METHODOLOGICAL NOTES

Wholesale statistics covers and presents turnover of enterprises with the wholesale as their main activity.

The survey is conducted on the basis of a sample and includes companies that are registered in Area 46 according to the Classification of Activities (NACE Rev2). Sample covers all large and medium-sized enterprises, while small enterprises are set by using the random sample method.

The turnover in the wholesale trade is a value of goods delivered by companies/organizations engaged in the turnover: wholesale trade companies, other companies for further manufacturing, and large customers for their own consumption (health and social care organizations, education, defence, etc.).

The data are published in line with the [Statistical Release Calendar](#).

According to the Revision Policy of the Statistical Office, the final data shall be published with the date defined by the Statistical Release Calendar.

When using the data, state:

"Data source: Statistical Office - MONSTAT"

More data, as well as detailed methodological notes can be found in the section: [Turnover in wholesale trade](#)
