### METHODOLOGICAL NOTES

The survey of Industrial production (PRODCOM) are one of the most important indicators and used as a basis for decision making in the area of economy.

Industrial survey is harmonized with EU Regulation 3294/91 and the concepts and definition used in this survey are in line with these regulations. Survey provides the data on industrial production and turnover in industry.

Statistical Business Register (SBR) is used as the frame for the coverage for the purposes of this survey. Reporting units for industrial production are businesses engaged in the industrial production (part of sector B and sector C of Activity Classification), as well as parts of commercial businesses classified into other sectors of Activity Classification, and they satisfy the criteria for this survey.

The data are published according [Data publishing calendar](#).

The last published data are considered preliminary and becomes final within the defined deadline, as foreseen by the Statistical Release Calendar.
