METHODOLOGICAL NOTES

Data source

The data on wholesale and retail trade of motor vehicles and motorcycles are collected by regular monthly survey. The survey is sample based, and it covers enterprises classified within Register of Classifying Units in Area 45 according to activity classification NACE Rev.2. Until January 2012, the trade of motor vehicles and motorcycles was observed through Monthly Survey on Retail Trade (Trg10). Having implemented the new activity classification NACE Rev.2, the data on trade of motor vehicles and motorcycles are obtained through a separate monthly survey Trg10M and annually survey TRG10g.

Coverage

The statistics on wholesale and retail trade of motor vehicles and motorcycles both covers and presents the turnover of enterprises with the main activity in Area 45. The annual survey on retail trade is carried out on the basis of sample covering all large and medium enterprises, and small and micro enterprises are defined by random sample approach.

Definitions

The turnover of goods in *retail trade* is a value of sold goods of enterprises sold to final consumers, i.e. population for personal consumption and use in households as well as legal and natural persons for performing activity.

The total turnover in wholesale and retail trade of motor vehicles and motorcycles is a sum of turnover in wholesale and retail trade of motor vehicles and motorcycles and other activities an enterprise is engaged with.
