METHODOLOGICAL EXPLANATIONS

Source of data and coverage

Annual report on construction works covers all works performed during the reference year by enterprises classified into sector F - Construction: legal entities not classified into construction activity but whose local units perform construction activities.

Definitions

Value of works covers all used building material and workloads whether they are paid or not. Data on value of works done relate to works performed during reference year on finished and unfinished constructions.

Value of works performed by contractors' – legal entities is given on the basis of annual compilations, while the value of works performed by individuals is based on available documentation or estimation.

Works performed on constructions are shown according to the construction sites, and not by the contractor's main office.

Dwelling is any residential construction unit intended for habitation, consisting of one or more rooms with necessary auxiliary spaces (such as: kitchen, bathroom, lobby, pantry, toilet, etc.) or without auxiliary spaces and with one or more separate entries.

Dwelling are is useful floor area of dwelling, measured by the inner walls of dwelling.
