Pre-primary education and child care

2023/2024

In Montenegro there are 53 pre-primary institutions of which 21 institutions are public and 32 are private, with the network of 165 child care units, within which there were organised 848 child care groups.

The total number of children enrolled in pre-primary institutions in school year 2023/2024 is 25 077. Of the total number of children, there are 47.8% (11 993) of enrolled girls and 52.2% (13 084) of boys. The share of enrolled children is higher for 1.7% in comparison with the previous school year. Of the total number of children, children enrolled in public institutions account for 95.2%.

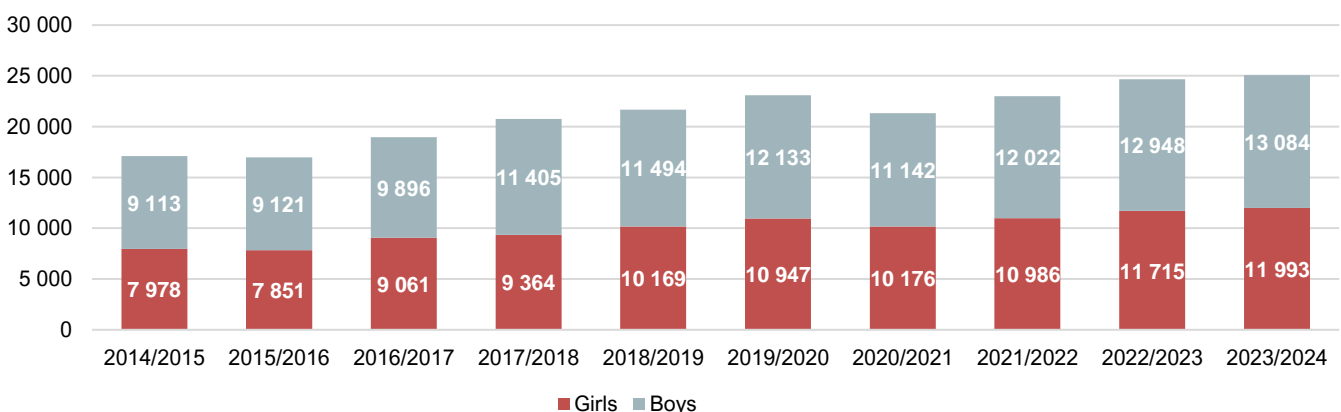

The average number of children per educational group in public pre-primary institution is 30, and in private is the 13.

Of the total number of employees in pre-primary institutions, child-care workers account for 45.5%.
