

OBRAZOVANJE

Izvori i metode prikupljanja podataka

Podaci o osnovnom, srednjem i visokom obrazovanju prikupljaju se redovnim godišnjim izvještajima.

Obuhvat

Godišnjim izvještajima statistike obrazovanja obuhvaćeno je osnovno, srednje i visoko obrazovanje. Podaci za osnovno i srednje obrazovanje odnose se na kraj školske godine, dok se podaci za upisane studente i nastavno osoblje na visokim školama, fakultetima i akademijama odnose na zimski semestar u kome je izvršen upis studenata. Podaci o diplomiranim studentima, specijalistima, magistrima nauka i doktorima nauka, odnose se na kalendarsku godinu.

Definicije

U statistici obrazovanja pod pojmom škola podrazumijeva se obrazovno-vaspitna ustanova ili jedinica koja obavlja obrazovno vaspitnu djelatnost ostvarivanjem nastavnog plana i programa. Kao škola je prikazana svaka školska jedinica, bez obzira da li je samostalna škola, matična škola, jedinica u sastavu (područno odjeljenje) ili odjeljenje pri drugoj vrsti škole.

Redovno osnovno obrazovanje

Osnovno obrazovanje i vaspitanje je obavezno za svu djecu uzrasta od šest do petnaest godina života. Osnovno obrazovanje i vaspitanje traje devet godina.

Osnovne škole obuhvataju područna odjeljenja-jedinice u sastavu i to: četvororazredne, petorazredne, samostalne i matične devetorazredne (potpune) osnovne škole.

Redovno srednje obrazovanje

Srednja škola može biti osnovana kao gimnazija, umjetnička ili kao stručna škola.

U gimnaziji se stiče opšte obrazovanje iz prirodnih i društvenih nauka radi nastavljajnja školovanja. Školovanje u gimnaziji traje četiri godine.

U umjetničkoj školi se stiče IV stepen stručne spremlje iz oblasti muzičke i baletske umjetnosti. Školovanje traje četiri godine.

U stručnoj četvorogodišnjoj školi se stiče IV stepen stručne spremlje, odnosno srednje obrazovanje za rad i dalje školovanje. Stručne škole su: građevinska, mašinska, poljoprivredna, šumarska, medicinska, ekonomska, ugostiteljska, trgovinska, saobraćajna, pomorska i dr.

U trogodišnjim stručnim školama stiče se III stepen stručne spremlje.

Od školske 1987/88. godine, u srednjim školama, učenici se od prvog razreda obrazuju za odgovarajuću struku, odnosno zanimanje, a od školske 1990/91. godine srednje obrazovanje se realizuje po područjima rada i u okviru njih po obrazovnim profilima (zanimanjima).

Obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama (osnovno i srednje)

Obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama je obrazovanje djece i mladih ometene u psihičkom ili fizičkom razvoju. Učenici se, po pravilu, primaju u starosti školske obaveze, ali i preko nje. Nastavni plan i program ovih škola u skladu je s planom i programom odgovarajuće redovne škole, prilagođen stepenu ometenosti učenika.

Odjeljenja za obrazovanje i vaspitanje djece sa posebnim obrazovnim potrebama pri odgovarajućim redovnim školama prikazana su kao školske jedinice, što je u saglasnosti sa definicijom škole kao jedinice posmatranja

EDUCATION

Sources and methods of data collection

Data on primary, secondary and higher education are collected through regular annual surveys.

Coverage

Annual surveys of education statistics cover primary, secondary and higher education institutions. Data on primary and secondary education relate to the end of a school year, whereas data on enrolled students and teaching staff in higher schools, faculties and academies refer to the winter semester when students were enrolled. Data on graduated students, specialists, master's and doctor's degree holders, refer to the calendar year.

Definitions

As by education statistics, schools are defined as educational institutions or units performing educational activity according to established educational plan and programme. Each school unit is presented as a school, no matter whether it is autonomous school, central school, regional school departments or separate department within different type of school.

Regular primary education

Primary education is obligatory for all children aged 6-15 years. Primary education lasts nine years.

Primary schools comprises regional school departments-units according to the following: four-year, five-year, independent and central nine-year (complete) primary schools

Regular secondary education

Secondary school can be established as gymnasiums, art school or vocational school.

Gymnasiums provide general education in natural and social sciences as a good basis for further education. The schooling lasts for four years.

Art school provides the 4th degree specialist's qualifications in fine arts, music and ballet. The schooling lasts for four years.

All four-year vocational schools provide 4th degree specialist's qualification, i.e. secondary education necessary for work and/or for further schooling. Vocational schools are construction, mechanical engineering, agriculture, forestry, health, economics, catering, business, naval and other schools.

Three-year vocational schools provide 3rd degree of specialist's qualification.

As of school year 1987/88, in secondary schools, students from the first grade had been educated for a certain vocation or occupation branch while as of school year 1990/91, secondary education has been realized by fields of work including educational profiles (occupations).

Education of children with special educational needs (primary and secondary)

Education of children with special educational needs is education of children and youth disturbed in psychological and physical development. Pupils are registered into schools at the age when school obligation is compulsory but also over that age border. Curriculum of these schools is in accordance with curriculum of certain regular school, adapted to the level of disturbance of pupils.

Classes for education of children with special educational needs in corresponding regular schools are shown as school units, which is in line with the definition of school as an observation unit.

Obrazovanje odraslih

U školama za obrazovanje odraslih omogućuje se licima starijim od 15 godina života (odrasli), koji redovno ne pohađaju školu, da steknu osnovno obrazovanje i vaspitanje.

Odrasli osnovnu školu mogu završiti pohađanjem nastave ili polaganjem ispita. Osnovno obrazovanje za odrasle organizuje se po razredima od I do IX i traje četiri godine. Organizaciono, ove škole se javljaju kao posebne škole.

Srednje obrazovanje odrasla lica stižu kao vanredni učenici u srednjim školama.

Osnovne muzičke i baletske škole

Osnovne muzičke i baletske škole pripremaju djecu za nastavak školovanja u srednjim muzičkim i baletskim školama. Školovanje traje od dvije do šest godina i paralelno je s redovnim osnovnim školama.

Osnovna muzička i baletska škola u sastavu srednje umjetničke škole prikazana je kao osnovna muzička i baletska škola.

Visoko obrazovanje

Do školske 2004/05.god. visoko obrazovanje je obuhvatalo više škole, fakultete i umjetničke akademije. Visoko obrazovanje se stiže (za studente koji su upisali prije školske 2004/05.) na fakultetima i umjetničkim akademijama na kojima nastava traje najmanje četiri godine, a više obrazovanje se stiže završavanjem prvog stepena visokoškolske nastave ili više škole na kojima nastava traje dvije godine (dvogodišnje studije).

Akademске 2003/04.god. na većini fakulteta prva godina studija je organizovana u skladu sa principima Bolonjske deklaracije, a od akademske 2004/05. god. ovaj način studiranja primjenjuje se na svim fakultetima. Prema Zakonu o visokom obrazovanju (Sl. List RCG, br. 60/03) postoje tri nivoa visokog obrazovanja: osnovne studije, postdiplomske studije (specijalističke i magistarske) i doktorske studije. Visoko obrazovanje se ostvaruje kroz: akademske i primijenjene studijske programe.

Status studenta stiže se upisom na odgovarajući studijski program. Student može imati status budžetski finansiranog ili samofinansirajućeg studenta. Na privatnim visokoškolskim ustanovama studenti plaćaju školarinu i imaju status samofinansirajućih studenata.

Stopa upisa

Stopa upisa u predškolske ustanove predstavlja odnos ukupnog broja upisane djece u predškolske ustanove na stotinu djece starosti 0-5 godina.

Stopa upisa u osnovnu školu predstavlja odnos broja učenika koji su upisali osnovnu školu (ISCED 1+2) uključujući i djecu u resursnim centrima na početku školske godine na 100 djece uzrasta 6 - 14 godina.

Stopa upisa u srednju školu predstavlja odnos broja učenika koji su upisali srednju školu (ISCED 3) uključujući i djecu u resursnim centrima na početku školske godine na 100 djece uzrasta 15 -18 godina.

Stopa upisa na visoko obrazovanje predstavlja odnos broja studenata koji su upisali studije na visokoškolskim ustanovama (ISCED 5-8) na početku akademske godine na 100 stanovnika, uzrasta 19 - 27 godina.

Adult education

Schools for adults' education provide possibility to persons over 15 years (adults) who are not regularly attending a school, to acquire elementary education and training.

Adults can complete primary school by either regular attending of school or taking exams. Primary education for adults is organized by grade from I to IX and lasts for four years. Organizationally, these are recognized as separate schools.

Adults acquire a secondary education as part-time students in secondary schools.

Primary music and ballet schools

In primary music and ballet schools, pupils are being prepared for further schooling in secondary music and ballet schools. Schooling lasts from two to six years and goes in parallel with regular primary schooling.

Primary music and ballet art school within a secondary art school is shown as primary music or ballet school.

Higher education

Until school year 2004/05, higher education included high schools, faculties and art academies. Higher (tertiary education) – faculties and academies (for students enrolled before the school year 2004/05) is received at faculties and art academies, and is lasting minimum 4 years, while high (post-secondary non-tertiary education) is received upon completion of first degree of higher education or completion of high schools, whereas in both cases the schooling lasts 2 years.

In almost all faculties the first year of studies of academic year 2003/04, was organized in consistency with Bologna Declaration, while as of 2004/05 academic year it has been applied in all faculties. Pursuant to the Law on Higher Education (Official Gazette of the Republic of Montenegro 60/03), there are three levels of higher education: basic studies, postgraduate studies (specialist and master) and PhD studies. Higher education is achieved through: academic and applied study programmes.

The status of student is acquired with the entering an appropriate study programme. Student may have the status of state-financed or self-financed student. In private higher education institutions, students pay the tuition fee and possess the status of self-financed students.

Enrollment rate

The enrollment rate in preschool education is the ratio of the total number of children enrolled in pre-schools per 100 of children aged 0-5 years.

The enrollment rate in primary school is the ratio of the number of pupils who enrolled in primary school (ISCED 1 2) including children in resource centers at the beginning of the school year per 100 children aged 6 - 14 years.

The enrollment rate in secondary school is the ratio of the number of pupils who enrolled in secondary school (ISCED 3) including children in resource centers at the beginning of the school year per 100 children aged 15 - 18 years

The enrollment rate in higher education is the ratio of the number of students who enrolled in the studies at institutions of higher education (ISCED 5-8) at the beginning of the academic year per 100 people aged 19 - 27 years.
