## 1 INTRODUCTORY NOTES

The publication "Annual statistics of transport, storage and communications - 2019" contains final annual data about development and condition of means of transport, business entities engaged in transport, as well as traffic final data postal, courier and telecommunication services.

Each transport activity is presented in a separate chapter in the following order: railway transport, road and local road transport of passengers, transport of goods by road, roads network, registered vehicles, traffic accidents, transshipment in the ports, turnover of goods in ports, report on the merchant navy, traffic at airports, air transport and postal and telecommunications activities.

Statistical chapters contain an introduction, notes on methodology, table and data analysis.

The results of research in the field of statistics, transport and communications are published in other statistical publications: (i) Statistical Yearbook, (ii) the Monthly Statistical Review, (iii) statistical releases.

Legal basis for conducting research in the field of transport statistics, the Law on Official Statistics and System of Official Statistical ("Gazette of Montenegro", no. 18/12 and 47/19).

## 2 METHODOLOGICAL NOTES

### 2.1 Source of data

The data of transport are the result of regular quarterly surveys.

Data source:

- (i) for rail transport are reporting units with the carriage of passengers and goods by rail prevailing activity (Section H, field 49);
- (ii) road passenger traffic reporting units with the carriage of passengers in road traffic prevailing activity (Section H, field 49);
- (iii) road freight transport vehicles for transportation of goods payload of 3500 kg and higher, as well as tractors. Sources of data are legal and natural persons who are owners or users of vehicles, there are in the sample. Frame for sample selection is a database of registered vehicles that are obtained from Ministry Interior of Montenegro;
- (iv) local road traffic reporting units with the carriage of passengers in local road (urban)

- traffic prevailing activity (Section H, field 49);
- (v) traffic at airports reporting units that perform service activities in air traffic (Section H, field 52);
- (vi) air traffic reporting units which operate in air traffic (Section H, field 51);
- (vii) report on the arrival and departure of ships reporting units are the Port Authority and Maritime safety department of Montenegro;
- (viii) reloading the reporting unit which is engaged manipulating freight (shipping in ships and unloading from them) core business (Section H, field 52);
- (ix) postal and telecommunications traffic reporting unit is Agency for electronic communications and postal service
- (x) Source data for the number of road traffic accidents is Montenegro police directorate and the number of registered road motor vehicles and trailers Ministry of Interior of Montenegro.

## 2.2 Coverage

The surveys cover enterprises with 5 or more employees who are in the Classification Unit Register according to the Classification of activities, 2010 in Section H divisions 49, 50, 51, 52, 53 and Section J divisions 61.

## 2.3 Compliance survey of transport with the EU acquis

Statistics railway transport is conducted in accordance with Regulation (EC) No. 91/2003 and No. 2018/643.

Statistics of road freight transport is conducted in accordance with Regulations (EC) No. 1172/98 and no. 70/2012.

Statistics port traffic is conducted in accordance with Directive (EC) No. 2009/42 and no. 2012/186.

Statistics of traffic safety is conducted in accordance with Decision (EC) No. 93/704.

Statistics of transport of passengers and cargo at airports is conducted in accordance with Regulation (EC) No. 437/2003.

Other research of transport does not rely on the acquis of the European Union.

## 2.4 Definitions

Transport is the movement of passengers and goods and from place of loading to place of unloading.

**Passenger** is every person with ticket or appropriate document with the aim to travel to desired place.

**Passenger kilometer** presents the transport of one person over the distance of 1 km.

**Goods** transported are goods transferred based on the contract on transport. The quantity of goods transported is expressed in gross weight, meaning that the quantity of goods covers also

the quantity of packaging or packing material (containers).

**Tone-kilometer** indicate transport of one-tone goods over the distance of 1 km.

**Trans-shipped tons** of cargo related to the total amount of cargo that passes through the transshipment business entity, where the same load, regardless of the number of manipulations that it has executed, shown only once.

**Manipulated tons** are a unit of performance that expresses the sum of operations registered by kind that are made (unloading, loading, reloading the direct transfer).

**Postal service** is a service of receiving, processing, transfer and delivering letter mails in accordance with accepted standards.

**Letter** is a type of communication in written form on paper or other appropriate data carrier, which must be sent and delivered to the address indicated by the sender on the item or letter cover.

**The package** is a postal consignment containing goods and items.

**Other printed papers** are printed publications issued by the publisher of a daily, occasionally or in a given period (newspapers and magazines).

**Fixed telecommunication is services** providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

**Mobile telecommunication is services** providing to users the access to public mobile network, and the use of mobile telecommunication services.

**Traffic accident** is an event that occurred on the road or the start on the road, which was attended by at least one vehicle in motion and in which one or more persons injured or killed or died within 30 days of the result of the traffic accident or a result damage to property.

**Registered road motor vehicle** and trailer are all vehicles registered in the Ministry of Interiors, except military vehicles.

For the **first time registered vehicles include**: new and imported vehicles, i.e. vehicles with the first-time registration in Montenegro.

**Methodological notes:** It may happen that the total sum does not match the number of individual data, and that the cumulative data is not always equal to the sum of individual quarterly results due to rounding of numbers.

According to the Revision policy of the Statistical Office, the **final data** shall be published with the date defined by the Statistical Release Calendar.

### 3 RAILWAY TRANSPORT

Data rail traffic result of regular quarterly and annual surveys on reporting units with the carriage of passengers and goods by rail prevailing activity. Statistical survey is carried out in accordance with Regulation (EC) No. 91/2003 and No. 2018/643.

**The railway** is intended solely for movement of train. Data on the length of railway lines are shown as building and as the really length.

**Building length** is measured from baseline to end point. Building length: open line and length of the main wicket-track in stations and other official places.

**The really length** of the line is the length of the open line and cellular transient gauge, and is measured from the middle to the middle station buildings or other official sites.

Number of passengers carried by rail in 2019 compared to 2018 decreased by 0.6%, but number transported goods in the same period increased by 17.1%.

The actual length of the railway line in Montenegro in 2019 amounted to 250 km railway line is single track all the single-phase system of 25 KV, 50Hz.

The number of stations and other official places is 48, of which stops constitute 54.2%, stations 25.0%, while other official sites constitute 20.8%.

## 4 ROAD AND LOCAL ROAD TRANSPORT

The data of road and local road transport are the result of a regular quarterly and annual surveys of reporting units with the carriage of passengers and goods by road and local road traffic prevailing activity.

Number of passengers carried in road transport in 2019 compared to 2018 increased by 0.8%, while the local road traffic this increase amounted to 2.7%.

## 5 TRANSPORT GOODS BY ROAD

Survey of road freight transport conducted according to the Regulation (EC) No.1172/98 and 70/2012.

The survey is conducted on a sample. Data are collected through benchmarking. The observation unit is goods road motor vehicle with payload capacity 3 500 kg and higher, as well as tractors. The data sources are natural and legal persons which are owners or operators of vehicles. Frame for sample selection is a database of registered vehicles that are obtained from Ministry Interior of Montenegro

**Road transport** is any movements of goods and/or passengers using a road vehicle on a given road network.

**National road transport** is transport between two places (a place of loading and a place of unloading) located in the same country in which the vehicle is registered.

**International road transport** is transport between two places (a place of loading and a place of unloading) in two different countries. It may involve transit through one or more additional country or countries.

**Road cabotage is transport** is national road transport performed by a motor vehicle registered in another country.

**Cross-trade road transport** is international road transport performed by a road motor vehicle registered in a third country.

**Tonne kilometre** is unit of measure representing the movement of one tonne available in a road goods vehicle when performing services for which it is primarily intended over one kilometre.

**Transport for hire or reward** is the carriage for remuneration, of persons or goods, on behalf of third parties.

**Transport on own account** is transport which is not for hire or reward.

**Goods road motor vehicle** is any single road motor vehicle designed to carry goods (lorry), or any coupled combination of road vehicles designed to carry goods, (i.e. lorry with trailer(s), or road tractor with semitrailer.

**Road tractor** is road motor vehicle designed, exclusively or primarily, to haul other road vehicles which are not power-driven.

Transport by types of goods classified under classification of goods **NST 2007**.

**Table 6. Classification of goods for transport statistics NST 2007**

<b>Groups of goods</b>
1. Products of agriculture, hunting, and forestry; fish and other fishing products
2. Coal and lignite; crude petroleum and natural gas
3. Metal ores and other mining and quarrying products; peat; uranium and thorium ores
4. Food products, beverages and tobacco
5. Textiles and textile products;
6. Wood and products of wood and cork (except furniture); articles of straw and plaiting materials; pulp, paper and paper products; printed matter and recorded media
7. Coke and refined petroleum products
8. Chemicals, chemical products, and man-made fibers; rubber and plastic products; nuclear fuel
9. Other non-metallic mineral products
10. Basic metals; fabricated metal products, except machinery and equipment
11. Machinery and equipment n.e.c.; office machinery and computers; electrical machinery and apparatus n.e.c.; radio, television and communication equipment and apparatus; medical, precision and optical instruments; watches and clocks
12. Transport equipment
13. Furniture; other manufactured goods n.e.c.
14. Secondary raw materials; municipal wastes and other wastes
15. Mail, parcels
16. Equipment and material utilized in the transport of goods
17. Goods moved in the course of household and office removals; baggage and articles accompanying travellers; motor vehicles being moved for
18. Grouped goods: a mixture of types of goods which are transported together
19. Unidentifiable goods: goods which for any reason cannot be identified and therefore cannot be assigned to groups 01-16.
20. Other goods n.e.c.

In the 2019. road goods motor vehicles registered in Montenegro carried 886 thousands tons of goods and performed 80 926 thousand tonne-kilometers.

Kilometres travelled by loaded vehicles was 3 855 thousands kilometres.

In the structure of transported goods, national transport participates with 93.5% or 828 thousands tons of goods, while international transport participates with 6.5%, or 58 thousands tons of goods. Of the total transported 886 thousands tons of goods transport of hire or reward transported were 197 thousands tons of goods, or 22.2%, while in transport on own account realized 689 thousands tons of goods, or 77.8%.

In the structure of performed tonne-kilometers internal transport participates with 68.1% or 55 148 thousands tonne-kilometers and international transport with 31.9% or 25 778 thousands tonne-kilometers. In transport for hire or reward is realized 32 060 thousands tonne-kilometers or 39.6%, while in transport on own account realized 48 866 thousands tonne-kilometers or 60.4%.

## 6 ANNUAL SURVEY ON ROAD NETWORK

Reporting units for survey on roads network and bridges are local administration.

**Road** is every surface that has a permanent place traffic. Data on the roads by type of road are grouped into three basic groups: asphalt, gravel and earthen.

Modern roads are considered roads with pavement veiled asphalt, concrete or gambling.

Other kind of protection are gravel, cobbles, bricks, and the like.

**Earthen road** was built without a lane.

**Uncategorized road** surface is used for traffic on any basis and made available to multiple users (rural, field and forest roads, roads on dikes for flood protection, parking lots, etc.).

**The bridge** is a building structure that traffic translates over water, valleys, roads or any other obstructions.

Length of roads in the 2019 amounted to 9 249 km, which is 2.3% more than in the 2018 when it was 9 038 km. Regarding the type of road the highest share in the 2019 year had an asphalt surface whose length was 6 333 km (68.5%), followed by gravel with 1 839 km (19.9%) and earthen roads with 1 077 km (11.6%).

## 7 NUMBER OF REGISTERED ROAD MOTOR VEHICLES AND TRAILERS

The reporting unit for the data of number registered road motor vehicles and trailers are the Ministry of Interiors of Montenegro.

**Registered road motor vehicle** and trailer are all vehicles registered in the Ministry of Interiors, except military vehicles.

**For the first time registered** vehicles include: new and imported vehicles, i.e. vehicles with the first-time registration in Montenegro.

**Age of road vehicle** is time passed from the first registration of road motor vehicle regardless of registration country.

Number of registered road motor vehicles and trailers in 2019 amounted to 249 301, which is 5.9% more than in 2018, when the number of registered road motor vehicles and trailers totaled 235 385.

Number of first time registered road motor vehicles and trailers in 2019 amounted to 23 687, which is 5.6% less than in 2018, when the number of first time registered road motor vehicles and trailers was 25 099.

## 8 NUMBER OF INJURY ACCIDENTS IN MONTENEGRO

The reporting unit for the number of road traffic accidents is Montenegro Police Administration. Statistics of traffic safety is conducted in accordance with Decision (EC) no. 93/704.

The publication presents data on the number of traffic accidents, as well as the injured and killed people in road accidents.

**Traffic accident** is an event that occurred on the road or the start on the road, which was attended by at least one vehicle in motion and in which one or more persons injured or killed or died within 30 days of the result of the traffic accident or a result damage to property.

**Killed persons** shall be any person who is killed instantly or died within 30 days of the result of traffic accidents with injured persons.

**Injury person** is any person who is not killed, but who sustained injuries in the accident with injured face and that usually requires medical care.

**Casualties** is any person killed or injured as a result of an injury accident.

The number of traffic accidents in 2019 was 6 210, as compared to 2018 increased by 5.8%, when the number of accidents was 5 872.

Number of casualties in 2019 was 2 801 (of which 2 754 injured and 47 killed persons), which is increased by 7.3% compared to 2018.

## 9 TRANSSHIPMENT IN PORTS

Reporting units for data on transshipment companies whose core activity is the manipulation of cargo (loading and unloading of ships in from them) preavailing activities.

The publication presents data on transshipment of goods in ports, as well as data on inventory condition of transfer of funds.

**Gantry cranes** all types of cranes fixed to land or rail cargo handling by ship or boat.

**Overhead cranes** include all kinds of cranes in the warehouse, or open space, which are used to move cargo.

**Auto-cranes** represent a special type of motor vehicles is determined by the crane (arrows).

**Auto-lifts** (forklifts) are motor vehicles where the load is placed on the forks or other attachments

**Trans-sippedtons** of cargo related to the total amount of cargo that passes through the transshipment business entity, where the same load, regardless of the number of manipulations that it has executed,shown only once.

**Manipulated tons** is a unit of performance that expresses the sum of operations registered by kind that are made (unloading, loading, reloading the direct transfer).

Unloading includes unloading goods from the vehicle to the ground, the coast or other spaces for the facility (warehouse, factory grounds and the like.).

Loading involves loading goods from the country, coast or other areas of transportation.

**Direct transshipment** entails transshipment of goods from one vehicle to another, without the use of space on the ground, coast

Trans-shipment tons in 2019 compared to 2018 increased by 1.7%, while the number of manipulated tons of goods increased by 22.4%.

## 10 TRAFFIC OF GOODS IN PORTS

Data traffic n goods in ports are the result of a regular quarterly surveys for which the reporting unit Port Authority and Maritime safety department of Montenegro. Statistical survey is carried out in accordance with Directive (EC) no. 2009/42 and no. 2012/186.

Ports are places for loading/embarkation and unloading/disembarkation passengers and goods at the seashore built particularly for this purpose, while docks are similar places on riverbanks and lake fronts.

Total goods transport in ports in 2019 compared with 2018 increased by 4.5%.

## 11 ANNUAL SURVEY OF MERCHANT NAVY

The reporting unit for information about the merchant fleet is the Ministry of Transport.

**Passenger ship** are ship designed specifically to carry more than 12 fare-paying passengers.

**Freight ship** are ship intended freight. There are include tankers.

**Tugboats** (tractors) ships are intended for towing vessels of other units.

**The capacity** of means of transport is expressed in GRT (gross tonnage registration), cargo capacity, passenger stations, the number of beds and kW (power).

**Fishing boat**, this category includes boats for fishing vessels and fish processing.

**GRT-gross** tonnage is a measure of the total size of the ship determined in accordance with the provisions of the International Convention on tonnage measurement of ships, 1969.

**DWT- the** loading capacity of the ship, including fuel, lubricants, etc., for the normal functioning of the ship, measured in tons, when the ship is immersed in a water line.

**Technical facilities** at ports in number and maximum size vessel that can accommodate include: docks, rafts, special dock for ship repair

**Table 25. Merchant navy ships, 2019**

	Total	GRT(gross tonnage)	Capacity Passengers	Loading space DWT	Power, kw
<b>1. Ocean-going vessels total</b>	<b>4</b>	<b>89 488</b>	<b>-</b>	<b>142 072</b>	<b>25 660</b>

## 13 TRAFFIC AT AIRPORT

Data traffic of goods and passengers at the airports are the result of the regular quarterly and annual surveys of that reporting unit enterprises providing services in air transport. Since 2016 statistics of transport of passengers and cargo at airports is harmonized with Regulation (EC) no. 437/2003 implementation of pilot survey of air transport " Turnover of passengers, freight and mail by pairs of airports in departure / arrival of aircraft at the reported airport". Pilot survey include scheduled and non- scheduled commercial flights to the Montenegrin airports. In data do not include non-commercial general aviation operations as well as state flights (military, customs, police).

**Airport** is defined area of land or water (including any buildings, facilities, and equipment) intended to be used either aircraft take-off and landing, as well as for movements of aircrafts on the land area, and open for commercial air transport operations.

**Passengers in aircraft** are all passengers in aircraft when the aircraft landing at the reporting airport or take-off of aircraft from the reporting airport.

**Goods** are any goods that are transported for a fee, other than mail, baggage and airline stocks.

**Passengers in direct transit** are passengers who, after a short stop, continue their journey by plane the same flight number.

**The number of commercial operations** including take-off and landing aircraft at the reporting airport realized in order to achieve commercial air services (regular and irregular).

**Number of total operations** includes all take-off and landing aircraft at the reporting airport (except state flights). Included are all commercial operations (regular, emergency operations and general aviation), as well as all the operations of non-commercial general aviation (business, sailing, private, training, testing, positioning, technical stops, etc.). Do not include state flights (military, customs, police)

**Runway** is a designated rectangular area at the airport of intended landing and takeoff of aircraft, which has the following characteristics:

- **Available length for takeoff**

The length of runway declared available and suitable for the ground run of an aircraft taking off.

- **Available lengths to stop**

The length of runway which is declared available and suitable for the ground run of an aircraft landing.

Number of passengers at airports in 2019 compared to 2018, increased by 8.1%, while goods transported in the same period decreased by 6.4%.

<sup>8</sup> Data of the pilot survey of air transport " Turnover of passengers, freight and mail by pairs of airports in departure / arrival of aircraft at the reported airport" are harmonized with the Regulation (EC) No. 437/2003 and include scheduled and non- scheduled commercial flights to the Montenegrin airports. In data do not include non-commercial general aviation operations as well as state flights (military, customs, police)

## 12 AIR TRANSPORT OF PASSENGERS

Data of air transport are the result of the regular quarterly and annual surveys of reporting units, which operate in air traffic.

**Number of aircraft** at the end of the year relates to the inventory status of assets owned by the company.

**Number of passenger seats** refers to the number of seats onboard the aircraft which the inventory status is given at the end of the year.

**Net carrying capacity**, kg, or available, the payload capacity of an aircraft that is designed to carry passengers, baggage, cargo and mail.

**Standing-regular lines** are those on which the transport is performed during the year and where public transport is performed by a particular schedule (timetable).

**The number of lines** is the sum of all the lines, taking each line in only one direction. If the circuit will only go in one direction, is taken as one line. If you later impose traffic in the opposite direction, the number of lines remains unchanged.

**The total length of the line** represents the sum of the length of each line in one direction. The total length of the line and take all the lines that existed during the year, regardless of the time in which they exerted on the traffic and the number of flights performed.

**Scheduled air service** for passenger and goods transport is a commercial air service operated according to a published timetable.

**Non-scheduled air service** is a commercial air service other than scheduled air service.

**Passenger** is any person who has purchased a plane ticket or equivalent document of a plane and entered the plane in order to be transported to the place of commitment

**The realized passenger kilometers** is one of the main performance indicators of the organization of air traffic, and refer to the total length of transportation of all passengers on all routes at home and abroad

The number of passengers carried by scheduled air transportation in 2019 compared to 2018 increased by 5.8% and the number of passengers carried by non-scheduled transport in air traffic over the same period decreased by 15.2%

## 13 POSTAL AND TELECOMMUNICATION ACTIVITIES

Data of the postal and telecommunications traffic result of regular quarterly and annual surveys on reporting units with the postal services and telecommunications prevailing activities. Source data for the postal and telecommunications traffic since 2017 is Agency for electronic communications and postal service.

**Postal service** is a service of receiving, processing, transfer, and delivering letter mails in accordance with accepted standards.

**Postal network** of universal postal operator is a set of postal facilities, equipment, and other means which are connected in a universal, technical and technological unity for purpose of providing universal postal service.

**Post office delivery** perform tasks receipt, dispatching, arrival and delivery of postal items.

**Post offices without delivery area** opens, generally, in areas with more postal office, and performs reception, arrival and dispatch of mail, with a team that can perform and delivery of postal items to the post office.

**Seasonal post office** are open due to increased demand for services (e.g. during the tourist season).

**Letter** is a type of communication in written form on paper or other appropriate data carrier, which must be sent and delivered to the address indicated by the sender on the item or letter cover.

**Package** is a postal consignment containing goods and items.

**Registered mail** is the item for which the sender is issued a certificate of acceptance and shall be delivered to the recipient with the signature in case of loss, damage or reduced content of the prescribed fee paid damages.

**Other printed papers** are printed publications issued by the publisher of a daily, occasionally or in a given period (newspapers and magazines).

**Fixed telecommunication** is a service providing to users the access to public fixed network at the fixed location, and the use of public accessible telephone service at the fixed location.

**Mobile telecommunication** is a service providing to users the access to public mobile network, and the use of mobile telecommunication services.

**Subscriber means** any natural or legal person who is the provider of publicly available communications services contracted for the purpose of using these services and their provision by the operator.

Consumption of fixed telephony minutes in 2019 compared to 2018 decreased by 15.7%, while consumption of minutes of mobile telephony in the same period increased by 1.1%.
