Industrial production 2011

The production of more important industrial products in Montenegro in 2011 can be presented in different manners. Important industrial products are products classified in the area of Activity Classification with the largest share in the total industrial production.

In 2011 the production of the following products increased compared with the production from 2010, lignite with an increase of 1 937 847 t, to 1 972 671 t, i.e. 1.8%, spruce and fir lumber an increase of 46 062 m³ to 62 937 m³, i.e. 36.6% and steel ingots with 33 178 t to 42 271 t, i.e. 27.4%.

In 2011 there was a decrease of production among the following products when compared with the production from 2010, electricity with 4 169 009 MWh to 2 805 932 MWh, i.e. 32.7%, beer from 423 799 hl to 404 396 hl, i.e. 4.6%, and pasteurized milk with 24 493 hl to 21165 hl, i.e. 13.6%.

Graph 1. Annual indices of industrial production

Production of more important industrial products, 2011

NACE	Name of products	Unit of measurement	2007	2008	2009	2010	2011
C	MINING AND QUARRYING						
10	Lignite	t	1195515	1740076	957164	1937847	1972671
13	Red bauxite	t	667053	671811	45779	61205	158164
14	Sea salt	t	20000	25200	17000	11200	10000
D	MANUFACTURING						
DA	MANUFACTURE OF FOOD PRODUCTS, BEVERAGES AND TOBACCO						
15	Fresh meat	t	1013	1046	1075	1426	1387
15	Pasteurized milk	hl	27002	28739	27664	24493	21165
15	Wheat flour	t	21282	34344	38065	31408	34310

40	Total	MWh	2144001	2828010	2759751	4169009	2805932

METHODOLOGICAL NOTES

Annual survey IND-21 collects the following data on industrial production: quantities of stocks at the beginning of the year; production realized (within that there are presented the data on produced quantities, and separately for service produced quantities); quantity spent for further manufacture; quantity at the end of year; quantity; and value of product sale. A separate list monitors purchase, expenditures, stocks of energy, and fuel for operating and technological purposes.

The **reporting method** is applied – every reporting unit drafts a report in the form (questionnaire) IND-21. Reporting units submit the Annual Report on Industry for previous year to the responsible regional unit, not later than 20 April of current year. The data sources are bookkeeping, warehouse records, and other records, and documentation available at the reporting unit.

The reporting unit should submit the filled questionnaire IND-21 to responsible statistical authority, not later than 20 April of current year for previous year.

The deadline for first results of processing IND-21 by the side of MONSTAT is 30 October of current year.
