## METHODOLOGICAL NOTES

### Data sources

The data on internal trade of enterprises engaged in the wholesale trade are collected by regular annual survey. This survey is conducted on the basis of stratified sampling and covers all enterprises whose are. according to the Classification of Activities NACE Rev2. classified in the area 46 - Wholesale trade, excluding trade in motor vehicles and motorcycles.

### Coverage

Internal trade statistics covers and presents the turnover of enterprises with the wholesale trade as their main activity. This is a sample based survey which covers all large and medium-sized enterprises, while small enterprises are set by using the random sample method.

### Definitions

The turnover in the wholesale trade is a value of goods delivered by companies/organizations engaged in the turnover: wholesale trade companies, other companies for further manufacturing, and large customers for their own consumption (health and social care organizations, education, defence, etc.).

According to the Revision policy of the Statistical Office, the final data shall be published with the date defined by the Statistical Release Calendar.
