motorcycles, parts and accessories, maintenance and repair	153.3	109.5	-		153.3	109.5

METHODOLOGICAL NOTES

Data source

The data on trade of motor vehicles and motorcycles are collected by regular monthly survey. The survey is sample based, and it covers enterprises classified within Register of Classifying Units in area 45 according to activity classification NACE Rev.2. Until January 2012. Trade of motor vehicles and motorcycles was observed through Monthly survey on retail trade (Trg10). Having applied new activity classification NACE Rev.2, data on trade of motor vehicles and motorcycles are obtained through a separate monthly survey Trg10M and annually survey TRG10g.

Coverage

Statistics on retail trade of motor vehicles and motorcycles also covers and presents turnover of enterprises with main activity in area 45. This annually survey on retail trade is conducted on the basis of sample covering all large and medium enterprises, and small and micro enterprises are defined by random sample approach.

Definitions

The turnover in the wholesale trade is a value of goods delivered by companies/organizations engaged in the turnover: wholesale trade companies, other companies for further manufacturing, and large customers for their own consumption (health and social care organizations, education, defence, etc.).

Turnover of goods in retail trade is a value of sold goods enterprise which was sold to final consumers, i.e. population for personal consumption, household use, and both legal and natural persons for performing activities.

Total turnover in the wholesale and retail trade of motor vehicles and motorcycles is the sum of the wholesale turnover, retail trade, motor vehicles and motorcycles and other activities in which the company is engaged.
