial production and turnover in industry.

Statistical Business Register (SBR) is used as the frame for the coverage for the purposes of this survey. Reporting units for industrial production indices are businesses engaged in the industrial production (sectors B, C and D of Activity Classification), while for calculate industrial turnover indices are businesses engaged in the industrial production (sectors B and C of Activity Classification), as well as parts of commercial businesses classified into other sectors of Activity Classification. and they satisfy the criteria for this survey.

Quantities of finished products covered by sections B, C and D of Activity Classification are used for calculation of industrial production index-total. Turnovers in sections B and C of Activity Classification are used for calculation of industrial turnover index-total. according mentioned EU Regulations.

The data are published according [Data publishing calendar](#).

According to the Revision policy of the Statistical Office, the final data shall be published with the date defined by the Statistical Release Calendar.
