METHODOLOGICAL NOTES

Data source and coverage

This release presents the data collected by using the reporting method on questionnaire *Quarterly report on building permits - GRAĐ-10*. The data are obtained from the ministry competent for the issues of construction and secretariat of local self-government.

Definitions

The investor is a person for whose needs a construction is built, i.e. a person who finance the construction and on whose name the building permit is issued. Investor may be both legal and natural person.

Building is a structure that has a roof and external walls, whether they are independent or shared walls in cases where one building leans to the other, with one or more entrance, It was built like a independent usable units and purposes of the for housing.

Dwelling is any connected unity in construction permits, intended for dwelling, consisted of one or more rooms with appropriate additional premises (kitchen, bathroom, lobby, pantry, toilet, and similar), or without additional rooms, and it can have one or more separate entrances.

Floor area is useful floor area measured inside the dwelling walls.
